SOME INJURED LIKELY TO DIE.

It Was Believed That at Kirksville Some Unfortunates Perished In Flames That Broke Out In the Ruins-Dead and Injured at Newtown.

KIRKSVILLE, Mo., April 29.-As a result of the tornado, which demolished shout half of the residences and other buildings, 200 families were homeless and nearly 50 dead bodies and 70 injured persons were recovered from the ruins. More than a dozen of the injured will probably die. Although rescuers had been searching the ruins many were missing and it was thought that a considerable number of the unfortunates were consumed in the flames that broke out soon after the storm had ceased. The work of rescue continued, but it was thought that it might be days before the total number of victims was known.

AGUINALDO'S SCHEME.

of utter distress and desolation were pictured in the little tornado-swept burg Tried to Trick Otis Into Recogof Newtown, 40 miles north, on the St. Paul railway. There were about 15 dead and over 30 injured, while half of nizing Government.

AMERICAN GENERAL TOO SHARP.

bent the Rebel Officers Back With the News That He Would Ignore the Filipino Congress-Troops Had a Fight Near Taguig.

Manila, April 29.—Aguinaldo was evidently selecting the army as a cloak for his congress, hoping by subterfuge to overcome General Otis' consistent policy of ignoring the Filipino government. The Filipinos' argument is that it is impossible to arrange an armistice without the sanction of the congress. General Otis punctured this assumption by remarking that if Aguinaldo could make war without the congress he could stop it without reference to that body. One of the conferrees afterward remarked that they are shrewder than white men in diplomacy as the Malays are credited with being.

While the insurgents are undoubtedly tired of war the leaders are torn with

dissensions. There is a suspicion that it was hoped by means of a conference to ascertain what terms they could expect. If they saw that anything is to be gained by continuing the war an armistice would afford them an interesting commentary on Aguinaldo's scheme that only 60 of the 300 members of the Filipino congress have taken the oath of allegiance which their constitution requires.

Colonel Manuel Argueleses and Lieutenant Jose Bernal, chief of General Luna's staff, entered General MacAr-

Special attention given

money in having

About 5 o'clock two Filipino officers escorted by Lieutenant Sladen and Major Maloney left the place. They did not look at all elated as a result of their talk with General Otis and the members of the Philippine commission.

Thursday the Washington regiment,

which was holding Taguig with three companies of the Twelfth regulars, engaged a large force of insurgents in a fight in the jungle. The Americans lost two killed and ten wounded.

The Filipinos had been massing at the mouth of Pasig river and it was estimated that there were 2,000 of them now there. They have mounted two guns—one a 3-inch Krupp—and have thrown a number of shells into the American lines. The gunboat Napidan, which is guarding the entrance to the river, shelled a launch which was carrying supplies.

Thursday a large force of rebels approached the town, seemingly bent upon during the Americans from Calumpit.
Three companies of the Washington
troops sallied from the town and attacked the natives and found that they had their hands full. Two other companies of the Washingtons and three of the Twelfth regulars reinforced them and drove back the enemy, who removed their dead and wounded as they retired as usual.

### VOLUNTEERS PRAISED, ESPECIALLY FUNSTON.

thange In Sentiment In Washington, Good News From Otis Pleasing to Alger-Troops to Go.

Washington, April 29.—A telegram received from General Otis announced that Aguinaldo and taken what was regarded as the first step toward surrender, namely, requesting a cessation of hostilities. Secretary Alger said that while it could not be said that peace was assured, he regarded the prospects as of the brightest and felt confident that the end of the insurrection was

There was much praise for the volunteers, a marked change in the sentiment expressed a few days ago when it was understood that the same men were pleading to be brought home. Colonel Funston came in for the most commendation, even the regular officers taking note with admiration of the fact that his achievements were all strictly within the lines of the plans laid down for him by his superior officer, General Whea-

General Corbin said that every volunteer who participated in the fighting in the Philippines since peace was declared should have a medal of honor. By the terms of their enlistments they were entitled to withdraw from the service, but they had remained voluntarily, performing more than was required of them, which was more than the or-

dinary duty of a soldier. It was expected that today there would be further negotiations with the insurgent representatives. While the hope was expressed that our commission would not hold out terms so severe as to lead to a renewal of the fighting, or the withdrawal of the insurgents to another stronghold further north, it was realized that Otis must exercise care to make sure that they did not in

bad faith take advantage of the opportunity afforded by a suspension of hostilities to secure whatever of benefit to themselves may come from the rapidly approaching rainy season. Campaigning on the part of the Americans would be almost impossible at that time. However, it was believed that Aguinaldo was really in earnest, and that his sole effort was to shift responsibility for the surrender to the Filipino corgress.

Adjutant General Corbin said the Filipino peace overtures would not bring about any change of plan in this country as to forwarding ships, supplies and troops to the Philippines. Transports were about to sail from San Francisco, and a considerable number of troops were under orders to proceed to Manila.

It was said at the navy department that the developments of the day made it improbable that the Iowa would be sent to Manila according to the original program. In view of the state of affairs in China, however, the American fleet on the Asiatic station will be kept at a high standard.

The text of General Otis' dispatch follows:

"MANILA, April 28. Adjutant General, Washington:

"After taking Calumpit MacArthur's division crossed the Rio Grande river in the face of great obstacles, driving the concentrated forces of the enemy

back on the railroad two miles. Mac-Arthur reports that the passage of the river was a remarkable military achievement, the success of which was due to the daring, skill and determination of Colonel Funston, under the discriminating control of General Wheaton. Casualties slight; number not yet ascer-

"This morning the chief of staff from the commanding general of the insurgent forces entered our lines to express admiration of the wonderful feat of the American army in forcing the passage of the river, which was thought impossible. The staff officer reports that the insurgent commanding general has received from the insurgent government directions to suspend hostilities pending negotiations for the termination of the war. The staff officer with a party is

one vicinity of Angat, east of Calumpit, where he is awaiting supplies to be sent tomorrow.

"Yesterday morning a force of 1,500 insurgents attacked the troops at Taguig. They were driven back by the Washington regiment. Our loss, two killed 12 wounded. OTIS.

The dispatch from General Otis was telegraphed to President McKinley at Philadelphia. The officials of the war department all believe that the hostilities are about concluded.

### PERRY BELMONT MARRIED.

United to Mrs. Sloane After Her Husband Had Been Awarded a Divorce.

New York, April 29.—Perry Belmont and Mrs. Jessie A. Sloane, the divorced wife of Henry T. Sloane, were married about 8:30 o'clock last night at Greenwich, Conn., by the Rev. Walter M. Barrows, pastor of the Second Congregational church of this city.

.Mr. and Mrs. Belmont will go to Washington where they will be the guests of Mrs. S. G. Howland, Mr. Belmont's sister, for several days. Mr. Belmont expected then to take his bride to Kentucky to visit his stock farm.

Before leaving this city last night and at Mr. Belmont's request the new Mrs. Belmont conveyed her home at 9 East Seventy-second street, the house that had been recently given to her by Mr. Sloane, and all its contents, to the State Trust company with instructions to convey it back again to Mr. Sloane. The property was valued at \$550,000.

If he should refuse to accept it the trust company was instructed to invest the proceeds of the sale of the house for the benefit of the two Sloane children.

It was learned that the referee in the divorce case was William L. Turner, and that he had been appointed by Justice Francis M. Scott on March 25 last.

MRS. PERRY BELMONT.

The referee held two hearings. Sloane did not attend either. Henry T. Sloane, the well-known and

wealthy society man, was yesterday granted an absolute divorce from his wife, Jessie A. Sloane. The decree was handed down by Justice Stover in the supreme court. The name of the co-respondent was kept secret. The custody of the Sloane children, Jessie, Emily and Eleanor, was given to Mr. He was also accorded the right to marry, and the defendant in the suit, it was stated, should not lawfully marry again until after the death of Mr. Sloane.

### Von Diederich's Alleged Reply.

Berlin, April 29.—A dispatch from Kiel to The Vossiche Zeitung says that naval officers there claim that Admiral von Diederich's answer to Admiral Dewey's threat was simply: Clear for action, and quietly steamed through the American lines into the harbor.'

Twenty-Four Thousand Dollars Raised at the International Convention-Toronto May Be Next Meeting Place.

ATLANTA, April 29.—At the session of the international Sunday School convention the executive committee, to which was referred the matter of giving the negroes representation on committees where white men were chosen, reported against the negroes. Reports were heard from the committees on lessons and finance from the treasurer, W. K. Crosby of Delaware.

Twenty-four thousand dollars was raised for the furtherance of Sunday school work, Cuba and Japan sending \$25 each.

The time and place of holding the next convention likely will be decided today. Sentiment favored Toronto and it was believed the convention will go there.

Mills to Be Closed.

Youngstown, April 29.—Complying with instructions from the promoters of the Republic Iron and Steel company of New York the Brown-Bonnell and the Mahoning valley plants announced that beginning with Monday morning they would be shut down, probably for a week. The management of the Andrews Bros.' mill declined to disclose their intention, but it is assumed that they will do as the others do.

Carnegie Donated an Organ.

Carnegie donated a fine organ to the palace, while a crowd of natives gathnew Methodist Episcopal church here.

thur's line Friday bearing a flag of truce. They went to Manila by train to confer with General Otis regarding terms of surrender.

Colonel Manuel Argueleses and Lieutenant Jose Bernal told General Otis that they were representatives of General Luna, who had been requested by Aguinaldo to ask General Otis for a cessation of hostilities in order to allow time for summoning of the Filipino congress, which body would decide whether the people wanted peace. General Otis replied that he did not recognize the existence of a Filipino government.

There will be probably another conference today.

The Filipino officers walked down the railroad track to the Kansas regiment's outpost about 9 o'clock Friday morning. The Kansas captain in command there escorted them to General Wheaton's headquarters, where they were provided with horses and sent to the headquarters of General MacArthur. The latter invited the Filipinos to sit down at lunch with him, and conversed with them for some time. He refused, however, to speak authoritatively on the subject of their errand, referring all inquiries to General Otis.

The Filipinos were then escorted by Major Maloney of General MacArthur's staff, to Manila, reaching here at about 3 o'clock p. m. General Otis' aide, Lieutenant Sladen, was awaiting their arrival at the depot with a carriage, in which they were driven to the palace entrance.

The Filipino officers attracted much attention. They were dressed in uniforms of checkered blue and white cloth and wore straw hats. They carried no side arms. They were escorted directly to the office of General Otis. Jacob G. Schurman, president of the Philippine commission, and Hon. Charles Denby, a member of the commission, soon joined the party there.

The news of the arrival of the Filipino officers under a flag of truce spread through the city rapidly, and many offi-cers gravitated to the corridors of the palace, while a crowd of natives gath-

FOR SUNDAY SCHOOLS.

Twenty-Four Thousand Dollars Raised at the International Convention-Toronto May Be Next Meeting Place.

ATLANTA, April 29.—At the session of the international Sunday School convention the executive committee, to which was referred the matter of giving the negroes representation on committees where white men were chosen, reported against the negroes. Reports were heard from the committees on lessons and finance from the treasurer, W. K. Crosby of Delaware.

Twenty-four thousand dollars was raised for the furtherance of Sunday school work, Cuba and Japan sending

\$25 each. The time and place of holding the next convention likely will be decided today. Sentiment favored Toronto and it was believed the convention will go

Mills to Be Closed.

Youngstown, April 29.—Complying with instructions from the promoters of the Republic Iron and Steel company of New York the Brown-Bonnell and the Mahoning valley plants announced that beginning with Monday morning they would be shut down, probably for a week. The management of the Andrews Bros.' mill declined to disclose their intention, but it is assumed that they will do as the others do.

JEANNETTE, PA. April 29.—Andrew Carnegie donated a fine organ to the new Methodist Episcopal church here.

cation that the war is over .-- Bost

thur's line Friday bearing a flag of truce. They went to Manila by train to confer with General Otis regarding terms of surrender.

Colonel Manuel Argueleses and Lieutenant Jose Bernal told General Otis that they were representatives of General Luna, who had been requested by Aguinaldo to ask General Otis for a cessation of hostilities in order to allow time for summoning of the Filipino congress, which body would decide whether the people wanted peace. General Otis replied that he did not recognize the existence of a Filipino

government.

There will be probably another conference today.

The Filipino officers walked down the railroad track to the Kansas regiment's outpost about 9 o'clock Friday morning. The Kansas captain in command there escorted them to General Wheaton's headquarters, where they were provided with horses and sent to the headquarters of General MacArthur. The latter invited the Filipinos to sit down at lunch with him, and conversed with them for some time. He refused, however, to speak authoritatively on the subject of their errand, referring all inquiries to

General Otis. The Filipinos were then escorted by Major Maloney of General MacArthur's staff, to Manila, reaching here at about 3 o'clock p. m. General Otis' aide, Lieutenant Sladen, was awaiting their arrival at the depot with a carriage, in which they were driven to the palace entrance.

The Filipino officers attracted much attention. They were dressed in uniforms of checkered blue and white cloth and wore straw hats. They carried no side arms. They were escorted directly to the office of General Otis. Jacob G. Schurman, president of the Philippine commission, and Hon. Charles Denby, a member of the commission, soon joined the party there.

The news of the arrival of the Fili-

pino officers under a flag of truce spread through the city rapidly, and many officers gravitated to the corridors of the palace, while a crowd of natives gathered in the souare opposite the palace.

## THE EAST END

## HE ONCE TAUGHT MUSI

Martin Elliott Has Not For- splendid Achievement at the United gotten the Art.

The Machinery He Told His Associates of the Brick Company He Had Bought For the East End Plant-Congregation Will Not Move-That Main Lowered.

It is not generally known that Martin Elliott was at one time a music teacher of no small repute.

During 1863 and 1864 he taught classes in music in East End, Calcutta and Ohio township in Beaver county. For his services he received about \$18 per week, and the violin he used in doing this work is still in his possession. When the Second U. P. church was built in St. George street in 1885, the trustees asked him to form a class in music which he did and many persons who are noted for their singing received instruction from Mr. Elliott. He quit teaching in 1886, but since that time has entertained friends at his home by playing selections on what he terms "my old fiddle."

### Don't Like East End.

Very few peddlers are now seen about the East End. Last Wednesday one of these merchants came to the city and went from house to house showing his wares. Yesterday he told a reporter that in all his experience he never struck a place where the people were so loath to buy from a peddler as they were in the East End. It is not often one of these chaps come along, but when they do they generally do a poor busi-

### Allen Failed to Order.

When Alex Johnson succeeds in organizing a company to run the brick works he will install a small amount of new machinery. Mr. Allen, it is now learned, never ordered any machinery from any of the concerns with whom he claimed he dealt, but the people connected with the plant never knew this

### Roadway Almost Done.

over the culvert in Pennsylvania avenue | been near the trustees. will be completed within a few days. The iron griders have been placed in position by Street Commissioner Finley, and when the last board is fastened the culvert will have been completed. The culvert has been over six months in construction.

### New Storerooms.

The new buildings being erected in will be completed within a few days. One of the storerooms will be occupied as an ice cream parlor, which will probably be the only one in that section. The furnishings for this place, it is said, will be unusually neat.

### Interesting Services.

The services at the mission at Neville institute tomorrow afternoon under the auspices of the Second M. E. church give promise of being very interesting. Some special features have been arranged during the week by the officers of the school. The music will be made a leading feature.

### Will Vacate the Church.

At a meeting of the board of trustees of the Second M. E. church held last evening, it was decided to generally improve the church in every particular. The contract for the painting was let. During the work of the improvement services will be held in the church as usual.

### Completed In May.

No brick work will be done on the new pottery being erected by the Laughlin China company until the contractors complete their present contract at the Salem pottery. The stone work is being completed rapidly and by the middle of May it will probably be completed.

### Improving Chamber's Building.

Many improvements are now being made on the Chamber building in First avenue. The work will be completed within a few weeks.

### Sold a Farm.

Frank L. Riley has sold his farm near No. 9 school house to William H. Smith. the transfer being made yesterday. Consideration \$1,500.

in Pennsylvania avenue thereby placing it under the bed of the culvert was completed this afternoon. When the street is paved it will present as good an appearance as any in the city.

OHIO ELECTRIC COMPANY.

States Pottery.

The new plant of the United States Pottery company, of Wellsville, will ALLEN FORGOT TO PURCHASE soon be a working factor in this section. as they are about to begin operations in full. They are firing their saggar kiln, and by next week perhaps the entire plant will be on. While the plant is complete in every detail, we cannot pass without speaking further on their electrical department. The plant was placed by the Ohio Electric company, of this city. It consists of one high grade multipolar generator made by the Akron Electrical Manufacturing company, with a finely polished marble switch board, with all the modern improvements necessary for a complete plant. J. A. Swaney, the genial manager and superintendent of the Ohio Electric company, is thoroughly qualified to fill the duties of his important position. He holds certificates from the Middle division and the West Virginia inspectors; has operated in Denver, Colorado Springs, Georgetown and Gunnison, Col.; Pittsburg, Bryettston, Beaver and Beaver Falls, Pa. In his seven years experience he has placed over 8,000 lights, and being thoroughly alive to the needs of installation management, he has met with unvaried success. In consequence the Ohio Electric company has a reputation second to none for turning out high grade work, and where nothing but the very best of material is used, thus insuring first-class work in all branches of electrical science.

### WANTED A DOLLAR,

But the Young Man Had Heard of the Game.

A poorly dressed but prepossessing woman stopped a well known young man at the corner of Kossuth street and Broadway last night, and asked him for a dollar. She said that her mother did not have food in the house and the family were in destitute circumstances.

The young man questioned her closely as to where she lived, but she said she did not know the number. He then referred her to the township trustees, and went on his way. She thanked him and said she had not thought of them. A few minutes later he saw her The roadway now being constructed going down Broadway. She had not

### NEXT WEEK

Will the Sewer Pipe Trust Be Completed.

A dispatch from Akron has this of the sewer pipe trust:

"The big sewer pipe combination is a certainty. Frank M. Atterholt of this oity, who has been the chief engineer of the deal, returned to Akron from Mulberry street by Frank Alabaugh New York today and states that on next Thursday it will be entirely closed. The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000. The officers of the trust will be located eitner in Pittsburg or Cleveland."

### RUSHED WITH ORDERS.

Potteries Need All the Ware They Can

The potteries are rushed with orders, and can take care of the ware they can turn out. Buyers are anxious for immediate shipment, and a large number of cars have been sent out this week.

Trade in the west and south is reported as being particularly good this season, and much of the city's product has gone in that direction. Some decorating shops are working at night to meet the demand.

### COMING HOME.

Professor Cooper Will Arrive Here Next Wednesday.

A letter from Prof. J. F. Cooper says that he will leave Denver for East Liverpool this week, and arrive here next Wednesday.

He has been wonderfully improved by his stay in the west, and believes he is now stronger than ever. Mr. Cooper was very ill when he left the city a few months ago.

## TONS OF COUNTERFEITS

Plans of the Gang Recently Arrested In Philadelphia.

BOLDEST EVER KNOWN TO BE TRIED

They Included Running of a Paper Mill to Supply the Gang-Nine Tons of Internal Revenue Stamp Paper Found-Bogus Money and Stamps Were to Be Made.

Government officials in Philadelphia all say that the conspiracy of the two alleged counterfeiters, Arthur Taylor and Baldwin S. Bredell of Philadelphia, who are charged with having made the plates from which were printed the spurious \$100 silver certificate, is the most dangerous to the monetary system of this country that has ever been attempted and that had the discovery not been made when it was the counterfeiters in a short time would have had in operation a paper making plant, by which they would have been enabled to make the paper for notes so nearly like that made by the government that the notes could not have been distinguished. They already had enough paper to make notes to the value of \$9,000,000.

The story of this most remarkable attempt to defraud the government by counterfeiting includes the arrest of a partnership of five criminals, the seizure of the face and back plates of the \$100 silver certificate, which has so long worried and troubled the treasury, the face and back plates of an Everett head \$50 silver certificate the partly finished face and back plates of a \$100 Lincoln head treasury note, the unfinished face and back plates of a \$20 silver certificate and three 10 cent 50 cigar internal revenue stamp plates. It also shows how the conspirators were about to get into the manufacture of paper like that used by the government in printing treasury

and bank notes. It shows that the criminals had on hand nine tons of water marked internal revenue paper, all counterfeited, and more, in bulk and vol ume, than the stock of similar paper kept on hand by the bureau of printing and engraving at Washington and sufficient to have printed 25,000,000 stamps. Remarkable to say, all the conspirators are young men, the cldest being not over 38. Had the plan to manufacture paper for the notes succeeded. the excellence of the engraving was such that it would have been almost incapable of detection.

Speaking of the case the other day, Chief Wilkie said that more than a year ago, when the counterfelt was first discovered, treasury experts differed as to the way it was made. He finally determined that it was a combination of photo etching and hand engraving, and he set to work to watch men who did that sort of work. In Philadelphia, New York and Chicago capable men were put to work, the man in this city being William J. Burns, one of the most astute men in the secret service. About April 1 it was learned that Taylor & Bredell were at work on something that they were endeavoring to conceal, and they were watched closely The force here was largely increased, and men were set to follow them all the time. The arrest was made at the firm's office on Tuesday, April 18.

"We took them into the private office, 888 Filbert street," he said, "and found in their desks the material described. We held them there, preferring to keep the arrests secret as long as we could. The other day was the first they had been out. The evening they were caught Burns, Griffin and Murphy went to Lancaster and direct to the factory, 212 Queen street, where they spent the night waiting. Burns, the watcher for the conspirators, was the first to arrive and

"Kendig, one of the gang there, came later and was handcuffed to one of the officers. From him we got the keys to the only locked place in the building. It was simply a fine partition inclosing a space about 15 feet square, with a Yale lock. In there we found a D plate press. Lying on the bed of the press was a fine stamp plate of full size, with 10 cent 50 cigar stamps on it. We expected this, because Mr. Jacobs, another of the men in Lancaster, had not been buying enough stamps. In fact, he had only bought 2,500 stamps in two years

the face of the press being the size or a printed seal, there were under pressure about 3,000 sheets of stamps. On a box in another corner were a number of wetting cloths and about 1,000 sheets of counterfeit revenue paper.

"On the same floor in 37 tobacco cases we found about one-third of a ton of the paper bearing the distinctive mark of the revenue service. This paper, we learned, had been made over five years ago, and we learned that the man who made it is dead, fortunately for him. This left us to reckon with Jacobs. Officers Burns and S. A. Donella of Omaha district went to his office, but he was very busy, and they could not see him. Finally they forced their way to him, arrested him and seized the factory. We found a large supply of stamps in drawers accessible to clerks who stamped the boxes. These were placed in the drawer each morning by Jacobs. He brought them over in packages once a week from Kendig's office. There are 49 of the counterfeit silver certificates in my office in Washington, and I am confident that less than \$10, 000 of these were printed.

"Now as to the arrest of Mr. Newitt. He is a man who knew and realized the peril of the enterprise in which he was engaged. He is, moreover, a man who believes that every man has his price. In February last he conceived the idea of protecting himself by arranging to secure inside information through Secret Service Agent McManus. I witnessed two interviews and a number of meetings between Mr. Newitt and Mc Manus, and subsequent to each of these two interviews I was handed \$500 by McManus. I now have that money in my possession. We turned both factories in Lancaster over to Collector Hershey of the Ninth Pennsylvania district. They are forfeited to the government. Jacobs asserts that the value of his property and contents is \$40,000.

"At Kendig's factory we found two additional stamp plates, which had been worn out, and the front and back plates of the celebrated \$100 silver certificate, seal and numbering machine."-Philadelphia Dispatch.

### OLD TELEGRAPH TO GO.

Marconi System May Soon Be In General Use.

Experiments made during the past few days at Notre Dame university, South Bend, Ind., have convinced Professor Jerome J. Green that the Marconi sys tem of telegraphy will be in general use at no distant date. Professor Green is in charge of the department of physics and electrical engineering at Notre Dame, and has devoted much time to experiments with wireless telegraphy Tests from one building to another on the campus were tried with remarkable success. They were obtained by the use of apparatus constructed in the labora tory of the college.

The equipment, as arranged by Pro fessor Green, consists of an induction coil, to which is affixed a vertical charged wire and a similar one is con nected with the earth at the point of sending. At the receiving station is the coherer, which consists of a small glass tube with insertions of brass metal at each end. The space between the metals contains filings of silver and nickel. A high resistance relay and a sounder are also at the receiving station.

These two instruments are exactly the same as are used in the ordinary telegraph office, thus making it possi ble for the operator who is capable of receiving messages over the wires to perform the same work with the new discovery. At the sending station there is, instead of the ordinary keyboard, a simple lever, which works like a pump handle. As dots and dashes are measured by the manner of pressing the key un der the present system, they are indicated by the new in the distance this lever is pushed down or raised. At the tip of the vertical wire is a brass sphere, and from this the sound waves go out in every direction, unless reflectors are used to compel the message to go out like rays from a searchlight. The receiver intended to take a message is tuned to the same point of synchronism as the machine which sends the message.

"There may be dozens of instruments," explained Professor Green "from which messages are being transmitted at the same time, and unless the receivers are tuned to the exact synchronism of the instrument at the point of sending one will not interfere with the other, and each instrument will take only the message intended for it. Special Philadelphia Press.

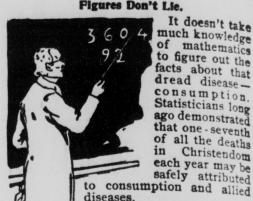

### Cage Gibbet Find In Virginia.

Three colored laborers in the employ of Henry Warden at the Bernard farm near Fredericksburg, Va., the other morning unearthed an uncanny relic in the shape of an iron cage constructed as nearly like the human body as possi ble. It had a headpiece, on the top of which was a ring, a body piece and arm and leg pieces. With it were found most of a skull, well preserved, the jawbones, with several teeth, and the bones of the legs, arms and hips. This is the second "cage gibbet" find that has been made in that section of the state. - Atlanta Constitution.

### Delicate and Deferential.

Our government has been informed that Spain intends to make her repre sentative to the United States an em bassador. This is another pleasing indi cation that the war is over.—Boston THE NEWS REVIEW

Figures Don't Lie.

It doesn't take much knowledge of mathematics to figure out the facts about that dread disease consumption. Statisticians long ago demonstrated that one - seventh of all the deaths Christendom

There is an almost certain cure and a positive prevent. ive for this fatal disease if taken in time. The story of what it will do is told in the following letter:

"About two and a half years ago, when I was at Flat Lick, Ky.," writes J. W. Jordan, Esq., of Corbin, Whitley Co., Ky., "I was taken with severe pains in the chest, after which I began to spit up blood and was also troubled with night-sweats. I was so short winded that I contains spit up blood and was also troubled with nightsweats. I was so short winded that I could
hardly walk half a mile at once, and if I got the
least bit wearied, I would have an attack of
phthisic (asthma) and almost die for about two
or three days. I concluded to try Dr. R. V.
Pierce, and I related my case to him. He wrote
me that I should take his 'Golden Medical Discovery.' I began using it and used about six
bottles. I began to see that it was helping me,
so concluded to continue its use. I did so and
have improved both in strength and in weight.
I have not had the phthisic, nor spit up any
blood since last spring.''
This great remedy—Dr. Pierce's Colden

This great remedy-Dr. Pierce's Golden Medical Discovery—cures 98 per cent. of all laryngial, bronchial, throat and kindred affections which, if neglected lead up to consumption. It strengthens the stomach and makes the appetite keen and hearty. It invigorates the liver and aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect, It is the great blood maker and flesh-builder. Honest dealers will not urge you to

take a substitute said to be "just as good."

## TONS OF COUNTERFEITS

Plans of the Gang Recently Arrested In Philadelphia.

**BOLDEST EVER KNOWN TO BE TR**IED

They Included Running of a Paper Mill to Supply the Gang-Nine Tons of Internal Revenue Stamp Paper Found-Bogus Money and Stamps Were to Be Made.

Government officials in Philadelphia all say that the conspiracy of the two alleged counterfeiters, Arthur Taylor and Baldwin S. Bredell of Philadelphia, who are charged with having made the plates from which were printed the spurious \$100 silver certificate, is the most dangerous to the monetary system of this country that has ever been attempted and that had the discovery not been made when it was the counterfeiters in a short time would have had in operation a paper making plant, by which they would have been enabled to make the paper for notes so nearly like that made by the government that the notes could not have been distinguished. They already had enough paper to make notes to the value of \$9,000,000.

The story of this most remarkable attempt to defraud the government by counterfeiting includes the arrest of a partnership of five criminals, the seizure of the face and back plates of the \$100 silver certificate, which has so long worried and troubled the treasury, the face and back plates of an Everett head \$50 silver certificate the partly finished face and back plates of a \$100 Lincoln head treasury note, the unfinished face and back plates of a \$20 silver certificate and three 10 cent 50 cigar internal revenue stamp plates. It also shows how the conspirators were about to get into the manufacture of paper like that used by the government in printing treasury

and bank notes. It shows that the criminals had on hand nine tons of water marked internal revenue paper, all counterfeited, and more, in bulk and vol ume, than the stock of similar paper kept on hand by the bureau of printing and engraving at Washington and sufficient to have printed 25,000,000 stamps. Remarkable to say, all the conspirators are young men, the cldest being not over 88. Had the plan to mann facture paper for the notes succeeded. the excellence of the engraving was such that it would have been almost incapa-

ble of detection. Speaking of the case the other day, Chief Wilkie said that more than a year ago, when the counterfelt was first discovered, treasury experts differed as to the way it was made. He finally determined that it was a combination of photo etching and hand engraving, and he set to work to watch men who did that sort of work. In Philadelphia, New York and Chicago capable men were put to work, the man in this city being William J. Burns, one of the most astute men in the secret service. About April 1 it was learned that Taylor & Bredell were at work on something that they were endeavoring to conceal, and they were watched closely. The force here was largely increased, and men were set to follow them all the time. The arrest was made at the firm's office on Tuesday, April 18.

"We took them into the private office. 888 Filbert street," he said, "and found in their desks the material described. We held them there, preferring to keep the arrests secret as long as we could. The other day was the first they had been out. The evening they were caught Burns, Griffin and Murphy went to Lancaster and direct to the factory, 212 Queen street, where they spent the night waiting. Burns, the watcher for the conspirators, was the first to arrive and was arrested.

"Kendig, one of the gang there, came later and was handcuffed to one of the officers. From him we got the keys to the only locked place in the building. It was simply a fine partition inclosing a space about 15 feet square, with a Yale lock. In there we found a D plate press. Lying on the bed of the press was a fine stamp plate of full size, with 10 cent 50 cigar stamps on it. We expected this, because Mr. Jacobs, another of the men in Lancaster, had not been buying enough stamps. In fact, he had

the face of the press being the size or a printed seal, there were under pressure about 3,000 sheets of stamps. On a box in another corner were a number of wetting cloths and about 1,000 sheets of counterfeit revenue paper.

"On the same floor in 37 tobacco cases we found about one-third of a ton of the paper bearing the distinctive mark of the revenue service. This paper, we learned, had been made over five years ago, and we learned that the man who made it is dead, fortunately for him. This left us to reckon with Jacobs. Officers Burns and S. A. Donella of Omaha district went to his office, but he was very busy, and they could not see him. Finally they forced their way to him, arrested him and seized the factory. We found a large supply of stamps in drawers accessible to clerks who stamped the boxes. These were placed in the drawer each morning by Jacobs. He brought them over in packages once a week from Kendig's office. There are 49 of the counterfeit silver certificates in my office in Washington, and I am confident that less than \$10,-000 of these were printed.

"Now as to the arrest of Mr. Newitt. He is a man who knew and realized the peril of the enterprise in which he was engaged. He is, moreover, a man who believes that every man has his price. In February last he conceived the idea of protecting himself by arranging to secure inside information through Secret Service Agent McManus. I witnessed two interviews and a number of meetings between Mr. Newitt and Mc-Manus, and subsequent to each of these two interviews I was handed \$500 by McManus. I now have that money in my possession. We turned both factories in Lancaster over to Collector Hershey of the Ninth Pennsylvania district. They are forfeited to the government. Jacobs asserts that the value of his property and contents is \$40,000.

"At Kendig's factory we found two additional stamp plates, which had been worn out, and the front and back plates of the celebrated \$100 silver certificate. seal and numbering machine."-Philadelphia Dispatch.

### OLD TELEGRAPH TO GO.

Marconi System May Soon Be In General Use.

Experiments made during the past few days at Notre Dame university, South Bend, Ind., have convinced Professor Jerome J. Green that the Marconi system of telegraphy will be in general use at no distant date. Professor Green is in charge of the department of physics and electrical engineering at Notre Dame, and has devoted much time to experiments with wireless telegraphy Tests from one building to another on the campus were tried with remarkable success. They were obtained by the use of apparatus constructed in the labora tory of the college.

The equipment, as arranged by Pro fessor Green, consists of an induction coil, to which is affixed a vertical charged wire and a similar one is con nected with the earth at the point of sending. At the receiving station is the coherer, which consists of a small glass tube with insertions of brass metal at each end. The space between the metals contains filings of silver and nickel. A high resistance relay and a sounder are also at the receiving station.

These two instruments are exactly the same as are used in the ordinary telegraph office, thus making it possible for the operator who is capable of receiving messages over the wires to perform the same work with the new discovery. At the sending station there is, instead of the ordinary keyboard, a simple lever, which works like a pump handle. As dots and dashes are measured by the manner of pressing the key un der the present system, they are indicated by the new in the distance this lever is pushed down or raised. At the tip of the vertical wire is a brass sphere, and from this the sound waves go out in every direction, unless reflectors are used to compel the message to go out like rays from a searchlight. The receiver intended to take a message is tuned to the same point of synchronism as the machine which sends the message.

"There may be dozens of instruments," explained Professor Green, "from which messages are being transmitted at the same time, and unless the receivers are tuned to the exact synchronism of the instrument at the point of sending one will not interfere with the other, and each instrument will take only the message intended for it.' —Special Philadelphia Press.

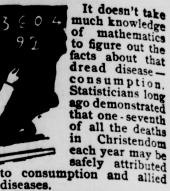

### Cage Gibbet Find In Virginia.

Three colored laborers in the employ of Henry Warden at the Bernard farm. near Fredericksburg, Va., the other morning unearthed an uncanny relic in the shape of an iron cage constructed as nearly like the human body as possible. It had a headpiece, on the top of which was a ring, a body piece and arm and leg pieces. With it were found most of a skull, well preserved, the jawbones, with several teeth, and the bones of the legs, arms and hips. This is the second "cage gibbet" find that has been made in that section of the state. - Atlanta Constitution.

## CONVINCING PROOF

The Average East Liverpool Citizen Must Accept the Fol-

ing Proof.

The great Sir Isaac Newton, one of the most profound reasoners the world ever produced, once cut a large hole in a board fence to allow a favorite cat access to two gardens, and cut a smaller hole to allow her kitten to follow her. The weakness manifested in Sir Isaac's ection was due to want of thought. Any East Liverpool citizen who mentally debates the proof offered here about Doan's Kidney Pills and arrives at any other conclusion than that stated in this cirizen's statement is as short of reasoning powers as the philosopher when he turned carpenter.

Mr Geo. Mount, of 165 Fourth street, teamster and dealer in coal, says: "For three years I had attacks of kidney complaint, some of them laying me up for two or three weeks at a time. The symptoms were pain in the back, particularly severe when stooping or moving around. Physicians called it lumbago, and advised by friends to use Doan's Kidney Pills, I procured two boxes at the W. & W. Pharmacy. They cured me."

Doan's Kidney Pills for sale by all dealers, Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no substitute.

Greeted With Cheers on Reaching the Hotel-Speech to Raleigh's Men.

New York, April 29.-Cheers and the waving of hats greeted President McKinley, Mrs. McKinley and their AN INSTANCE OF HIS SHREWDNESS. party when they reached the Manhattan hotel about 5:30 last night.

The party consisted of President and Mrs. McKinley, Mr. and Mrs. Abner McKinley, Secretary of the Navy and Mrs. Long, Secretary of the Treasury Gage, Brigadier General Fred D. Grant and Mrs. Grant, George B. Cortelyou, acting private secretary to the president; Captain S. S. Saxton, Dr. P. M. Rihey, surgeon U. S. N. A number of policemen guarded the entrance to the hotel and kept back the crowd.

PHILADELPHIA, April 29.—When the president ank party reached the cruiser Raleigh, Friday, a national salute was

Accompanied by Captain Coghlan, the president proceeded to the cabin of the cruiser, where he held an informal reception. He was then escorted to the lower deck, on which the sailors were lined up for inspection.

Captain Coghlan introduced the men

of the ship.

After passing before them with bared head, Mr. McKinley addressed the men

'Captain Coghlan and the men of the Raleigh-It gives me very great pleasure to bid you welcome here to congratulate you and each one of you on the heroic part you played in the great battle on the first of May at Manila, which was a most glorious triumph of the American arms, and made a new and glorious page in American history.

"I assure you that when I give you welcome I am only speaking the heart's welcome of 75,000,000 American citizens who honor you all for your splendid he had foreseen.

services to our country.
"This feeling not only extends to your great admiral, whom we all love and honor, but to the humblest member of the crew who who was in that great fleet at Manila bay.

"1 give you all a warm and generous welcome and my thanks."

Secretary of the Navy Long then addressed the sailors.

The sailors then gave three cheers for the president of the United States and three for the secretary of the navy.

This was followed by the ship's yell: Who are we?

Can't you see? We are members of the new navee. Rah! Rah! Rah! Raleigh!

The president then shook hands with the various officers of the cruiser and spoke a pleasant word for each. Then, with the ladies of the party, the president made a tour of inspection of the warship. He examined the big gun on the starboard side which spoke first in the battle at Manila.

A general handshaking concluded the visit and the presidential party returned to the tug. A flying visit was made to Cramps' shipyard, where the battleship Alabama, in course of construction, was inspected. Later the party returned.

PHILADELPHIA, April 29.—Upon receiving from Washington the dispatches of General Otis, President McKinley sent the following message of congratulations and thanks to the soldiers in the Philippines:

"PHILADELPHIA, April 28

To Otis, Manila: "Your message announcing the achievements of MacArthur's division and the proposal by the insurgents of suspension of hostilities most gratifying. Convey to officers and men heartfelt congratulations and gratitude for their signal gallantry and triumph. "WILLIAM MCKINLEY."

Fishes Frozen In the Ice.

It was discovered at Cheyenne, Wy., that the waters of Lake Minnehaha, which forms part of one of the Cheyenne city parks, froze solid in many parts of the lake during the past winter. The lake was stocked two years ago with bass and pike, and thousands of these fish, many of them from 12 to 18 inches long, have been frozen solid in the ice. On account of the great quantity of dead fish the lake will have to be cleaned out.—Denver Republican.

Beef Report Today.

WASHINGTON, April 29.—Colonel Davis announced that the beef court report would be delivered today.

Mr. Gleason's Scratcaless Chicken. One of W. H. Gleason's hens at Essex, Conn., has a brood of chickens of the Wyandotte variety, which includes one that has only one leg. It manages to get around fairly well.-Hartford Courant.

Tom Reed In New York.

## PRESIDENT IN NEW YORK. ANECDOTES ABOUT QUAY

Interesting Incidents In the Noted Statesman's Career.

How He Engineered a Knife Deal When a Boy With a Future Pennsylvania Judge-Story of How an Awkward Guest's Allegiance Was Cemented to Quay Forever.

Matthew S. Quay, who has just been appointed United States senator from Pennsylvania by Governor Stone, at an early age gave signs of the keen judgment of situations and willingness to take desperate risks which have characterized his politics since.

When he was 6 years old, as he tells the story, his father one day brought home to Dillsburg a little pocket Bible and a tin sword with a brilliant red hilt. In order to test the bent of the child's mind he gave him his choice. He wanted the sword, and he wanted the book. He had a little sister who would probably get the Bible if he chose the sword; but, as he figured out the situation, a girl could have no use for a martial weapon, and if he chose the Bible there was more than a fighting chance that his father, well pleased, would throw in the sword. So the young politician reached out his hand piously for the book, while his heart went out toward the sword. He got both, just as

Students of Quay's character say his career has been due, first, to the fact that he always sticks to his friends, and, second, that he knows the power of money. He early showed the shrewdness which has marked his political life. as the following story proves:

"Judge Harry White of Indiana county, Pa., is conspicuous among the workers for the re-election of United States Senator Quay," said an ex-member of the Pennsylvania legislature to a New York Sun reporter, "and this in spite of the way Quay traded knives with him when they were boys together, going to school in western Pennsylvania. Judge White is about the last of the old school of politicians in that state who is still prominent and influential among the Republican leaders. He was a smart boy, but not quite so smart as Matt Quay. There never was a sharper, more mischievous, successful, schemer as a boy than Matt was. He was continually cutting up pranks that no other boy would ever think of. He was always looking for a dicker of some awkward, old crossroads statesman from kind, and he never traded a knife or a handful of marbles or anything else that he didn't get the better of the boy he traded with, no matter how much the advantage seemed to lie with the latter in the preliminary negotiations. But the transaction in the matter of a similar cup in her hand. the knife trade with Harry White was a little ahead of any deal he ever made she said. "I can crush it in my fingers." in those halcyon days.

"Matt had a jackknife that was the envy of all the boys. It had a buckhorn handle, and I don't know how many blades and files and other implements dear to the boy heart. This knife was particularly coveted by Harry White, and he made all sorts of offers to Matt for a trade, one of which included a knife he owned, a dozen marbles, a ball of twine and a tin squirt gun, but Matt persistently declined to make a dicker. One day, though, much to the surprise and joy of Harry, Matt brought up the matter of a deal for his knife and suggested that he might be induced to

swap for something. " 'I haven't got my knife with me, though,' said the future statesman, and if we strike up a bargain you will

have to go after it. " 'All right,' said Harry, too much pleased to ask any questions. 'How will

you trade?' " 'Well,' replied Matt, 'if you will give me your knife, the marbles, the twine and the squirt gun and throw in that horsehair fishline of yours, I'll call

" 'I'll do it!' exclaimed Harry, and he produced the articles Matt had mentioned and handed them over. 'I'll go

up to your house and get the knife.' "Mat stowed Harry's knife and the other things in his pockets and said:

"'You needn't go up to our house after the knife. It ain't there.' "'Where'll I go after it, then?" ask-

"'Up to the tannery,' replied Matt. 'I was fooling around there this morning and dropped my knife in the old vat. Me and some o' the boys fished two hours for it and couldn't find it. But it's there. Go up to the tannery

and maybe you can get it.' "Harry kicked like a steer, but there wasn't any use. He never found Matt Quay's knife, and it's in that vat yet for all anybody knows. But Quay has stuck by Harry White during all his political career, and Harry White is sticking to Quay in spite of that disas-

trous deal. In after years Mrs. Quay often showed herself as adroit a politician as her husband. He had a wide acquaintance among the politicians of Pennsylvania and often entertained them at his house. One day he brought home to dinner an

Another of the beautiful pieces was shattered into fragments, and at the same time the allegiance of the awkward guest to M. S. Quay was cemented for all time.

### SHAMROCK'S LONG SPAR

It Tapers Over 110 Feet, and Its Girth Is 60 Inches.

The racing spars for Sir Thomas Lipton's yacht Shamrock, challenger for the America's cup, have been about completed. The mast will be the longest spar ever stepped in a racing boat, and will taper over all 110 feet. Its greatest thickness is at the hounds and just under the crosstrees, where its girth is 60 inches. Half way to the deck line its girth is barely 50 inches, which it car ries down to the step.

It is a beautiful stick of Oregon pine and is now ready to be put in position All the mast fittings are made of iron in the usual way, as it was found impossible to mold them of manganese beonze, the composition employed in other parts of the boat. The gaff and boom will both be of metal. Designer Fife fully considered whether steel or wood should be employed for the mast and decided in favor of the latter. --New York World.

## PRESIDENT IN NEW YORK. ANECDOTES ABOUT QUAY

Greeted With Cheers on Reaching the Hotel-Speech to Raleigh's Men.

New York, April 29.—Cheers and the waving of hats greeted President McKinley, Mrs. McKinley and their party when they reached the Manhattan hotel about 5:30 last night.

McKinley, Secretary of the Navy and Mrs. Long, Secretary of the Treasury Gage, Brigadier General Fred D. Grant and Mrs. Grant, George B. Cortelyou. acting private secretary to the president; Captain S. S. Saxton, Dr. P. M. Rihey, surgeon U. S. N. A number of policemen guarded the entrance to the hotel and kept back the crowd.

PHILADELPHIA, April 29.—When the president ank party reached the cruiser Raleigh, Friday, a national salute was

Accompanied by Captain Coghlan, the president proceeded to the cabin of the cruiser, where he held an informal reception. He was then escorted to the lower deck, on which the sailors were lined up for inspection.

Captain Coghlan introduced the men

of the ship.

After passing before them with bared head, Mr. McKinley addressed the men as follows:

'Captain Coghlan and the men of the Raleigh-It gives me very great pleasure to bid you welcome here to congratulate you and each one of you on the heroic part you played in the great battle on the first of May at Manila, which was a most glorious triumph of the American arms, and made a new and glorious page in American history.
"I assure you that when I give you

welcome I am only speaking the heart's welcome of 75,000,000 American citizens who honor you all for your splendid services to our country.

"This feeling not only extends to your great admiral, whom we all love and honor, but to the humblest member of the crew who who was in that great fleet at Manila bay.

"1 give you all a warm and generous welcome and my thanks."

Secretary of the Navy Long then addressed the sailors.

The sailors then gave three cheers for the president of the United States and three for the secretary of the navy.

This was followed by the ship's yell: Who are we? Can't you see?

We are members of the new navee.
Rah! Rah! Rah! Raleigh!
The president then shook hands with

the various officers of the cruiser and spoke a pleasant word for each. Then, with the ladies of the party, the president made a tour of inspection of the

warship. He examined the big gun on the starboard side which spoke first in the battle at Manila.

A general handshaking concluded the visit and the presidential party returned to the tug. A flying visit was made to Cramps' shipyard, where the battleship Alabama, in course of construction, was inspected. Later the party returned.

PHILADELPHIA, April 29.—Upon receiving from Washington the dispatches of General Otis, President McKinley sent the following message of congratulations and thanks to the soldiers in the Philippines:

"PHILADELPHIA, April 28 To Otis, Manila:

"Your message announcing the achievements of MacArthur's division and the proposal by the insurgents of suspension of hostilities most gratifying. Convey to officers and men heart-

felt congratulations and gratitude for their signal gallantry and triumph. "WILLIAM MCKINLEY."

Fishes Frozen In the Ice. It was discovered at Cheyenne, Wy .. that the waters of Lake Minnehaha, which forms part of one of the Cheyenne city parks, froze solid in many parts of the lake during the past winter. The lake was stocked two years ago with bass and pike, and thousands of these fish, many of them from 12 to 18

inches long, have been frozen solid in the ice. On account of the great quantity of dead fish the lake will have to be cleaned out. - Denver Republican.

Beef Report Today.

WASHINGTON, April 29.—Colonel Davis announced that the beef court report would be delivered today.

Mr. Gleason's Scratcaless Chicken. One of W. H. Gleason's hens at Essex, Conn., has a brood of chickens of the Wyandotte variety, which includes one that has only one leg. It manages to get around fairly well.-Hartford

Courant. Tom Reed In New York.

The gloom's so thick in Washington they cut it with a knife, And various brands of statesmen moan: "Now, what's the use of life?

The man who kept this town alive has given us a flout-

shingle out! "No more we'll view on the avenue called Penn-syl-va-ni-ay
That rollicking bunch of rotundity go rolling

down the way, With a laugh that splits that head of his—almost a schoolboy's shout-For Tom is going to New York to hang his

shingle out!

'Why, even the men who felt his grip are sad to see him go. Without big Tom of the iron will there's only a one hoss show.

We'd take his harshest rulings and bow to them no doubt-But Reed is going to New York to hang his shingle out!

But there are balances in life, as sunshine fol And what's the loss of Washington is gladsome

Hark to that elephantine tread in Broadway Gotham's gain. Tom Reed is coming to New York to hang his Jahn O'Keefe in New York Press. shingle out!

Interesting Incidents In the Noted Statesman's Career.

AN INSTANCE OF HIS SHREWDNESS.

The party consisted of President and Mrs. McKinley, Mr. and Mrs. Abner When a Boy With a Future Pennsylvania Judge-Story of Hew an Awkward Guest's Allegiance Was Cemented to Quay Forever.

> Matthew S. Quay, who has just been appointed United States senator from Pennsylvania by Governor Stone, at an early age gave signs of the keen judgment of situations and willingness to take desperate risks which have characterized his politics since.

When he was 6 years old, as he tells the story, his father one day brought home to Dillsburg a little pocket Bible and a tin sword with a brilliant red hilt. In order to test the bent of the child's mind he gave him his choice. He wanted the sword, and he wanted the book. He had a little sister who would probably get the Bible if he chose the sword; but, as he figured out the situation, a girl could have no use for a martial weapon, and if he chose the Bible there was more than a fighting chance that his father, well pleased, would throw in the sword. So the young politician reached out his hand piously for the book, while his heart went out toward the sword. He got both, just as he had foreseen.

Students of Quay's character say his career has been due, first, to the fact that he always sticks to his friends, and, second, that he knows the power of money. He early showed the shrewdness which has marked his political life. as the following story proves:

"Judge Harry White of Indiana county, Pa., is conspicuous among the workers for the re-election of United States Senator Quay," said an ex-member of the Pennsylvania legislature to a New York Sun reporter, "and this in spite of the way Quay traded knives with him when they were boys together, going to school in western Pennsylvania. Judge White is about the last of the old school of politicians in that state who is still prominent and influential among the Republican leaders. He was a smart boy, but not quite so smart as Matt Quay. There never was a sharper, more mischievous, successful, schemer as a boy than Matt was. He was continually cutting up pranks that no other boy would ever think of. He was always looking for a dicker of some kind, and he never traded a knife or a one of the mountain districts. The tahandful of marbles or anything else ble was set with beautiful and costly that he didn't get the better of the boy | china-Senator Quay is a great collecthe traded with, no matter how much the advantage seemed to lie with the latter in the preliminary negotiations. But the transaction in the matter of the knife trade with Harry White was a little ahead of any deal he ever made she said. "I can crush it in my fingers." in those halcyon days.

"Matt had a jackknife that was the envy of all the boys. It had a buckhorn handle, and I don't know how many blades and files and other implements dear to the boy heart. This knife was particularly coveted by Harry White, and he made all sorts of offers to Matt for a trade, one of which included a knife he owned, a dozen marbles, a ball of twine and a tin squirt gun, but Matt persistently declined to make a dicker. One day, though, much to the surprise and joy of Harry, Matt brought up the matter of a deal for his knife and suggested that he might be induced to swap for something.

" 'I haven't got my knife with me, though,' said the future statesman, 'and if we strike up a bargain you will have to go after it.'

" 'All right,' said Harry, too much pleased to ask any questions. 'How will

you trade?' " 'Well,' replied Matt, 'if you will give me your knife, the marbles, the twine and the squirt gun and throw in that horsehair fishline of yours, I'll call

it a go. " 'I'll do it!' exclaimed Harry, and he produced the articles Matt had mentioned and handed them over. 'I'll go New York World. up to your house and get the knife.'

"Mat stowed Harry's knife and the other things in his pockets and said: "'You needn't go up to our house

after the knife. It ain't there.' "'Where'll I go after it, then?" asked Harry.

"''Up to the tannery,' replied Matt. I was fooling around there this morning and dropped my knife in the old vat. Me and some o' the boys fished two hours for it and couldn't find it. But it's there. Go up to the tannery

and maybe you can get it.' "Harry kicked like a steer, but there wasn't any use. He never found Matt Quay's knife, and it's in that vat yet for all anybody knows. But Quay has stuck by Harry White during all his political career, and Harry White is sticking to Quay in spite of that disastrous deal."

In after years Mrs. Quay often showed herself as adroit a politician as her husband. He had a wide acquaintance among the politicians of Pennsylvania and often entertained them at his house. One day he brought home to dinner an

awkward, old crossroads statesman from or of rare ceramics. The visitor upset and broke a dainty cup. To cover his confusion Mrs. Quay at once picked up a similar cup in her hand.

"That ware is extremely fragile,"

Another of the beautiful pieces was shattered into fragments, and at the same time the allegiance of the awkward guest to M. S. Quay was cemented for all time.

## SHAMROCK'S LONG SPAP

it Tapers Over 110 Feet, and Its Girth Is 60 Inches.

The racing spars for Sir Thomas Lipton's yacht Shamrock, challenger for the America's cup, have been about completed. The mast will be the longest spar ever stepped in a racing boat, and will taper over all 110 feet. Its greatest thickness is at the hounds and just under the crosstrees, where its girth is 60 inches. Half way to the deck line its girth is barely 50 inches, which it carries down to the step.

It is a beautiful stick of Oregon pine and is now ready to be put in position All the mast fittings are made of iron in the usual way, as it was found impossible to mold them of manganese beonze, the composition employed in other parts of the boat. The gaff and boom will both be of metal. Designer Fife fully considered whether steel or wood should be employed for the mast and decided in favor of the latter .-

# PROBABLY 50 KILLED.

Others May Have Perished In Missouri Cyclone.

SOME INJURED LIKELY TO DIE.

It Was Believed That at Kirksville Some Unfortunates Perished In Flames That Broke Out In the Ruins-Dead and Injured at Newtown.

KIRKSVILLE, Mo., April 29.-As a regult of the tornado, which demolished about half of the residences and other buildings, 200 families were homeless and nearly 50 dead bodies and 70 injured persons were recovered from the ruins. More than a dozen of the injured will probably die. Although rescuers had been searching the ruins many were missing and it was thought that a considerable number of the unfortunates were consumed in the flames that broke out soon after the storm had ceased. The work of rescue continued, but it was thought that it might be days before the total number of victims

### INGHAM AND NEWITT HELD.

Bail Increased on the Proposal of District Attorney Beck, Who Scored Them.

PHILADELPHIA, April 29.—The hearing of former United States District Attorney Ellery P. Ingham and ex-Assistant District Attorney Harvey K. Newitt, who are charged with attempting to bribe Secret Service Agent William J. McManus, in connection with the great counterfeiting conspiracy which was unearthed in this city last week, was concluded and United States Commissioner Edmunds increased the bail of each defendant from \$10,000 to \$20,000, which they furnished.

Eight witnesses were called by District Attorney Beck and most of their testimony corroborated that of William T. Kendig, one of the men charged with counterfeiting the internal revenue tobacco stamps, who made a clean breast of the whole conspiracy at Thurs-

day's hearing.
Attorney Shields for the defendants asked that their bail be reduced, but this was opposed by District Attorney Beck, who asked the commissioner not to lower but to increase it. In further

WILLIAM L. KENDIG.

addressing the commissioner, Mr. Beck said in part:

"Both of these gentlemen have been honored by the government and one of them is still honored in that he holds a special commission as the government's attorney in city suits in which it is interested and I will say this that if Messrs. Ingham and Newitt are guilty they are as guilty as any who are implicated in this matter. Morally they are more so, for they have relied upon their high positions to say to these men, for the sum of \$3,000 a month you can go ahead with your infamous work and we will see that you are not molested."

Bail I was furnished.

### FOR SUNDAY SCHOOLS.

Twenty-Four Thousand Dollars Raised at the International Convention-Toronto May Be Next Meeting Place.

ATLANTA, April 29.—At the session of the international Sunday School convention the executive committee, to which was referred the matter of giving the negroes representation on committees where white men were chosen, reported against the negroes. Reports were heard from the committees on lessons and finance from the treasurer, W. K. Crosby of Delaware.

Twenty-four thousand dollars was raised for the furtherance of Sunday school work, Cuba and Japan sending

\$25 each. The time and place of holding the next convention likely will be decided today. Sentiment favored Toronto and it was believed the convention will go there.

### Mills to Be Closed.

Youngstown, April 29.—Complying with instructions from the promoters of the Republic Iron and Steel company of New York the Brown-Bonnell and the Mahoning valley plants announced that beginning with Monday morning they would be shut down, probably for a week. The management of the Andrews Bros.' mill declined to disclose their intention, but it is assumed that they will do as the others do.

## AGUINALDO'S SCHEME.

Tried to Trick Otis Into Recognizing Government.

AMERICAN GENERAL TOO SHARP.

hent the Rebel Officers Back With the News That He Would Ignore the Filipino Congress-Troops Had a Fight Near Taguig.

Manila, April 29.-Aguinaldo was evidently selecting the army as a cloak for his congress, hoping by subterfuge to overcome General Otis' consistent policy of ignoring the Filipino government. The Filipinos' argument is that it is impossible to arrange an armistice without the sanction of the congress. General Otis punctured this assumption by remarking that if Aguinaldo could make war without the congress he could stop it without reference to that body. One of the conferrees afterward remarked that they are shrewder than white men in diplomacy as the Malays are credited with being.

While the insurgents are undoubtedly tired of war the leaders are torn with dissensions.

There is a suspicion that it was hoped by means of a conference to ascertain what terms they could expect. If they saw that anything is to be gained by continuing the war an armistice would afford them an interesting commentary on Aguinaldo's scheme that only 60 of the 300 members of the Filipino congress have taken the oath of allegiance which their constitution requires.

Colonel Manuel Argueleses and Lieutenant Jose Bernal, chief of General Luna's staff, entered General MacAr-

Business Men.

Prices Away Down.

thur's line Friday bearing a flag of truce. They went to Manila by train to confer with General Otis regarding terms of surrender.

Colonel Manuel Argueleses and Lieutenant Jose Bernal told General Otis that they were representatives of General Luna, who had been requested by Aguinaldo to ask General Otis for a cessation of hostilities in order to allow time for summoning of the Filipino congress, which body would decide whether the people wanted peace. General Otis replied that he did not recognize the existence of a Filipino

government.

There will be probably another conference today.

The Filipino officers walked down the railroad track to the Kansas regiment's outpost about 9 o'clock Friday morning. The Kansas captain in command there escorted them to General Wheaton's headquarters, where they were provided with horses and sent to the headquarters of General MacArthur. The latter invited the Filipinos to sit down at lunch with him, and conversed with them for some time. He refused, however, to speak authoritatively on the subject of their errand, referring all inquiries to General Otis.

The Filipinos were then escorted by Major Maloney of General MacArthur's staff, to Manila, reaching here at about 3 o'clock p. m. General Otis' aide, Lieutenant Sladen, was awaiting their arrival at the depot with a carriage, in which they were driven to the palace entrance.

The Filipino officers attracted much attention. They were dressed in uniforms of checkered blue and white cloth and wore straw hats. They carried no side arms. They were escorted directly to the office of General Otis. Jacob G. Schurman, president of the Philippine commission, and Hon. Charles Denby, a member of the commission, soon joined the party there.

The news of the arrival of the Filipino officers under a flag of truce spread through the city rapidly, and many offi-cers gravitated to the corridors of the palace, while a crowd of natives gathered in the square onnosite the palace.

About 5 o'clock two Filipino officers escorted by Lieutenant Sladen and Mafor Maloney left the place. They did not look at all elated as a result of their talk with General Otis and the mem-

bers of the Philippine commission.

Thursday the Washington regiment, which was holding Taguig with three companies of the Twelfth regulars, engaged a large force of insurgents in a fight in the jungle. The Americans lost two killed and ten wounded.

The Filipinos had been massing at the mouth of Pasig river and it was estimated that there were 2,000 of them now there. They have mounted two guns—one a 3-inch Krupp—and have thrown a number of shells into the American lines. The gunboat Napi-dan, which is guarding the entrance to the river, shelled a launch which was carrying supplies.

Thursday a large force of rebels approached the town, seemingly bent upon during the Americans from Calumpit. Three companies of the Washington troops sallied from the town and attacked the natives and found that they had their hands full. Two other companies of the Washingtons and three of the Twelfth regulars reinforced them and drove back the enemy, who removed their dead and wounded as they retired

### VOLUNTEERS PRAISED, ESPECIALLY FUNSTON.

thange In Sentiment In Washington, Good News From Otis Pleasing to Alger-Troops to Go.

Washington, April 29.—A telegram received from General Otis announced that Aguinaldo and taken what was regarded as the first step toward surrender, namely, requesting a cessation of hostilities. Secretary Alger said that while it could not be said that peace was assured, he regarded the prospects as of the brightest and felt confident that the end of the insurrection was

There was much praise for the volunteers, a marked change in the sentiment expressed a few days ago when it was understood that the same men were pleading to be brought home. Colonel Funston came in for the most commendation, even the regular officers taking note with admiration of the fact that his achievements were all strictly within the lines of the plans laid down for him by his superior officer, General Whea-

General Corbin said that every volunteer who participated in the fighting in the Philippines since peace was declared should have a medal of honor. By the terms of their enlistments they were entitled to withdraw from the service, but they had remained voluntarily, performing more than was required of them, which was more than the ordinary duty of a soldier.

It was expected that today there

would be further negotiations with the insurgent representatives. While the hope was expressed that our commission would not hold out terms so severe as to lead to a renewal of the fighting, or the withdrawal of the insurgents to another stronghold further north, it was realized that Otis must exercise care to make sure that they did not in bad faith take advantage of the opportunity afforded by a suspension of hostilities to secure whatever of benefit to themselves may come from the rapidly approaching rainy season. Campaigning on the part of the Americans would be almost impossible at that time. However, it was believed that Aguinaldo was really in earnest, and that his sole effort was to shift responsibility for the surrender to the Filipino covgress.

Adjutant General Corbin said the Filipino peace overtures would not bring about any change of plan in this country as to forwarding ships, supplies and troops to the Philippines. Transports were about to sail from San Francisco, and a considerable number of troops were under orders to proceed to Manila.

It was said at the navy department that the developments of the day made it improbable that the Iowa would be sent to Manila according to the original program. In view of the state of affairs in China, however, the American fleet on the Asiatic station will be kept at a high standard. The text of General Otis' dispatch

"MANILA, April 28.

Adjutant General, Washington:

"After taking Calumpit MacArthur's division crossed the Rio Grande river in the face of great obstacles, driving the concentrated forces of the enemy back on the railroad two miles. Mac-Arthur reports that the passage of the river was a remarkable military achievement, the success of which was due to the daring, skill and determination of Colonel Funston, under the discriminating control of General Wheaton. Casualties slight; number not yet ascer-

"This morning the chief of staff from the commanding general of the insurgent forces entered our lines to express admiration of the wonderful feat of the American army in forcing the passage of the river, which was thought impossible. The staff officer reports that the insurgent commanding general has received from the insurgent government directions to suspend hostilities pending negotiations for the termination of the war. The staff officer with a party is now enroute to Manila and will arrive

one vicinity of Angat, east of Calumpit, where he is awaiting supplies to be sent

"Yesterday morning a force of 1,500 insurgents attacked the troops at Taguig. They were driven back by the Washington regiment. Our loss, two

killed 12 wounded.

The dispatch from General Otis was telegraphed to President McKinley at Philadelphia. The officials of the war department all believe that the hostilities are about concluded.

### PERRY BELMONT MARRIED.

United to Mrs. Sloane After Her Husband Had Been Awarded a Divorce.

NEW YORK, April 29.—Perry Belmont and Mrs. Jessie A. Sloane, the divorced wife of Henry T. Sloane, were married about 8:30 o'clock last night at Greenwich, Conn., by the Rev. Walter M: Barrows, pastor of the Second Congregational church of this city.

Mr. and Mrs. Belmont will go to Washington where they will be the guests of Mrs. S. G. Howland, Mr. Belmont's sister, for several days. Mr. Belmont expected then to take his bride to Kentucky to visit his stock farm.

Before leaving this city last night and at Mr. Belmont's request the new Mrs. Belmont conveyed her home at 9 East Seventy-second street, the house that had been recently given to her by Mr. Sloane, and all its contents, to the State Trust company with instructions to convey it back again to Mr. Sloane. The property was valued at \$550,000.

If he should refuse to accept it the trust company was instructed to invest the proceeds of the sale of the house for the benefit of the two Sloane children.

It was learned that the referee in the divorce case was William L. Turner, and that he had been appointed by Justice Francis M. Scott on March 25 last.

MRS. PERRY BELMONT.

The referee held two hearings. Sloane did not attend either.

Henry T. Sloane, the well-known and wealthy society man, was yesterday granted an absolute divorce from his wife, Jessie A. Sloane. The decree was handed down by Justice Stover in the supreme court. The name of the corespondent was kept secret. The custody of the Sloane children, Jessie, Emily and Eleanor, was given to Mr. He was also accorded the right to marry, and the defendant in the suit, it was stated, should not lawfully marry again until after the death of Mr. Sloane.

### Von Diederich's Alleged Reply.

BERLIN, April 29.-A dispatch from Kiel to The Vossiche Zeitung says that naval officers there claim that Admiral von Diederich's answer to Admiral Dewey's threat was simply: Clear for action, and quietly steamed through the American lines into the harbor."

### WEATHER FORECAST.

Western Pennsylvania and Ohio-Fair today, showers and cooler tomorrow: fresh southeasterly winds. West Virginia - Fair today and prob-

ably tomorrow; cooler tomorrow; southerly winds.

### NATIONAL LEAGUE GAMES.

Ohio divides the honors with Kansas Colonel Funston was born in this state.

IF Grover Cleveland is made professor of politics at Princeton and he understands his duties to be the teaching of ring politics, its ins, outs and profits, the arrangement will probably be a success.

THERE will be about one dozen disappointed gentlemen in Ohio the minute after the convention selects a candidate for governor. It is probable some of them are anticipating that disappointment.

WHEN thinking of candidates for gov. ernor, Jones, of Youngstown, should not be confounded with Jones of Toledo. The first was a good soldier and has always been a strong Republican, while the recommendation of the other is a banch of vagaries such as few men are charged with possessing.

### THE CADETSHIP.

Congressman Tayler has prepared to send some good boy, sound in limb and brain, to West Point, as a representative of the Eighteenth district. It is not a matter of politics or favoritism, and the best one must win. Why should not East Liverpool have that representative? There are certainly a sufficient number of intelligent boys in the city from which one can be selected who will stand above all competitors. East Liverpool should have a representative in the army, and the News Review be lieves the right stuff is here. Will the young man appear for examination?

"COLLUSION."

Yes, it is a mighty word.

One of the mightiest ever heard; Chilling the blood of doughty men, Handling quill, or pencil, or pen;

Rendering hot a temper cold,

Rousing a councilman, brave and bold,

Causing his wrath to ebb and flow. Setting his pulse aglow you know. Until it mounted unto his brain,

And even reached slow-moving Cain; And then-the council adjourned in

And swept the papers from its path, Then Marshalled their forces-out for

And nipped the bidders in the bud.

## The Expert Demonstrator Of "Her Majesty's Corset"

Will Fill a Special 3 Days' Engagement at our Store, Commencing

Monday, May 1st,

and Ending May 3d.

MISS ALCUIT will be glad to explain the merits of this Celebrated Corset and give fittings, thus illustrating its superiority over others.

Engagements can be made with Miss Alcutt by mail, telephone, or by calling at the store.

We desire it to be distinctly understood that ladies will not be expected to purchase a Corset after a fitting is made, unless they so desire.

Her Majesty's Corset is not the Cheapest, but the Best.

Her Majesty's Corset in fit, wear and comfort is unsurpassed.

Mr. Marshall Seems to Have Found an Idea

REGARDING THE CITY'S PAPERS

Council at Its Meeting Last Night Did Not Give Out the Printing For the Year Because It Claimed There Were no Bids. Some Talk of the Sewer.

The special meeting of council held last evening was not a success, as the members failed to transact the business for which it was called.

It was 8:20 o'clock when President Peach called the meeting to order, and Mr. Ashbaugh was the only member absent. Mr. Peach stated that the meeting had been called for the purpose of considering the public printing and the mayor's appointments, but that the mayor had seen fit to not submit his appointments. They had been with Clerk Hanley, but the mayor had taken them away for some reason.

The printing question came first and Captain Palmer, with permission, withdrew a bid he had given to the clerk, and in behalf of the local papers stated that they were willing to print the city's matter in all papers at one-third the legal price for each, believing that it was the fairest proposition that could be

President Peach asked Clerk Hanley if he had any bids, and the clerk replied that he had not.

Mr. Smith said that a motion to award the contract to the lowest bidder had been carried, and as council had received no bids there was no further action to be taken on the question.

Mr. Peach asked if there was any person present to tender a bid for the city printing, and as no one made reply he said it would be a hard matter to decide. Mr. McHenry said he thought the matter bad been left in the hands of the finance committee and the body of council had nothing to do with it. He said it didn't know whether it was customary to advertise for bids. Mr. Peach said the object was to try and settle the matter, and it was thought best to let council act.

Mr. Smith moved that council ad-

TALKED OF COLLUSION journ and the motion was seconded by Mr. Seckerson. Mr. Cain wanted to seriously hamper the building of the good." sanitary sewer in district No. 2. Mr. McHenry said the sanitary sewer should be built, but didn't know anything about the storm water sewer. Engineer to confer with the sewer commissioners, but the matter was finally disposed of without action being taken.

The proprietors of the newspapers retired, and in a few minutes returned with a bid offering to do the printing for one-third the legal rate. Mr. Cain said it looked to him like a joint affair. and the papers must have misunderstood | me and we couldn't see in at all." council, who wanted the lowest bidder to get the printing.

Council then adjourned, but several of the members remained and looked over the printing bids. Suddenly Mr. Marshall, who has become a legal (?) advisor of no small ability, began to talk about a collusion of bidders, and in accordance with his usual advice to council, thought the solicitor should commence an action against the newspapers. He was the only member who could see the "collusion," but the matter will be further investigated in an endeavor to discover what point the talkative member from the First ward was endeavorprinting handbills, but nobody else had thought of the plan, and after talking some time the members went home.

### PROSPECTS IN TRENTON.

Trade Is Better and a Few Potteries Are

In reviewing conditions at Trenton the Crockery Journal says:

"Business has improved to an appreciable extent since our last report. There has been a better inquiry by mail, and the men on the road are doing more. One or two potteries are quite busy, and there is a feeling that trade will pick up and keep on improving. A big fall business is anticipated."

Our men's suit sale at \$10 is what interests many buyers. At Joseph Bros. these suits are exceptional values. You see other stores ask from \$12 to \$15 for the same suit.

All the news in the News Review.

# GEON DECLARED GUILT

For Breaking the Recently Enacted Screen Law.

MR. CLARK FILED A MOTION

Wanting the Decision Thrown Out For Several Reasons-Officers Testified That a Blind Hung Over the Glass In the Door and That Shutters Were Closed.

The case of the city against Joseph W. Geon for violating the screen ordinance was called yesterday afternoon at 2:30 o'clock in police court.

The first witness was Officer McMillan. but before he had offered his testimony Attorney Cook objected to any evidence being submitted under the affidavit for the reason that it was insufflcient, and the ordinance under which it was drawn was null and void. The objection was overruled and an exception noted.

Officer McMillan was permitted to testify and said: "I am an officer in East Liverpool. On the afternoon of April 9 I was in different parts of the city and was in the neighborhood of the Diamond and Summit lane. I went in the alley from Market street, and as I was going by Mr. Geon's place of business I noticed the shutters were closed and there was a blind on the glass door. There were no means by which the interior of the saloon could be seen, and I made an effort to look in. I thought I might be mistaken, and I went back the second time, but couldn't see in as the shutters and a blind over the door prevented it. I examined all three windows, but could not see in the saloon. There was no person with me when I made the first examination. Officer Whan was with me when I made the second. There was no change in the windows between my first and second examination."

The witness was subjected to a rigid cross-examination and said: "The shutters were all closed. They have slats in them and open on either side. If the slats open they were closed at this time, as you couldn't see any light in the saloon. I don't know whether any person was in the saloon. The windows are not more than two or three feet from the ground, and the in the door would higher than that. would be no trouble to see a man inside Mr. Seckerson. Mr. Cain wanted to the saloon. We stood two or three feet talk about Tanyard run sewer, and from the window when we looked in. I thought council should build a portion | don't believe I ever heard a disturbance of the storm water sewer. Mr. Marshall in the saloon of Joseph W. Geon, and thought it was a poor idea, as it would his reputation as a law abiding citizen is

Officer Whan was called and said: "I was at various places between 3 and 4 o'clock Sunday afternoon, April 9. I went through Summit lane, and found George wanted a committee appointed the shutters closed at Joseph W. Geon's saloon. I think there are two windows and one door into the barroom and a hall door. I don't know where the hall door The shutters were both above and below, shutting off all view of the interior. I made no attempt to look in the saloon, but looked at the windows. Officer McMillan was with

> On cross-examination the witness said he did not go in the alley for the special purpose of looking at the windows, but that his attention was called to it by Officer McMillan, who said he didn't think the saloons were observing the screen ordinance very well. He said he stood within five or six feet of the windows, and they were four feet or more from the ground. He also testified that Mr. Geon was a law-abiding citizen.

This closed the case of the city, and the only witness called for the defense was S. C. Whittenberger who said: "I have lived here 22 years and have known Joseph W. Geon almost all that time. I ing to reach. Mr. Cain was in favor of am bartender for Geon. I remember when the screen ordinance was passed he told Robert Spencer and myself to be careful and keep the screens open. We are the only ones about the bar. I left the place Saturday night and to my knowledge the screens were never closed. Mr. Geon's business is conducted in a law abiding way."

Solicitor McGarry subjected the witness to a very rigid cross examination and he said: "I have lived here 22 years and have been in the whisky business during that time. The shutters had not been closed Saturday evening, and I didn't touch them when I left. 1 was there on Sunday as I always have lot of perishable goods to look after. ] was there in the morning between 9 and 10 o'clock, and left about 11. I entered the saloon from the front door which leads into a hallway and on into the saloon. I came out the same way. I don't carry a key to the other door. I was attending some perishable

cleaning

always burning lights are the saloon. The upper shutters have never been closed since I have been there. My business is to tend to the windows. The shutters were on the windows before any screen ordinance came into effect. The lower shutters are always closed to prevent passersby from seeing in. The lower shutters were closed April 9, but the upper shut. ters were open. No other person has a key to the door I went in. Robert Spencer was in the saloon that Sunday. but I don't know where he was when I left. There was no blind on the door and never has been."

The attorneys each made short arguments in the case, and after delivering a short address Mayor Bough decided that J. W. Geon was guilty as charged, and he was sentenced to pay a fine of \$50 and costs and stand committed until the fine and costs were paid.

Attorney Clark at once made a motion to rest the judgment on the ground that the court had no legal right to try the case, as it was not in his jurisdiction. the affidavit being defective and the ordinance under which the defendant was arrested being null and void; that the finding of the court was against the evidence and law, and the court erred as the defendant did not waive the right to a jury trial.

The motion was taken under advise. ment by the mayor, and the case closed at 5:45 o'clock.

# GEON DECLARED GUILTY

For Breaking the Recently Enacted Screen Law.

CLARK FILED A MOTION

Wanting the Decision Thrown Out For Several Reasons-Officers Testified That a Blind Hung Over the Glass In the Door and That Shutters Were Closed.

The case of the city against Joseph W. Geon for violating the screen ordinance was called yesterday afternoon at

2:30 o'clock in police court. The first witness was Officer McMillan, but before he had offered his testimony Attorney Cook objected to any evidence being submitted under the affidavit for the reason that it was insufflcient, and the ordinance under which it was drawn was null and void. The objection was overruled and an excep-

Officer McMillan was permitted to testify and said: "I am an officer in East Liverpool. On the afternoon of April 9 I was in different parts of the city and was in the neighborhood of the Diamond and Summit lane. I went in the alley from Market street, and as I was going by Mr. Geon's place of business I noticed the shutters were closed and there was a blind on the glass door. There were no means by which the interior of the saloon could be seen, and I made an effort to look in. I thought I might be mistaken, and I went back the second time, but couldn't see in as the shutters and a blind over the door prevented it. I examined all three windows, but could not see in the saloon. There was no person with me when I made the first examination. Officer Whan was with me when I made the second. There was no change in the windows between my first and second examination."

The witness was subjected to a rigid cross-examination and said: shutters were all closed. They have slats in them and open on either side. If the slats open they were closed at this time, as you couldn't see any light in the saloon. I don't know whether any person was in the saloon. The windows are not more than two or three feet from the ground, and the in the door would be glass little higher than that. There would be no trouble to see a man inside don't believe I ever heard a disturbance

Officer Whan was called and said: "I was at various places between 3 and 4 o'clock Sunday afternoon, April 9. I went through Summit lane, and found the shutters closed at Joseph W. Geon's saloon. I think there are two windows and one door into the barroom and a hall door. I don't know where the hall door The shutters were closed both above and below, shutting off all view of the interior. I made no attempt to look in the saloon, but looked at the windows. Officer McMillan was with me and we couldn't see in at all."

On cross-examination the witness said he did not go in the alley for the special purpose of looking at the windows, but that his attention was called to it by Officer McMillan, who said he didn't think the saloons were observing the screen ordinance very well. He said he stood within five or six feet of the windows, and they were four feet or more from the ground. He also testified that Mr. Geon was a law-abiding citizen.

This closed the case of the city, and the only witness called for the defense was S. C. Whittenberger who said: "I have lived here 22 years and have known Joseph W. Geon almost all that time. I am bartender for Geon. I remember when the screen ordinance was passed thought of the plan, and after talking he told Robert Spencer and myself to be careful and keep the screens open. We are the only ones about the bar. I left the place Saturday night and to my knowledge the screens were never closed. Mr. Geon's business is conducted in a law abiding way."

Solicitor McGarry subjected the witness to a very rigid cross examination and he said: "I have lived here 22 years and have been in the whisky business during that time. The shutters had not been closed Saturday evening. and I didn't touch them when I left. I was there on Sunday as I always have a lot of perishable goods to look after. I was there in the morning between 9 and 10 o'clock, and left about 11. I entered the saloon from the front door which leads into a hallway and on into the saloon. I came out the same way. I don't carry a key to the other door. I was attending some perishable and cleaning

lights are always burning the saloon. The upper shutters have never been closed since I have been there. My business is to tend to the windows. The shutters were on the windows before any screen ordinance came into effect. The lower shutters are always closed to prevent passersby from seeing in. The lower shutters were closed April 9, but the upper shut. ters were open. No other person has a key to the door I went in. Robert Spencer was in the saloon that Sunday, but I don't know where he was when I left. There was no blind on the door and never has been."

The attorneys each made short argu. ments in the case, and after delivering a short address Mayor Bough decided that J. W. Geon was guilty as charged, and he was sentenced to pay a fine of \$50 and costs and stand committed until the fine and cos's were paid.

Attorney Clark at once made a motion to rest the judgment on the ground that the court had no legal right to try the case, as it was not in his jurisdiction. the affidavit being defective and the ordinance under which the defendant was arrested being null and void; that the finding of the court was against the evidence and law, and the court erred as the defendant did not waive the right to a jury trial.

The motion was taken under advise. ment by the mayor, and the case closed at 5:45 o'clock.

WANTED-Two good girls, well reco mended; apply at once; good berth od girls. Samuel Martin, 175 Broadfor good girls.

### LOST.

was hable table and College, off Fifth street; contained buttons and a handkerchief. Finder will be rewarded by leaving same at this office.

## HE ONCE TAUGHT MUSIC

gotten the Art.

ALLEN FORGOT TO PURCHASE

The Machinery He Told His Associates of the Brick Company He Had Bought For the East End Plant-Congregation Will Not Move-That Main Lowered.

It is not generally known that Martin Elliott was at one time a music teacher of no small repute.

During 1863 and 1864 he taught classes in music in East End, Calcutta and Ohio township in Beaver county. For his services he received about \$18 per week, and the violin he used in doing this work is still in his possession. When the Second U. P. church was built in St. George street in 1885, the trustees asked him to form a class in music which he did and many persons who are noted for their singing received instruction from Mr. Elliott. He quit teaching in 1886, but since that time has entertained friends at his home by playing selections on what he terms "my old fiddle."

### Don't Like East End.

Very few peddlers are now seen about the East End. Last Wednesday one of these merchants came to the city and went from house to house showing his wares. Yesterday he told a reporter that in all his experience he never struck a place where the people were so loath to buy from a peddler as they were in the East End. It is not often one of these chaps come along, but when they do they generally do a poor busi-

### Allen Failed to Order.

When Alex Johnson succeeds in organizing a company to run the brick works he will install a small amount of new machinery. Mr. Allen, it is now learned, never ordered any machinery from any of the concerns with whom he claimed he dealt, but the people connected with the plant never knew this

### Roadway Almost Done.

The roadway now being constructed over the culvert in Pennsylvania avenue will be completed within a few days. The iron griders have been placed in position by Street Commissioner Finley, and when the last board is fastened the culvert will have been completed. The culvert has been over six months in construction.

### New Storerooms.

Mulberry street by Frank Alabaugh will be completed within a few days. One of the storerooms will be occupied as an ice cream parlor, which will probably be the only one in that section. The furnishings for this place, it is said, will be unusually neat.

### Interesting Services.

The services at the mission at Neville institute tomorrow afternoon under the auspices of the Second M. E. church give promise of being very interesting. Some special features have been arranged during the week by the officers of the school. The music will be made a leading feature.

### Will Vacate the Church.

At a meeting of the board of trustees of the Second M. E. church held last evening, it was decided to generally improve the church in every particular. The contract for the painting was let. During the work of the improvement services will be held in the church as usual.

### Completed In May.

No brick work will be done on the new pottery being erected by the Laughlin China company until the contractors completed rapidly and by the middle of May it will probably be completed.

Improving Chamber's Building.

Many improvements are now being made on the Chamber building in not to rip, at First avenue. The work will be completed within a few weeks.

### Sold a Farm.

Frank L. Riley has sold his farm near No. 9 school house to William H. Smith the transfer being made yesterday. Consideration \$1,500.

Main Is Down.

in Pennsylvania avenue thereby placing it under the bed of the culvert was completed this afternoon. When the street is paved it will present as good an appearance as any in the city.

OHIO ELECTRIC COMPANY.

Martin Elliott Has Not For- splendid Achievement at the United States Pottery.

> The new plant of the United States Pottery company, of Wellsville, will soon be a working factor in this section, as they are about to begin operations in full. They are firing their saggar kiln. and by next week perhaps the entire plant will be on. While the plant is complete in every detail, we cannot pass without speaking further on their electrical department. The plant was placed by the Ohio Electric company, of this city. It consists of one high grade multipolar generator made by the Akron Electrical Manufacturing company, with a finely polished marble switch board, with all the modern improvements necessary for a complete plant. J. A. Swaney, the genial manager and superintendent of the Ohio Electric company, is thoroughly qualified to fill the duties of his important position. He holds certificates from the Middle division and the West Virginia inspectors; has operated in Denver, Colorado Springs, Georgetown and Gunnison, Col.; Pittsburg, Bryettston, Beaver and Beaver Falls, Pa. In his seven years' experience he has placed over 8,000 lights, and being thoroughly alive to the needs of installation management, he has met with unvaried success. In consequence the Ohio Electric company has a reputation second to none for turning out high grade work, and where nothing but the very best of material is used, thus insuring first-class work in all branches of electrical science.

### WANTED A DOLLAR,

But the Young Man Had Heard of the

A poorly dressed but prepossessing woman stopped a well known young man at the corner of Kossuth street and Broadway last night, and asked him for a dollar. She said that her mother did not have food in the house and the family were in destitute circumstances.

The young man questioned her closely as to where she lived, but she said she did not know the number. He then referred her to the township trustees. and went on his way. She thanked him and said she had not thought of them. A few minutes later he saw her going down Broadway. She had not been near the trustees.

### NEXT WEEK

Will the Sewer Pipe Trust Be Completed.

A dispatch from Akron has this of the sewer pipe trust:

"The big sewer pipe combination is a certainty. Frank M. Atterholt of this orty, who has been the chief engineer The new buildings being erected in of the deal, returned to Akron from New York today and states that on next Thursday it will be entirely closed. The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000. The officers of the trust will be located eitner in Pittsburg or Cleveland."

### RUSHED WITH ORDERS.

Potteries Need All the Ware They Can

The potteries are rushed with orders, and can take care of the ware they can turn out. Buyers are anxious for immediate shipment, and a large num-

ber of cars have been sent out this week.

Trade in the west and south is reported as being particularly good this season, and much of the city's product has gone in that direction. Some decorating shops are working at night to meet the demand.

### COMING HOME.

Professor Cooper Will Arrive Here Next Wednesday.

A letter from Prof. J. F. Cooper says that he will leave Denver for East Liverpool this week, and arrive here next Wednesday.

He has been wonderfully improved complete their present contract at the by his stay in the west, and believes he Salem pottery. The stone work is being is now stronger than ever. Mr. Cooper was very ill when he left the city a few months ago.

## TONS OF COUNTERFEITS

Plans of the Gang Recently Arrested In Philadelphia.

BOLDEST EVER KNOWN TO BE TRIED

They Included Running of a Paper Mill to Supply the Gang-Nine Tons of Internal Revenue Stamp Paper Found-Bogus Money and Stamps Were to Be Made.

Government officials in Philadelphia all say that the conspiracy of the two alleged counterfeiters, Arthur Taylor and Baldwin S. Bredell of Philadelphia, who are charged with having made the plates from which were printed the spurious \$100 silver certificate, is the most dangerous to the monetary system of this country that has ever been attempted and that had the discovery not been made when it was the counterfeiters in a short time would have had in operation a paper making plant, by which they would have been enabled to make the paper for notes so nearly like that made by the government that the notes could not have been distinguished. They already had enough paper to make notes to the value of \$9,000,000.

The story of this most remarkable attempt to defraud the government by counterfeiting includes the arrest of a partnership of five criminals, the seizure of the face and back plates of the \$100 silver certificate, which has so long worried and troubled the treasury, the face and back plates of an Everett head \$50 silver certificate the partly finished face and back plates of a \$100 Lincoln head treasury note, the unfinished face and back plates of a \$20 silver certificate and three 10 cent 50 cigar internal revenue stamp plates. It also shows how the conspirators were about to get into the manufacture of paper like that used by the government in printing treasury

CHIEF JOHN E. WILKIE.

and bank notes. It shows that the crim inals had on hand nine tons of water marked internal revenue paper, all counterfeited, and more, in bulk and vol ume, than the stock of similar paper kept on hand by the bureau of printing and engraving at Washington and sufficient to have printed 25,000,000 stamps. Remarkable to say, all the conspirators are young men, the cldest being not over 38. Had the plan to mann facture paper for the notes succeeded. the excellence of the engraving was such that it would have been almost incapable of detection.

Speaking of the case the other day, Chief Wilkie said that more than a year ago, when the counterfelt was first discovered, treasury experts differed as to the way it was made. He finally determined that it was a combination of photo etching and hand engraving, and he set to work to watch men who did that sort of work. In Philadelphia, New York and Chicago capable men were put to work, the man in this city being William J. Burns, one of the most astute men in the secret service. About April 1 it was learned that Tay lor & Bredell were at work on something that they were endeavoring to conceal, and they were watched closely. The force here was largely increased, and men were set to follow them all the time. The arrest was made at the firm's office on Tuesday, April 18.

"We took them into the private office, 888 Filbert street," he said, "and found in their desks the material described. We held them there, preferring to keep the arrests secret as long as we could. The other day was the first they had been out. The evening they were caught Burns, Griffin and Murphy went to Lancaster and direct to the factory, 212 Queen street, where they spent the night waiting. Burns, the watcher for the conspirators, was the first to arrive and was arrested.

"Kendig, one of the gang there, came later and was handcuffed to one of the officers. From him we got the keys to the only locked place in the building. It was simply a fine partition inclosing a space about 15 feet square, with a Yale lock. In there we found a D plate press. Lying on the bed of the press was a fine stamp plate of full size, with 10 cent 50 cigar stamps on it. We expected this, because Mr. Jacobs, another of the men in Lancaster, had not been buying enough stamps. In fact, he had only bought 2,500 stamps in two years The work of lowering the water main | United States. Admission free. In a pressure press in the same room,

the face of the press being the size of a printed seal, there were under pressure about 3,000 sheets of stamps. On a box in another corner were a number of wetting cloths and about 1,000 sheets of counterfeit revenue paper.

"On the same floor in 37 tobacco cases we found about one-third of a ton of the paper bearing the distinctive mark of the revenue service. This paper, we learned, had been made over five years ago, and we learned that the man who made it is dead, fortunately for him. This left us to reckon with Jacobs. Officers Burns and S. A. Donella of Omaha district went to his office, but he was very busy, and they could not see him. Finally they forced their way to him, arrested him and seized the factory. We found a large supply of stamps in drawers accessible to clerks who stamped the boxes. These were placed in the drawer each morning by Jacobs. He brought them over in packages once a week from Kendig's office. There are 49 of the counterfeit silver certificates in my office in Washington, and I am confident that less than \$10,-000 of these were printed.

"Now as to the arrest of Mr. Newitt. He is a man who knew and realized the peril of the enterprise in which he was engaged. He is, moreover, a man who believes that every man has his price. In February last he conceived the idea of protecting himself by arranging to secure inside information through Secret Service Agent McManus. I witnessed two interviews and a number of meetings between Mr. Newitt and Mc-Manus, and subsequent to each of these two interviews I was handed \$500 by McManus. I now have that money in my possession. We turned both factories in Lancaster over to Collector Hershey of the Ninth Pennsylvania district. They are forfeited to the government. Jacobs asserts that the value of his property and contents is \$40,000.

"At Kendig's factory we found two additional stamp plates, which had been worn out, and the front and back plates of the celebrated \$100 silver certificate, seal and numbering machine."-Philadelphia Dispatch.

### OLD TELEGRAPH TO GO.

Marconi System May Soon Be In General Use.

Experiments made during the past few days at Notre Dame university, South Bend, Ind., have convinced Professor Jerome J. Green that the Marconi system of telegraphy will be in general use at no distant date. Professor Green is in charge of the department of physics and electrical engineering at Notre Dame, and has devoted much time to experiments with wireless telegraphy Tests from one building to another on the campus were tried with remarkable success. They were obtained by the use of apparatus constructed in the labora tory of the college.

The equipment, as arranged by Pro fessor Green, consists of an induction coil, to which is affixed a vertical charged wire and a similar one is con nected with the earth at the point of sending. At the receiving station is the coherer, which consists of a small glass tube with insertions of brass metal at each end. The space between the metals contains filings of silver and nickel. A high resistance relay and a sounder are

also at the receiving station. These two instruments are exactly the same as are used in the ordinary telegraph office, thus making it possi ble for the operator who is capable of receiving messages over the wires to perform the same work with the new discovery. At the sending station there is, instead of the ordinary keyboard, a simple lever, which works like a pump handle. As dots and dashes are measured by the manner of pressing the key un der the present system, they are indicated by the new in the distance this lever is pushed down or raised. At the tip of the vertical wire is a brass sphere, and from this the sound waves go out in every direction, unless reflectors are used to compel the message to go out like rays from a searchlight. The receiver intended to take a message is tuned to the same point of synchronism as the machine which sends the message.

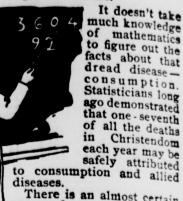

"There may be dozens of instruments," explained Professor Green, "from which messages are being transmitted at the same time, and unless the receivers are tuned to the exact synchronism of the instrument at the point of sending one will not interfere with the other, and each instrument will take only the message intended for it. -Special Philadelphia Press.

### Cage Gibbet Find In Virginia.

Three colored laborers in the employ of Henry Warden at the Bernard farm. near Fredericksburg, Va., the other morning unearthed an uncanny relic in the shape of an iron cage constructed as nearly like the human body as possi ble. It had a headpiece, on the top of which was a ring, a body piece and arm and leg pieces. With it were found most of a skull, well preserved, the jawbones, with several teeth, and the bones of the legs, arms and hips. This is the second "cage gibbet" find that has been made in that section of the state. - Atlanta Constitution.

of mathematics to figure out the facts about that dread disease consumption.
Statisticians long
ago demonstrated
that one seventh
of all the deaths
in Christon Christendom each year may be safely attributed

There is an almost certain cure and a positive prevent-ive for this fatal disease if taken in time. The story of what it will do is told in the following letter:

following letter:

"About two and a half years ago, when I was at Flat Lick, ky," writes J. W. Jordan, Esq. of Corbin, Whitley Co., Ky, "I was taken with severe pains in the chest, after which I began to spit up blood and was also troubled with night-sweats. I was so short winded that I could hardly walk half a mile at once, and if I got the least bit wearied, I would have an attack of phthisic (asthma) and almost die for about two or three days. I concluded to try Dr. R. V. Pierce, and I related my case to him. He wrote me that I should take his 'Golden Medical Discovery.' I began using it and used about six bottles. I began to see that it was helping me, so concluded to continue its use. I did so and have improved both in strength and in weight. I have not had the phthisic, nor spit up any blood since last spring."

This great remedy-Dr. Pierce's Golden Medical Discovery—cures 98 per cent. of all laryngial, bronchial, throat and kindred affections which, if neglected lead up to consumption. It strengthens the stomach and makes the appetite keen and hearty. It invigorates the liver and aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect. It is the great blood maker and flesh.

It is the great blood-maker and flesh-builder. Honest dealers will not urge you to take a substitute said to be "just as good." Send for Dr. Pierce's Common Sense Medical Adviser. FREE. Enclose 21 one-cent stamps to cover mailing only, to the World's Dispensary Medical Association, Buffalo, N. Y., for a paper-covered copy. Cloth binding ten cents extra. It is a thousand page book with over seven hundred illustrations; formerly sold for \$1.50. For limited time can be had for cost of mailing. cost of mailing.

## CONVINCING PROOF

The Average East Liverpool Citi-

zen Must Accept the Fol-

ing Proof.

The great Sir Isaac Newton, one of the most profound reasoners the world ever produced, once cut a large hole in a board fence to allow a favorite cat access to two gardens, and cut a smaller hole to allow her kitten to follow her. The weakness manifested in Sir Isaac's action was due to want of thought. Any East Liverpool citizen who mentally debates the proof offered here about Doan's Kidney Pills and arrives at any other conclusion than that stated in this citizen's statement is as short of reasoning powers as the philosopher when he turned carpenter.

Mr Geo. Mount, of 165 Fourth street, teamster and dealer in coal, says: "For three years I had attacks of kidney complaint, some of them laying me up for two or three weeks at a time. The symptoms were pain in the back, particularly severe when stooping or moving around. Physicians called it lumbago, and advised by friends to use Doan's Kidney Pills, I procured two boxes at the W. & W. Pharmacy. They cured me."

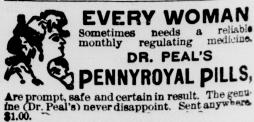

Doan's Kidney Pills for sale by all dealers, Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U. S. Remember the name Doan's and take no substitute.

# COVERED WITH BLOOD

Was a Prisoner When Taken to City Hall.

LANGUAGE NOT OF THE BEST

Was Used When They Placed Him In Jail--A Walker Woman Complained of Trouble In Her Family, While a Third Street Man Paid For Being Disorderly.

Joseph Snape, of Walnut street, was arrested last evening at his home by Officers Bryan and McCullough and taken to jail in the patrol, where a charge of disorderly conduct was placed against him. This morning Mayor Bough fined him \$9 60 which he paid and was released. When Snape was brought to city hall his face was covered with blood, and he addressed the officers in language that might have been more choice as he was being put in cell. In the patrol wagon he acted very ngly, but to no avail.

William Brindley was another unfortunate who fell into the hands of the law last evening. He lives in Third street and was acting very disorderly at his home. Officer McMillan gathered him in at the instance of Chief Johnson, and this morning he pleaded guilty to a charge of disorderly conduct and paid a fine of \$9.60.

The case of Jack Allison that has been in court for several days will be disposed of this evening.

This morning Mrs. Martha Gould, living near the school house at Walker, called at city hall and stated she would like something done with her son who she claims has assaulted her on numerons occasions. The son and his wife have have been living in the same house and trouble has occurred frequently. As the the woman lives outside the city limits she was referred to Township Trustee Lloyd who will investigate the matter.

The case filed against the Reymann Brewing company last September remains unsettled. When the mayor was asked about the case this morning he refused to talk.

The Bagley and Moon cases are still pigeon holed and nothing can be learned as to when they will be disposed of.

### COUNCILMAN CAIN.

He Is the Warm Friend (?) of the Newspapers.

At council chamber last night, after adjournment, Councilman Cain said:

"To — with the newspapers." By his ballot or vote in council, not long since, he virtually said:

"To --- with the people of East Liverpool, the working men and working-

women." Councilman Cain is a bright and

shining light. In case we deem it worth while, we shall enlighten the public respecting certain bills which have been presented to council and which Councilman Cain, in connection with other councilmen, should have been careful about sanctioning.

### PAINT THE STATION.

The City Should Be an Example For Its Citizens.

A prominent business man of the city the matter said:

almost six years ago, and I think the awarded. city authorities should see that the work is done at once. It is their duty to keep the city property in first class condition and furnish an example of neatness to all citizens. In every city you will find that the board of education keeps the school houses in splendid condition, and I think council should follow their example."

### NEEDED IT.

Farmers Are Hoping There Will Be More Rain.

The rain of last night was appreciated and received with thankfulness by farmers of this section. Said one this

"It has been a long time since crops in this county and vicinity have been so in need of rain, and much more would do a great deal of good and add thousands of dollars to the income of farmers this year."

April water assessments now due. Save the 10 per cent by prompt payment. Office down stairs, 144 Fourth street.

To View the Performance at the Opera House Last Night.

OFFICERS THERE

Last evening at 7 o'clock Mayor Bough telephoned from his residence to Chief Johnson at city hall and asked him to see that all immoral show posters were taken from the various windows in the city.

Chief Johnson spent about an hour looking after an ordinance covering the ground, and then went to the opera house, where he held a lengthy conversation with the manager of the company. He was assured there was nothing wrong in the show and suggested that an officer be stationed in the house during the performance. Officer Whan was detailed to do the work, but Officers McMillan and White were there also.

The performance was by no means of a high order.

Straw hats, new styles, received today at

CUT THIS OUT.

Was a Prisoner When Taken to City Hall.

LANGUAGE NOT OF THE BEST

Was Used When They Placed Him In Jail--A Walker Woman Complained of Trouble In Her Family, While a Third Street Man Paid For Being Disorderly.

Joseph Snape, of Walnut street, was arrested last evening at his home by Officers Bryan and McCullough and taken to jail in the patrol, where a charge of disorderly conduct was placed against him. This morning Mayor Bough fined him \$9 60 which he paid and was released. When Snape was brought to city hall his face was covered with blood, and he addressed the officers in language that might have been more choice as he was being put in cell. In the patrol wagon he acted very ugly, but to no avail.

William Brindley was another unfortunate who fell into the hands of the law last evening. He lives in Third street and was acting very disorderly at his home. Officer McMillan gathered him in at the instance of Chief Johnson, and this morning he pleaded guilty to a charge of disorderly conduct and paid a fine of \$9.60.

The case of Jack Allison that has been in court for several days will be disposed of this evening.

This morning Mrs. Martha Gould, living near the school house at Walker. called at city hall and stated she would like something done with her son who she claims has assaulted her on numerons occasions. The son and his wife have have been living in the same house and trouble has occurred frequently. As the the woman lives outside the city limits she was referred to Township Trustee Lloyd who will investigate the matter.

The case filed against the Reymann Brewing company last September remains unsettled. When the mayor was asked about the case this morning he refused to talk.

The Bagley and Moon cases are still pigeon holed and nothing can be learned as to when they will be disposed of.

### COUNCILMAN CAIN.

He Is the Warm Friend (?) of the Newspapers.

adjournment, Councilman Cain said:

"To - with the newspapers." By his ballot or vote in council, not

long since, he virtually said:

"To - with the people of East Liverpool, the working men and workingwomen."

Councilman Cain is a bright and shining light. In case we deem it worth while, we shall enlighten the public respecting certain bills which have been presented to council and which Councilman Cain, in connection with other councilmen, should have been careful about sanctioning.

### PAINT THE STATION.

The City Should Be an Example For Its Citizens.

A prominent business man of the city is of the opinion that the fire station should be painted, and in speaking of the matter said:

almost six years ago, and I think the city authorities should see that the work is done at once. It is their duty to keep the city property in first class condition and furnish an example of neatness to all citizens. In every city you will find that the board of education keeps the school houses in splendid condition, and I think council should follow their example."

### NEEDED IT.

Farmers Are Hoping There Will Be More Rain.

The rain of last night was appreciated and received with thankfulness by morning:

"It has been a long time since crops in this county and vicinity have been so in need of rain, and much more would do a great deal of good and add thousands of dollars to the income of farmers this year."

April water assessments now due. Save the 10 per cent by prompt payment. Office down stairs, 144 Fourth street.

Greeted With Cheers on Reaching the Hotel-Speech to Raleigh's Men.

New York, April 29.-Cheers and the waving of hats greeted President McKinley, Mrs. McKinley and their AN INSTANCE OF HIS SHREWDNESS. party when they reached the Manhattan hotel about 5:30 last night.

The party consisted of President and Mrs. McKinley, Mr. and Mrs. Abner McKinley, Secretary of the Navy and Mrs. Long, Secretary of the Treasury Gage, Brigadier General Fred D. Grant and Mrs. Grant, George B. Cortelyou, acting private secretary to the president; Captain S. S. Saxton, Dr. P. M. Rihey, surgeon U. S. N. A number of policemen guarded the entrance to the hotel and kept back the crowd.

PHILADELPHIA, April 29.-When the resident ank party reached the cruiser

Accompanied by Captain Coghlan, the president proceeded to the cabin of the cruiser, where he held an informal reception. He was then escorted to the ower deck, on which the sailors were

lined up for inspection.
Captain Coghlan introduced the men

After passing before them with bared head, Mr. McKinley addressed the men as follows:

"Captain Coghlan and the men of the Raleigh-It gives me very great pleasure to bid you welcome here to congratulate you and each one of you on the heroic part you played in the great battle on the first of May at Manila, which was a most glorious triumph of the American arms, and made a new and glorious page in American history.

"I assure you that when I give you welcome I am only speaking the heart's welcome of 75,000,000 American citizens who honor you all for your splendid services to our country.

"This feeling not only extends to your great admiral, whom we all love and honor, but to the humblest member of the crew who who was in that great fleet at Manila bay.

I give you all a warm and generous welcome and my thanks.' Secretary of the Navy Long then ad-

dressed the sailors. The sailors then gave three cheers for

the president of the United States and three for the secretary of the navy. This was followed by the ship's yell: Who are we?

Can't you see? We are members of the new navee. Rah! Rah! Rah! Raleigh! The president then shook hands with

the various officers of the cruiser and spoke a pleasant word for each. Then, with the ladies of the party, the president made a tour of inspection of the warship. He examined the big gun on the starboard side which spoke first in the battle at Manila.

A general handshaking concluded the visit and the presidential party returned to the tug. A flying visit was made to Cramps' shipyard, where the battleship Alabama, in course of construction, was inspected. Later the party returned.

PHILADELPHIA, April 29.—Upon receiving from Washington the dispatches lations and thanks to the soldiers in the Philippines:

"PHILADELPHIA, April 28 To Otis, Manila:

"Your message announcing the achievements of MacArthur's division and the proposal by the insurgents of suspension of hostilities most gratifying. Convey to officers and men heartfelt congratulations and gratitude for their signal gallantry and triumph. "WILLIAM MCKINLEY."

### Fishes Frozen In the Ice.

It was discovered at Cheyenne, Wy. that the waters of Lake Minnehaha, which forms part of one of the Cheyenne city parks, froze solid in many parts of the lake during the past winter. The lake was stocked two years ago with bass and pike, and thousands of these fish, many of them from 12 to 18 inches long, have been frozen solid in the ice. On account of the great quantity of dead fish the lake will have to be cleaned out.—Denver Republican.

### Beef Report Today.

WASHINGTON, April 29.—Colonel Davis announced that the beef court report would be delivered today.

Mr. Gleason's Scratcaless Chicken.

One of W. H. Gleason's hens at Essex, Conn., has a brood of chickens of the Wyandotte variety, which includes one that has only one leg. It manages to get around fairly well.-Hartford Courant.

Tom Reed In New York. The gloom's so thick in Washington they cut

it with a knife, And various brands of statesmen moan: "Now, what's the use of life? The man who kept this town alive has given

us a flout—
Tom Reed is going to New York to hang his shingle out!

"No more we'll view on the avenue called Penn-syl-va-ni-ay That rollicking bunch of rotundity go rolling down the way, With a laugh that splits that head of his-al-

For Tom is going to New York to hang his shingle out! Why, even the men who felt his grip are sad to see him go.

most a schoolboy's shout-

Without big Tom of the iron will there's only a one hoss show. We'd take his harshest rulings and bow to them no doubt-But Reed is going to New York to hang his

shingle out!' But there are balances in life, as sunshine fol lows rain, And what's the loss of Washington is gladsome

Gotham's gain. Hark to that elephantine tread in Broadway thereabout! Tom Reed is coming to New York to hang his

shingle out!

\_Jahn O'Keefe in New York Press

PRESIDENT IN NEW YORK. ANECDOTES ABOUT QUAY

Interesting Incidents In the Noted Statesman's Career.

How He Engineered a Knife Deal When a Boy With a Future Pennsylvania Judge-Story of How ar Awkward Guest's Allegiance Was Cemented to Quay Forever.

Matthew S. Quay, who has just been appointed United States senator from Pennsylvania by Governor Stone, at an early age gave signs of the keen judgment of situations and willingness to Raleigh, Friday, a national salute was take desperate risks which have characterized his politics since.

> When he was 6 years old, as he tells the story, his father one day brought home to Dillsburg a little pocket Bible and a tin sword with a brilliant red hilt. In order to test the bent of the child's mind he gave him his choice. He wanted the sword, and he wanted the book. He had a little sister who would probably get the Bible if he chose the sword; but, as he figured out the situation, a girl could have no use for a martial weapon, and if he chose the Bible there was more than a fighting chance that his father, well pleased, would throw in the sword. So the young politician reached out his hand piously for the book, while his heart went out toward the sword. He got both, just as he had foreseen.

> Students of Quay's character say his career has been due, first, to the fact that he always sticks to his friends, and, second, that he knows the power of money. He early showed the shrewdness which has marked his political life. as the following story proves:

"Judge Harry White of Indiana county, Pa., is conspicuous among the workers for the re-election of United States Senator Quay," said an ex-member of the Pennsylvania legislature to a New York Sun reporter, "and this in spite of the way Quay traded knives with him when they were boys together, going to school in western Pennsylvania. Judge White is about the last of the old school of politicians in that state who is still prominent and influential among the Republican leaders. He was a smart boy, but not quite so smart as Matt Quay. There never was a sharper, more mischievous, successful, schemer as a boy than Matt was. He was continually cutting up pranks that no other boy would ever think of. He was always looking for a dicker of some kind, and he never traded a knife or a he traded with, no matter how much or of rare ceramics. The visitor upset the advantage seemed to lie with the latter in the preliminary negotiations. But the transaction in the matter of the knife trade with Harry White was a little ahead of any deal he ever made | she said. "I can crush it in my fingers." in those halcyon days.

"Matt had a jackknife that was the envy of all the boys. It had a buckhorn handle, and I don't know how many blades and files and other implements dear to the boy heart. This knife was particularly coveted by Harry White, and he made all sorts of offers to Matt for a trade, one of which included a knife he owned, a dozen marbles, a ball of twine and a tin squirt gun, but Matt persistently declined to make a dicker. One day, though, much to the surprise and joy of Harry, Matt brought up the matter of a deal for his knife and suggested that he might be induced to swap for something.

" 'I haven't got my knife with me, though,' said the future statesman, and if we strike up a bargain you will have to go after it.

" 'All right,' said Harry, too much pleased to ask any questions. 'How will

you trade?' " 'Well,' replied Matt, 'if you will

give me your knife, the marbles, the twine and the squirt gun and throw in that horsehair fishline of yours, I'll call it a go.

" 'I'll do it!' exclaimed Harry, and he produced the articles Matt had mentioned and handed them over. 'I'll go up to your house and get the knife.' "Mat stowed Harry's knife and the

other things in his pockets and said: "'You needn't go up to our house after the knife. It ain't there.'

"'Where'll I go after it, then?" asked Harry.

"'Up to the tannery,' replied Matt. 'I was fooling around there this morning and dropped my knife in the old vat. Me and some o' the boys fished two hours for it and couldn't find it. But it's there. Go up to the tannery and maybe you can get it.'

"Harry kicked like a steer, but there wasn't any use. He never found Matt Quay's knife, and it's in that vat yet for all anybody knows. But Quay has stuck by Harry White during all his political career, and Harry White is sticking to Quay in spite of that disastrous deal."

In after years Mrs. Quay often showed herself as adroit a politician as her husband. He had a wide acquaintance among the politicians of Pennsylvania and often entertained them at his house. One day he brought home to dinner an

awkward, old crossroads statesman from one of the mountain districts. The tahandful of marbles or anything else ble was set with beautiful and costly that he didn't get the better of the boy | china-Senator Quay is a great collectand broke a dainty cup. To cover his confusion Mrs. Quay at once picked up a similar cup in her hand.

"That ware is extremely fragile," Another of the beautiful pieces was shattered into fragments, and at the same time the allegiance of the awkward guest to M. S. Quay was cemented for all time.

### SHAMROCK'S LONG SPAR

It Tapers Over 110 Feet, and Its Girth Is 60 Inches.

The racing spars for Sir Thomas Lipton's yacht Shamrock, challenger for the America's cup, have been about completed. The mast will be the longest spar ever stepped in a racing boat, and will taper over all 110 feet. Its greatest thickness is at the hounds and just under the crosstrees, where its girth is 60 inches. Half way to the deck line its girth is barely 50 inches, which it car ries down to the step.

It is a beautiful stick of Oregon pine and is now ready to be put in position All the mast fittings are made of iron in the usual way, as it was found impossible to mold them of manganese beonze, the composition employed in other parts of the boat. The gaff and boom will both be of metal. Designer Fife fully considered whether steel or wood should be employed for the mast and decided in favor of the latter .-New York World.

## TO STUDY THE OCCULT

New Psychic Study Society Organized In New York.

AIMS OF THE ORGANIZATION.

Its Members Offer to Explain Phenomena of Dancing Furniture and Ghostlike Apparitions-Dr. Gibier's Defense of Psychism-The Society Starts With One Hundred Members.

The first meeting of the Psychic Study society, organized by the Rev. Henry Frank, was held the other evening in St. Stephen's hall, in New York. It was a public meeting, and the hall was crowded to the doors. In the audience were clergymen, physicians and other professional men. The speakers were the Rev. Henry Frank, who presided. and Dr. Paul Gibier, head of the Pasteur institute in New York. Among the stated objects of the society are "the study of hypnotism and mesmerism and an inquiry into the alleged phenomena of clairvoyance, somnambulism, thought transference and all matters of kindred nature and the careful investigation of any reports resting on strong testimony of alleged apparitions occurring at the moment of death or otherwise and of alleged disturbances in places reputed to be haunted."

The proceedings began with the ejection of an aged scoffer. He arose, and, addressing the Rev. Mr. Frank in a loud voice, wanted to be informed and this constant worrying of troops by whether the meeting was a bona fide public one or whether it was packed "like a mere Saratoga convention."

"It is absolutely public, and all are entitled to give their views and join the society or refrain from doing so," replied the Rev. Mr. Frank.

"I guess nit, and I've had enough of

"Put him out!" commanded the president, and this was promptly done. "Now," said the Rev. Mr. Frank, "gentlemen will pass down the aisles with slips of paper, and those who wish to join the society will please write down their names and addresses."

"I think," ventured a man in the audience diffidently, "that it would perhaps be as well if the objects and aims and plans of the society are explained to us before we are asked to join it." This suggestion was applauded by some persons in the rear of the hall, and the Rev. Mr. Frank explained these at length.

He told how a man had come to him and told him that his furniture had way anyhow." taken to dancing and reeling about the rooms of his house in a most inexplicable and terrifying manner, so that his family were "scared half to death." He also spoke of another case to which his attention had been drawn. It was that of a man who was on a visit to some friends. The visitor, while in bed, there being a light in his bedroom, saw a person enter the room, go to a bureau, take therefrom a razor, stand in front of a mirror, cut his throat and vanish. At the breakfast table the next morning he recounted what he had seen and identified the apparition's portrait from among 100 photographs. He then learned for the first time that the original of the portrait had years before committed suicide in the manner described and in that very bedroom.

"The society," said the Rev. Mr. Frank, "will investigate any reports made to them of dancing furniture and manifestation of any nature whatsoever. If it be found that there are no Keely wires, that pranks are not played upon the persons who report the alleged phenomena, the cause thereof will be sought for in a cautious, strictly seintific and thorough manner by members qualified by their scientific attainments, study or intelligence to pursue such investigation.'

Dr. Paul Gibier was then introduced The doctor is the author of a work entitled, "Phychism - An Analysis of Things Existing." It was explained that he was under the impression that he was to address a body of scientists and not a public meeting. Instead, therefore, of entering upon a scientific discourse, as he had intended, he delivered an address in defense of psychism.

"The time is fast approaching," said he, "when a lack of knowledge of this subject will be considered as gross ignorance. It has been said that in psychic phenomena a possible explanation of the universe might be found. Is this not too rash an assertion, and is not the expression of this expectation by far too unscientific? I think not, for the aim of science, as pointed out by Huxley and other savants of his school, is nothing short of a complete explanation of the universe.

"In reality neither Huxley nor Tyndall was consistent in his teachings in denying the existence of and scorning psychic phenomena, a subject which they had not investigated. They failed to steer their bark according to their beacon. They did not hold to what Huxley termed 'that scientific ars artium,' the art of saying 'I don't know,' and the facts are the reefs on which the consistency of their attitude was wrecked, for facts exist."

More than 40 members in the audiwith upward of 100 members. - New | terrors. ''-Louisville Times.

### SOLDIERING ABOUT MANILA.

A Nebraskan Describes the Sensations of a Man In the Ranks.

L. C. Peters, a soldier of the First Nebraska in the Philippines, writes to a Chicago paper:

"What do we think of? How do we feel? What do we do? are the questions, no doubt, of the residents of the central western states who have friends and relatives in the army. Well, we think of when we are going home, think of what we used to eat and when we'll eat again, and a few other things. What do we do? Well, we fight, sleep and do guard duty; that is about all. We feel tired.

"The country over which most of the conflict in Luzon is being waged is very rough, and is cut up into ridges by the numerous ricefields. To give one an idea of the topography it will suffice to say that the ricefields are all terraces running around the many small hills. These terraces are each about 100 feet wide, and rise one above another, each being about a foot or 18 inches higher than the one right below it. Climbing and running up and down terraces with a haversack containing 250 rounds of Springfield ammunition slung across the shoulder and a belt of 50 rounds around the waist is not very enjoyable work, and soon tires the strongest men.

"The manner of fighting the insurgents differs a great deal from the ordinary methods of warfare. No pitched battles are fought, no firing from behind breastworks of stone or earth. To fight the Filipinos one must ambush or be ambushed and after the enemy is once in sight must run him down. The Filipinos worry more than really fight. small bodies of insurgents makes the work very fatiguing to the soldier. The Filipino carries no heavy pack or acconterments and goes barefoot most of the time. He can run like a deer, and does so rather than meet a foe face to face. Being light of foot and knowing every foot of the country he traverses. he has a big advantage. Then, again, he doesn't have to worry about holding the ground he takes, for he isn't on the taking side of the game.

"It is interesting to know how many of the boys believe in fatality, and one often hears one say to another, 'Well. when your time comes to die you'll die, no matter whether you are in the front or rear, and there isn't any use dodging. Dodging bullets is a harmless but useless pastime indulged in by many. Dodging is useless, because when one hears the ball it is already past and too late to dodge. One soldier when 'loshed' for ducking his head remarked, 'Well, I'll tell you fellows there's consolation in knowing you tried to get out of the

### HEROISM OF TENTH'S MEN. Surgeon From Manila Tells of Pennsylvania Soldiers' Bravery.

Dr. W. C. Hamilton, who went to Manila with the Tenth Pennsylvania regiment, returned to his home at Beaver, Pa., recently. He was transferred to the hospital corps at Malate on Sept.

Dr. Hamilton said: "The men of the Tenth are ready to stay in the Philippines as long as the government may need their services, and that will be for some time. The Filipinos are likely to conduct a long bushwhacking fight. When I left Manila, the men of the Tenth were in good condition."

Dr. Hamilton tells a story of heroism on the part of George Gibbons and Frank Barbee, who enlisted from San Francisco. During the battle of Caloocan news was brought that a Montana captain had been fatally wounded. Gibbons and Barbee went after him with the ambulance. Dr. Hamilton continues the story as follows:

"When the ambulance stopped and the two were about to pick the captain from the ground, both horses were shot. Gibbons, who was a strapping fellow, put the wounded captain on his shoulders and started back, when a bullet pierced his heart, and he dropped dead.

"Barbee picked up the captain and carried him back to our temporary quarters, a distance of one-half mile. Barbee then returned to where his comrade lay dead and succeeded in carrying his body back in safety. After the battle was over this Montana captain sent for Barbee and handed him his belt and revolver and told him to take them as a deed. The chosen candidates, it is reremembrance."—Special Philadelphia

### O Death, Where Is Thy Sting?

The boycotting of the luckless Mexican embassador by representatives of the other powers at Washington recalls an anecdote of a recently deceased clubman. He was present one evening at a little musical gathering when an aspirant for honors as a pianist seated himself at the piano and began playing one of the national airs of Mexico, "La Paloma." His execution was deadly. and he banged and thumped the instrument until it was a fit object for the interference of the humane society. Finally he whirled around on the stool and said: "Did you notice the air I was playing? Well, when they led Maximilian out to be shot they asked him what tune he would like to be shot by and he selected 'La Paloma.' Do you

"Yes," replied the clubman as he glared at the executioner of the tune. ence joined the society, which starts off | "I suppose it robbed death of half its

### EPWORTH LEAGUE.

Topic For the Week Beginning April 30, "How Shall We Divide Our Time?"-Text. Eccl. iii, 15.

"That which hath been is now, and that which is to be hath already been, and God requireth that which is past.'

No one truth is more pressed home upon me by the Bible than that of personal accountability for the use of personal power and opportunity. The world of things moves in regular lines of law, and a man can know assuredly what is to be in the future from what has been in the past. Circumstances may change, but the great fundamental principles of human nature and the rules which apply to conduct never shift ground. We are what we make ourselves. God has given the raw material of our lives, and we manufacture character. For this He holds us responsible, and offers rewards for right results and pronounces penalties for wrongdoing and evil. The only sober thing for every man is clearly to recognize his duty to God and then to set himself to work to use his time and talents and opportunities so as to bring the largest and best results to God and himself.

It is folly to devote one's time and energy so fully to securing business advancement that the other needs of life are neglected. Soul needs should be recognized and fully provided for. Social duties and wants are real issues of moment in every life. One must cultivate neighborliness for his own sake and the good of others. He must learn to give and take or be less the man than he should be. Knowledge of men and things at large, the world and its great movements and interests, also have a claim on our attention and time.

Above all, a man should take time to be alone with himself and his God. The "quiet hour" is needed daily in every life. It is needed to sober one from the intoxication and excitement of the world's mad rush around us. It is needed to cast the anchor of faith and hope deeper and more securely in the unseen but real things of existence. Time must be given to think of God, of heaven, of holiness and the real happiness.

Stint your sleep if necessary, cut short your pleasures, economize time in your business, be frugal in social exertions, but give yourself ample time to get acquainted with God. If you can't bear to talk a few minutes a day with Him now, how can you ever expect to enjoy an eternity with Him hereafter?

### WASHINGTON'S BIRTHDAY.

Celebration of Our National Holiday

In an interview the other day Mr. Williams, secretary of the Porto Rican commission, emphasized the fact that the people throughout the island are pleased to realize that they are Ameri can citizens and proud to stand under Washington's flag and share the freedom he gave his people. This was particularly evident on Washington's birthday, when, by order of General Henry, the 22d of February was made a public holiday and was generally observed as such throughout the entire province. Early in the morning two native bands of San Juan marched through the city and serenaded a number of prominent citizens.

In the afternoon the school children assembled on the plaza there, each child carrying an American flag, and paraded through the principal streets to the theater, where appropriate exercises were held. On the stage was a large lithograph of George Washington, draped with the stars and stripes. Thrilling tableaus were presented by the American sailors and soldiers. A beautiful feature of the entertainment was the singing of "America" by 15 Porto Rican girls. - Washington Star.

### UNIQUE SCHOLARSHIPS.

Strange Conditions Required of Candidates Competing For Them.

A unique set of scholarships has been founded at the University of Paris by an unknown donor. They are five in number and are worth 15,000 francs each. The conditions are strange ingalred, must know English. They must go on a long journey lasting 15 months, during which time they are to visit all peoples and climes. It will be their duty thoroughly to inform themseives as to the characteristics of the various people they visit, investigate the methods of government and determine what factor gives prosperity to the peoplewhether it is due to the government or the people, and if to the latter what characteristic is responsible for it. The conditions further require that they must obtain this knowledge and information themselves and not accept it from official sources. - Paris Cable New York Journal.

### Expensive Correspondence.

If this expansion of the messenger boy service continues, there won't be an American girl that will open a letter from anywhere that doesn't come by the writer's "own" messenger, so quickly do "our girls" accommodate them selves to any new conditions. -Boston Transcript.

### UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours and union labor employed.

### PATRONIZE UNION CLERKS, 👵

All members of the R. C. N. P. A. can show this card ask for it when making your purchases. Endorsed by the A. F. of L.

COLOR IS CHANGED EACH QUARTER Good only curing months named in lower left hand corner and when properly signed, and STAMPED with the number of the Local.

### UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or litting of a boot or

BOOT & SHOP WORKERS UNION

hoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS. This Label is about an inch and

colored paper. It is placed on every union made has before it leaves the workman's hands. If a dealer takes a abel from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

a half square, and is printed on buff-

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on, the waistband lining of the parts. ing of the pants

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as fol-lows: The Union shield is in red, white and blue, on a background of pea green, bor.

pea green, bordered by gold
The Label will
be placed on the upper front side of the tube
that receives the seat post. BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size fac-simile of the Label of the Bakers' and Con-feetings, with fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and is made under fair and holesome conditions

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

The proceedings began with the ejection of an aged scoffer. He arose, and, addressing the Rev. Mr. Frank in a loud voice, wanted to be informed whether the meeting was a bona fide public one or whether it was packed 'like a mere Saratoga convention.'

"It is absolutely public, and all are entitled to give their views and join the society or refrain from doing so," replied the Rev. Mr. Frank.

"I guess nit, and I've had enough of

"Put him out!" commanded the president, and this was promptly done. "Now," said the Rev. Mr. Frank, "gentlemen will pass down the aisles with slips of paper, and those who wish to join the society will please write down their names and addresses.'

"I think," ventured a man in the audience diffidently, "that it would perhaps be as well if the objects and aims and plans of the society are explained to us before we are asked to join it." This suggestion was applauded by some persons in the rear of the hall, and the Rev. Mr. Frank explained these at length.

He told how a man had come to him and told him that his furniture had taken to dancing and reeling about the rooms of his house in a most inexplicable and terrifying manner, so that his family were "scared half to death." He also spoke of another case to which his attention had been drawn. It was that of a man who was on a visit to some friends. The visitor, while in bed, there being a light in his bedroom, saw a person enter the room, go to a bureau, take therefrom a razor, stand in front of a mirror, cut his throat and vanish. At the breakfast table the next morning he recounted what he had seen and identified the apparition's portrait from among 100 photographs. He then learned for the first time that the original of the portrait had years before committed suicide in the manner described and in that very bedroom.

"The society," said the Rev. Mr. Frank, "will investigate any reports made to them of dancing furniture and manifestation of any nature whatsoever. If it be found that there are no Keely wires, that pranks are not played upon the persons who report the alleged phenomena, the cause thereof will be sought for in a cautious, strictly sciantific and thorough manner by members qualified by their scientific attainments, study or intelligence to pursue such investigation.'

Dr. Paul Gibier was then introduced. The doctor is the author of a work entitled, "Phychism - An Analysis of Things Existing." It was explained that he was under the impression that he was to address a body of scientists and not a public meeting. Instead, therefore, of entering upon a scientific discourse, as he had intended, he delivered an address in defense of psychism.

"The time is fast approaching," said he, "when a lack of knowledge of this subject will be considered as gross ignorance. It has been said that in psychic phenomena a possible explanation of the universe might be found. Is this not too rash an assertion, and is not the expression of this expectation by far an anecdote of a recently deceased clubtoo unscientific? I think not, for the aim of science, as pointed out by Huxley and other savants of his school, is nothing short of a complete explanation of the universe.

"In reality neither Huxley nor Tyndall was consistent in his teachings in denying the existence of and scorning ment until it was a fit object for the inpsychic phenomena, a subject which they had not investigated. They failed to steer their bark according to their beacon. They did not hold to what Huxley termed 'that scientific ars ar- milian out to be shot they asked him tium,' the art of saying 'I don't what tune he would like to be shot by know,' and the facts are the reefs on and he selected 'La Paloma.' Do you which the consistency of their attitude know why?" was wrecked, for facts exist.'

SOLDIERING ABOUT MANILA.

A Nebraskan Describes the Sensations of a Man In the Ranks. L. C. Peters, a soldier of the First

Nebraska in the Philippines, writes to a Chicago paper:

"What do we think of? How do we feel? What do we do? are the questions, no doubt, of the residents of the central western states who have friends and relatives in the army. Well, we think of when we are going home, think of what we used to eat and when we'll eat again, and a few other things. What do we do? Well, we fight, sleep and do guard duty; that is about all.

We feel tired. "The country over which most of the conflict in Luzon is being waged is very rough, and is cut up into ridges by the numerous ricefields. To give one an idea of the topography it will suffice to say that the ricefields are all terraces running around the many small hills. These terraces are each about 100 feet wide, and rise one above another, each being about a foot or 18 inches higher than the one right below it. Climbing and running up and down terraces with a haversack containing 250 rounds of Springfield ammunition slung across the shoulder and a belt of 50 rounds around the waist is not very enjoyable work,

"The manner of fighting the insurgents differs a great deal from the ordinary methods of warfare. No pitched battles are fought, no firing from behind breastworks of stone or earth. To fight the Filipinos one must ambush or be ambushed and after the enemy is once in sight must run him down. The Filipinos worry more than really fight. and this constant worrying of troops by small bodies of insurgents makes the work very fatiguing to the soldier. The Filipino carries no heavy pack or acconterments and goes barefoot most of the time. He can run like a deer, and does so rather than meet a foe face to face. Being light of foot and knowing every foot of the country he traverses. he has a big advantage. Then, again, he doesn't have to worry about holding the ground he takes, for he isn't on the taking side of the game.

"It is interesting to know how many of the boys believe in fatality, and one often hears one say to another, 'Well. when your time comes to die you'll die, no matter whether you are in the front or rear, and there isn't any use dodging. Dodging bullets is a harmless but useless pastime indulged in by many. Dodging is useless, because when one hears the ball it is already past and too late to dodge. One soldier when 'loshed' for ducking his head remarked, 'Well, I'll tell you fellows there's consolation in knowing you tried to get out of the way anyhow.'"

HEROISM OF TENTH'S MEN.

sylvania Soldiers' Bravery. Dr. W. C. Hamilton, who went to Manila-with the Tenth Pennsylvania the people throughout the island are regiment, returned to his home at Beaver, Pa., recently. He was transferred to the hospital corps at Malate on Sept.

Dr. Hamilton said: "The men of the Tenth are ready to stay in the Philippines as long as the government may need their services, and that will be for some time. The Filipinos are likely to conduct a long bushwhacking fight. When I left Manila, the men of the Tenth were in good condition."

Dr. Hamilton tells a story of heroism on the part of George Gibbons and Frank Barbee, who enlisted from San Francisco. During the battle of Caloocan news was brought that a Montana captain had been fatally wounded. Gibbons and Barbee went after him with the ambulance. Dr. Hamilton continues

the story as follows: "When the ambulance stopped and the two were about to pick the captain from the ground, both horses were shot. Gibbons, who was a strapping fellow, put the wounded captain on his shoulders and started back, when a bullet pierced his heart, and he dropped dead.

"Barbee picked up the captain and carried him back to our temporary quarters, a distance of one-half mile. Barbee then returned to where his comrade lay dead and succeeded in carrying his body back in safety. After the battle was over this Montana captain sent for Barbee and handed him his belt and re-

O Death, Where Is Thy Sting? The boycotting of the luckless Mexican embassador by representatives of the other powers at Washington recalls man. EPWORTH LEAGUE.

Topic For the Week Beginning April 30, "How Shall We Divide Our Time?"-Text, Eccl. iii, 15.

"That which hath been is now, and that which is to be hath already been, and God requireth that which is past.'

No one truth is more pressed home upon me by the Bible than that of personal accountability for the use of personal power and opportunity. The world of things moves in regular lines of law, and a man can know assuredly what is to be in the future from what has been in the past. Circumstances may change, but the great fundamental principles of human nature and the rules which apply to conduct never shift ground. We are what we make ourselves. God has given the raw material of our lives, and we manufacture character. For this He holds us responsible, and offers rewards for right results and pronounces penalties for wrongdoing and evil. The only sober thing for every man is clearly to recognize his duty to God and then to set himself to work to use his time and talents and opportunities so as to bring the largest and best results to God and himself.

It is folly to devote one's time and energy so fully to securing business advancement that the other needs of life are neglected. Soul needs should be recognized and fully provided for. Social duties and wants are real issues of moment in every life. One must cultivate neighborliness for his own sake and the good of others. He must learn to give and take or be less the man than he should be. Knowledge of men and things at large, the world and its great movements and interests, also have a claim on our attention and time.

Above all, a man should take time to be alone with himself and his God. The "quiet hour" is needed daily in every life. It is needed to sober one from the intoxication and excitement of the world's mad rush around us. It is needed to cast the anchor of faith and hope deeper and more securely in the unseen but real things of existence. Time must be given to think of God, of heaven, of holiness and the real hap-

Stint your sleep if necessary, cut short your pleasures, economize time in your business, be frugal in social exertions, but give yourself ample time to get acquainted with God. If you can't bear to talk a few minutes a day with Him now, how can you ever expect to enjoy an eternity with Him hereafter?

### WASHINGTON'S BIRTHDAY.

Celebration of Our National Holiday In Porto Rico.

In an interview the other day Mr. Williams, secretary of the Porto Rican commission, emphasized the fact that pleased to realize that they are American citizens and proud to stand under Washington's flag and share the freedom he gave his people. This was particularly evident on Washington's birthday, when, by order of General Henry, the 22d of February was made a public holiday and was generally observed as such throughout the entire province. Early in the morning two native bands of San Juan marched through the city and serenaded a number of prominent citizens.

In the afternoon the school children assembled on the plaza there, each child carrying an American flag, and paraded through the principal streets to the theater, where appropriate exercises were held. On the stage was a large lithograph of George Washington, draped with the stars and stripes. Thrilling tableaus were presented by the American sailors and soldiers. A beautiful feature of the entertainment was the singing of "America" by 15 Porto Rican girls. - Washington Star.

### UNIQUE SCHOLARSHIPS.

Strange Conditions Required of Candidates Competing For Them.

A unique set of scholarships has been founded at the University of Paris by an unknown donor. They are five in number and are worth 15,000 francs each. The conditions are strange involver and told him to take them as a deed. The chosen candidates, it is reremembrance."-Special Philadelphia quired, must know English. They must go on a long journey lasting 15 months. during which time they are to visit all peoples and climes. It will be their duty thoroughly to inform themselves as to the characteristics of the various people they visit, investigate the methods of government and determine what factor gives prosperity to the peoplewhether it is due to the government or the people, and if to the latter what characteristic is responsible for it. The conditions further require that they must obtain this knowledge and information themselves and not accept it from official sources. - Paris Cable New York Journal.

Expensive Correspondence.

If this expansion of the messenger boy service continues, there won't be an American girl that will open a letter from anywhere that doesn't come by the writer's "own" messenger, so quickly do "our girls" accommodate themselves to any new conditions. -Boston Transcript.

### UNION LABELS.

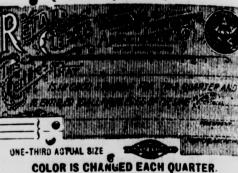

It should be a deep-rooted principle of il union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods

made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent work. ing hours and union labor employed.

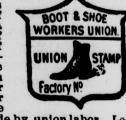

## PATRONIZE UNION CLERKS. .

All members of the R. C. N. P. A. can show this card lisk for it when making your purchases. ) Endorsed by the A. F. of L.

ood only suring months named in lower left hand corner and when perly signed, and STAMPED with the number of the Local UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or litting of a boot or

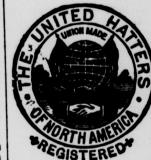

shoe, is a guarantee that the same is made by union labor. Look that the same is made by union labor. for the above design stamped on the sole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL

Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made has before it leaves the workman's hands. workman's hands label from one hat and places it in another, or has any detached labels in counterfeit, and his hats may be the product of scab or non-union labor.

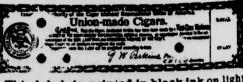

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lining of the pants

BICYCLE LABEL

"Do unto others "Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of a background of

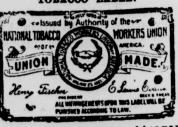

pea green, bordered by gold
The Label will
be placed on the upper front side of the tube
that receives the seat post. BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

Infirmary Directors, W. A. TARR, long term. L. C. HOOPES, short term.

J. C. KELLY.

Colonel Funston was born in this state.

IF Grover Cleveland is made professor of politics at Princeton and he understands his duties to be the teaching of ring politics, its ins, outs and profits, the arrangement will probably be a success.

THERE will be about one dozen disappointed gentlemen in Ohio the minute after the convention selects a candidate for governor. It is probable some of them are anticipating that disappointment.

WHEN thinking of candidates for gov. ernor, Jones, of Youngstown, should not be confounded with Jones of Toledo. The first was a good soldier and has always been a strong Republican, while the recommendation of the other is a banch of vagaries such as few men are charged with possessing.

### THE CADETSHIP.

Congressman Tayler has prepared to send some good boy, sound in limb and brain, to West Point, as a representative of the Eighteenth district. It is not a matter of politics or favoritism, and the best one must win. Why should not East Liverpool have that representative? There are certainly a sufficient number of intelligent boys in the city from which one can be selected who will stand above all competitors. East Liverpool should have a representative in the army, and the News Review be lieves the right stuff is here. Will the young man appear for examination?

"COLLUSION."

Yes, it is a mighty word. One of the mightiest ever heard; Chilling the blood of doughty men, Handling quill, or pencil, or pen;

Rendering hot a temper cold. Rousing a councilman, brave and

bold. Causing his wrath to ebb and flow.

Setting his pulse aglow you know, Until it mounted unto his brain, And even reached slow-moving Cain; And then-the council adjourned in

And swept the papers from its path, Then Marshalled their forces-ont for

And nipped the bidders in the bud. PEGEE COOLEY.

## The Expert Demonstrator Of "Her Majesty's Corset"

Will Fill a Special 3 Days' Engagement at our Store, Commencing

Monday, May 1st,

and Ending May 3d.

MISS ALCUIT will be glad to explain the merits of this Celebrated Corset and give fittings, thus illustrating its superiority over others.

Engagements can be made with Miss Alcutt by mail, telephone, or by calling at the store.

We desire it to be distinctly understood that ladies will not be expected to purchase a Corset after a fitting is made, unless they so desire.

Her Majesty's Corset is not the Cheapest, but the Best.

Her Majesty's Corset in fit, wear and comfort is unsurpassed.

Mr. Marshall Seems to Have Found an Idea

REGARDING THE CITY'S PAPERS

Council at Its Meeting Last Night Did Not Give Out the Printing For the Year Because It Claimed There Were no Bids. Some Talk of the Sewer.

The special meeting of council held last evening was not a success, as the members failed to transact the business for which it was called.

It was 8:20 o'clock when President Peach called the meeting to order, and Mr. Ashbaugh was the only member absent. Mr. Peach stated that the meeting had been called for the purpose of considering the public printing and the mayor's appointments, but that the mayor had seen fit to not submit his appointments. They had been with Clerk Hanley, but the mayor had taken them away for some reason.

The printing question came first and Captain Palmer, with permission, withdrew a bid he had given to the clerk, and in behalf of the local papers stated that they were willing to print the city's matter in all papers at one-third the legal price for each, believing that it was the fairest proposition that could be

President Peach asked Clerk Hanley if he had any bids, and the clerk replied that he had not.

Mr. Smith said that a motion to award the contract to the lowest bidder had been carried, and as council had received no bids there was no further action to be taken on the question.

Mr. Peach asked if there was any person present to tender a bid for the city printing, and as no one made reply he said it would be a hard matter to decide. Mr. McHenry said he thought the matter bad been left in the hands of the finance committee and the body of council had nothing to do with it. He said it didn't know whether it was customary to advertise for bids. Mr. Peach said the object was to try and settle the matter, and it was thought best to let council act.

Mr. Smith moved that council ad-

journ and the motion was seconded by seriously hamper the building of the sanitary sewer in district No. 2. Mr. McHenry said the sanitary sewer should be built, but didn't know anything about the storm water sewer. Engineer George wanted a committee appointed to confer with the sewer commissioners, but the matter was finally disposed of without action being taken.

The proprietors of the newspapers retired, and in a few minutes returned with a bid offering to do the printing for one-third the legal rate. Mr. Cain said it looked to him like a joint affair. and the papers must have misunderstood | me and we couldn't see in at all." council, who wanted the lowest bidder to get the printing.

Council then adjourned, but several of the members remained and looked over the printing bids. Suddenly Mr. Marshall, who has become a legal (?) advisor of no small ability, began to talk about a collusion of bidders, and in accordance with his usual advice to council, thought the solicitor should commence an action against the newspapers. He was the only member who could see the "collusion," but the matter will be further investigated in an endeavor to discover what point the talkative member from the First ward was endeavoring to reach. Mr. Cain was in favor of printing handbills, but nobody else had thought of the plan, and after talking some time the members went home.

### PROSPECTS IN TRENTON.

Trade Is Better and a Few Potteries Are Busy

In reviewing conditions at Trenton the Crockery Journal says:

"Business has improved to an appreciable extent since our last report. There has been a better inquiry by mail, and the men on the road are doing more. One or two potteries are quite busy, and there is a feeling that trade will pick up and keep on improving. A big fall business is anticipated."

Our men's suit sale at \$10 is what interests many buyers. At Joseph Bros. these suits are exceptional values. You see other stores ask from \$12 to \$15 for the same suit.

All the news in the News Review.

GEON DECLARED GUILT

For Breaking the Recently Enacted Screen Law.

MR. CLARK FILED A MOTION

Wanting the Decision Thrown Out For Several Reasons-Officers Testified That a Blind Hung Over the Glass In the Door and That Shutters Were Closed.

The case of the city against Joseph W. Geon for violating the screen ordinance was called yesterday afternoon at 2:30 o'clock in police court.

The first witness was Officer McMillan, but before he had offered his testimony Attorney Cook objected to any evidence being submitted under the affidavit for the reason that it was insufflcient, and the ordinance under which it was drawn was null and void. The objection was overruled and an exception noted.

Officer McMillan was permitted to testify and said: "I am an officer in East Liverpool. On the afternoon of April 9 I was in different parts of the city and was in the neighborhood of the Diamond and Summit lane. I went in the alley from Market street, and as I was going by Mr. Geon's place of business I noticed the shutters were closed and there was a blind on the glass door. There were no means by which the interior of the saloon could be seen, and I made an effort to look in. I thought I might be mistaken, and I went back the second time, but couldn't see in as the shutters and a blind over the door prevented it. I examined all three windows, but could not see in the saloon. There was no person with me when I made the first examination. Officer Whan was with me when I made the second. There was no change in the windows between my first and second examination."

The witness was subjected to a rigid cross-examination and said: shutters were all closed. They have slats in them and open on either side. If the slats open they were closed at this time, as you couldn't see any light hats at Joseph Bros.' More styles to in the saloon. I don't know whether any person was in the saloon. The windows are not more than two or three feet from the ground, and the the door would be higher than would be no trouble to see a man inside Mr. Seckerson. Mr. Cain wanted to the saloon. We stood two or three feet talk about Tanyard run sewer, and from the window when we looked in. I thought council should build a portion don't believe I ever heard a disturbance of the storm water sewer. Mr. Marshall in the saloon of Joseph W. Geon, and thought it was a poor idea, as it would his reputation as a law abiding citizen is good."

Officer Whan was called and said: "I was at various places between 3 and 4 o'clock Sunday afternoon, April 9. I went through Summit lane, and found the shutters closed at Joseph W. Geon's saloon. I think there are two windows and one door into the barroom and a hall door. I don't know where the hall door The shutters were closed both above and below, shutting off all view of the interior. I made no attempt to look in the saloon, but looked at the windows. Officer McMillan was with

On cross-examination the witness said he did not go in the alley for the special purpose of looking at the windows, but that his attention was called to it by Officer McMillan, who said he didn't think the saloons were observing the screen ordinance very well. He said he stood within five or six feet of the windows, and they were four feet or more from the ground. He also testified that Mr. Geon was a law-abiding citizen.

This closed the case of the city, and the only witness called for the defense was S. C. Whittenberger who said: "I have lived here 22 years and have known Joseph W. Geon almost all that time. I am bartender for Geon. I remember when the screen ordinance was passed he told Robert Spencer and myself to be any careful and keep the screens open. We are the only ones about the bar. I left the place Saturday night and to my knowledge the screens were never closed. Mr. Geon's business is conducted in a law abiding way."

Solicitor McGarry subjected the witness to a very rigid cross examination and he said: "I have lived here 22 years and have been in the whisky business during that time. The shutters had not been closed Saturday evening. and I didn't touch them when I left. I was there on Sunday as I always have a lot of perishable goods to look after. I was there in the morning between 9 and 10 o'clock, and left about 11. I entered the saloon from the front door which leads into a hallway and on into the saloon. I came out the same way. I don't carry a key to the other door. I was attending to some perishable cleaning and up.

always burning lights the saloon. The upper shutters have never been closed since I have been there. My business is to tend to the windows. The shutters were on the windows before any screen ordinance came into effect. The lower shutters are always closed to prevent passersby from seeing in. The lower shutters were closed April 9, but the upper shut. ters were open. No other person has a key to the door I went in. Robert Spencer was in the saloon that Sunday, but I don't know where he was when I left. There was no blind on the door and never has been."

The attorneys each made short arguments in the case, and after delivering a short address Mayor Bough decided that J. W. Geon was guilty as charged, and he was sentenced to pay a fine of \$50 and costs and stand committed until the fine and costs were paid.

Attorney Clark at once made a motion to rest the judgment on the ground that the court had no legal right to try the case, as it was not in his jurisdiction, the affidavit being defective and the ordinance under which the defendant was arrested being null and void; that the finding of the court was against the evidence and law, and the court erred as the defendant did not waive the right to a jury trial.

The motion was taken under advise. ment by the mayor, and the case closed at 5:45 o'clock.

### UNITED PRESBYTERIAN MUTUAL BENEFIT ASSOCIATION

Has had only 10 deaths and nine assessments in 23 months past. Membership now near 2,000. Important to United Presbyterians Only!

In order to increase our membership in Local Branch No. 29 to one hundred by June 6, the date of our regular semi-annual meeting. I will make the following liberal proposition to new members who insure with us before that date, viz.: For the sum of \$10, I will pay total cost of securing membership, covering membership fee, medical examination, per capita tax to July 1 and all assessments for deaths for sixty days from date of application. This covers cost of one or two thousand dollars insurance for two months. The cost for \$1,000 insurance for 1898 was \$9.50, for \$2,000 \$15.50, including \$3 per year per capita expense tax. The balance was for mortuary assessments, all of which we return to the beneficiary at death, added to the face of the policy. Males and females from 18 to their 51st birthday are eligible. Those from 46th to 51st birthday can only take \$1,000 insurance. Members who lose a limb or eyes can draw from one-fourth to one-half their insurance in cash for their limb or eyes can draw from one-fourth to one-half their insurance in cash for their own use. When a member reaches 70 they can draw their insurance to live on if they so elect. We want 40 new members on this offer. elect. We want 40 new members on this offer. elect. We want 40 new members on this offer. It is to the interest of every member to try to get others. Let us all work for the 100 mark. Drop me a card, and I will call and explain more fully and answer to your satisfaction any questions regarding our association, which is rapidly forging to the front. Yours, J. C. McCLAIN, Organizer.

## **NEW HOMEMAKING MOVE**

How a Kansas City Boomer Is Building His House.

WILL USE DOMESTIO MATERIALS.

Foundation Is of Native Stone, and Nails Only Are Foreign -- Lumber Was Dressed In Kansas City-Would Tse Homemade Dishes, but the Good Wife Objects.

There is a man in Kansas City who decided to build a home this spring, and, being a boomer, he conceived the idea of constructing and furnishing his house as nearly as possible from Kansas City materials. The only foreign material in the structure is nails. Of course the lumber was shipped here from a distance, but since it came on in the rough and was dressed and made ready for use by Kansas City planing mills he feels the right to stretch a point in this respect. And what makes the boomer particularly happy is that his house will cost less than the \$3,000 he expected to put into it, and he considers the homemade materials are superior to any that could be imported This is his own story:

"I am a constant 'rooter' for Kansas City, and when I started out to build a house I made up my mind to make a sure enough Kansas City house. If I could use glue instead of nails and screws for putting it together, I'd defy any man to lay his hand on a part of it that wasn't manufactured here. To begin at the beginning, the foundation of my house is Kansas City limestone. quarried by Kansas City laborers, using Kansas City made tools. The stone was hauled from the quarry to my house in wagons made in Kansas City, drawn by Kansas City horses, wearing Kansas City harness. You see, I went in for the whole thing while I was at it. The cellar and excavations for the foundation were dug partly with Kansas City picks. I think they worked in a shovel or so that wasn't made here, but I couldn't prove it. The foundation stones were cemented together with sand from the river and lime made right here.

"I wouldn't have any lumber that had been dressed away from Kansas City, as I consider it manufactured at home if it comes here in the rough and is prepared for use later. All of the main body will be made of lumber that I know has been through Kansas City planing mills. There will be tar paper under the weatherboarding, and that is made here, as will be all of the doors. sashes, sashweights, locks, doorknobs, cornices and the art glass in the front door. I had to put up with imported glass for the windows, but it was because there wasn't any way to get around it, and the lights will be put in with Kansas City putty. The laths and thingles, too, are worked up somewhere else, but I had the satisfaction of knowing that we have the machinery in Kansas City planing mills to do the work if we wanted to.

"If any corrugated ironwork goes into my house, it will be homemade. So will be all freizes and centerpieces. newel posts, stairs, chandeliers, mantels, all cornices and moldings. I suppose the guttering and rain pipes will have to be made from imported tin, but Kansas City manufacturers will shape it and solder it together with Kansas City made solder. All of the drain pipes that are made of clay will be manufactured here. So will be the furnace in the cellar, the granitoid walks outside and the

iron fence in front.

"When the finishing time comes, the house will be painted with homemade paint inside and out. The rooms will be frescoed with the same product, and when the floors are stained and varnished or waxed, all these will be made here. In the kitchen will be a range made, you bet, in Kansas City, United States of America. So will be the pans and the kettles, water pails, tinware, and all kitchen utensils except cutlery and iron pots. The kitchen table and cabinets, chairs and brackets and shelves will all be made here. The coal we burn in the range will be mined in Jackson county with Kansas City made tools, and those same Kansas City made wagons will haul it to my house.

"In the dining room will be rugs made in Kansas City; likewise a table and chairs and a sideboard. There will probably be a couple of pictures on the walls, and these will be painted by Kansas City artists and inclosed in Kan-8as City made frames. The window shades and shade fixtures will be made here, though the raw material for the shades will have to be imported. Unfortunately I will have to leave town when I buy tableware-china, glass and cutlery, tablecloths and napkins. If I had my way, we'd eat out of Kansas City pottery with Kansas City made spoons, but my wife won't stand for that. The parlor floor will be covered with a Kansas City made art square. There will be plenty of homemade pictures, a couch stand table, chairs, ornaments-everything, in fact, made here, except the piano.

"The bedroom sets will be manufactured by local firms. So will be the

mattresses, the occ springs and the pri lows. All cloth, of course, must be imported, but everything will be worked up here. The feather bed will be stuffed with Kansas City feathers from Kansas City geese, and the mattress will be one of the patent kind that no one but the manufacturer knows how to make, but he makes it here. The lights in my house will be partly gasoline lamps, made in Kansas City, of course, and partly incandescent gas lights, the mantles for which are also made here. When we get the house finished, I expect all my of my friends out to see it."-Kansas City Times.

### EDUCATION IN PORTO RICO.

Introducing the American Common School System.

From a private letter received at Washington from an American in Porto Rico some interesting information not contained in the press dispatches is derived. He is especially interested in educational matters. It appears, among other things, that steps have been taken to prepare a statute covering the principal points of American common school legislation, the first draft of which has been finished. Fifteen young Americans have been employed and sent out nominally to teach English, but really to perform at the same time the duties of county superintendents of schools. Their jurisdiction and duties will cover the schools of the entire island and supply a want that has never before been met. A revised course of study has been prescribed for the common schools, and a new series of textbooks for use therein has been prepared, the use of which has been officially authorized. The books are to be published by a Boston firm. Plans for public school buildings have also been worked out. Only four such buildings now exist in Porto Rico. The letter continues:

"The new secretary of the interior, De Valle, is a fine business man, with the practical instincts of a Yankee, and business moves along with remarkable smoothness and celerity since he assumed office. I mailed you the other day a newspaper containing the platform of the new political party organized here. The men are the American Porto Ricans. Some time must elapse before the rope can safely be taken off Porto Rico's collar. She can't run alone until enough of the natives have been educated in American ideas to make the American Porto Rico element the majority. At present the Rivera faction, Spanish in all its methods and principles in spite of all its professions to the contrary, would soon gain control.

"This is a fine country, and with good roads and schools will be a prosperous one. The reports about disturbances are all bosh, but there are much financial depression and actual suffer-It seems to me that the currency ought to be changed at once. You cannot get the idea out of the heads of these people-and you couldn't if present conditions were to continue for years-that the United States is to redeem at par the Porto Rican currency. whose official ratio is 60. The result is money hoarded, no investments, no purchasers for crops, no business. Of course the tariff uncertainty aggravates this state of affairs. "-New York Trib-

### SIGNING OF THE PROTOCOL.

Chartran Is Painting This Historical Event In the Late War.

The signing of the peace protocol between the United States and Spain on Ang. 12, 1898, is being painted in oil by Theobald Chartran, the famous artist of Paris, now in Washington as the guest ce Embassador Cambon.

President McKinley has given the artist several sittings, posing in the position he occupied by the table in the cabinet room when the signatures were affixed. Embassador Cambon and others who composed the party have also posed Judge Day will give such sittings as may be required.

Others who were present at the signing and who will appear in the picture are Assistant Secretaries Moore, Adee and Cridler, of the state department Assistant Secretary Cortelyou, Executive Clerk Pruden, Chief Telegrapher Montgomery of the executive mansion and Secretary Thibaut of the French embassy.—New York World.

### Vaccination Teas.

Mrs. Bray, the wife of Mr. R. M Bray, Q. C., of Manor House, Shere, England, in order to encourage young persons and children to be vaccinated, proposes to give a tea and entertainment in her grounds in August to all girls above 12 years and to all boys between the ages of 12 and 14 who are vaccinated for the second time this year and to young children above the age of 5 who are vaccinated for the first time this year. -London City Press.

### Lightning Rod Slide to Matrimony.

Miss Delia H. Johnson and Charles A. Boyd were married at Chattanooga the other afternoon, after the bride's daylight escape down a lightning rod from a female seminary at Sewanee, Tenn., and a sensational pursuit of the couple through the country by the bride's father and a big brother armed with shotguns and vowing vengeance on Boyd. -Baltimore Sun.

Promette "Miss Mary, are you sorry that your

sister Evelyn is married?" "No, it advances me one number." CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 30-Comment by Rev. S. H. Doyle. TOPIC.-How shall we divide our time?-Eccl. iii, 1-15.

The proper use of our time is one of the most important duties of life. It is a gift of God which once gone never returns. Our success in life depends upon our ability to properly divide and properly use the time which God allots to us. In these days, when the demands upon the time of those who are active and industrious are so multitudinous. the question of the proper dividing of time becomes all the more important. Alfred the Great of England divided his day into three periods of eight hours each—one period for work, a second for recreation and the third for sleep. Thus he accomplished much in life.

The wise man in the topical refer v teaches us that God has set a time for all things. The changes that are going on in life are constant, and yet nothing is done haphazardly or without system. There is a time for every work of God. and each comes in its season. If God finds it necessary in order to carry out His purposes in life to have a time and a season for everything, how much more certain it is that if we are to accomplish the purpose for which God made us we must have a time for the duties of life and perform them at their

Just how each one is to divide his time is a question that he only can decide. But there are certain principles which should have due influence upon all in the use of time. 1. We should use our time in conformity to the will of God. Time is a precious gift of God that should be consecrated to Him, just as we consecrate our money or our talents to Him. 2. In the division and use of our time ample provision should be made for all religious duties and devotions. The spiritual is often neglected for the material and sacrificed for that which is of less importance. Many who allot sufficient time each day for the feeding of the body make no provision for the soul, yet it is just as necessary that the soul should be fed as the body. 8. We should divide and use our time in the light of eternity in view of the fact that time will some time end and we shall be called upon to render an account for the use we have made of it. We should strive to use each moment, hour and day of our lives as we shall wish we had used them when the end of our time here comes. No better motto or rule for the proper division and use of time could be suggested than

5, 6; Rev. x, 5, 6.

Epigram by a German Admiral. In the house of commons at London

card. There were three persons standing in the church as the steeple crashed through the roof to the floor, but fortunately no one was hurt.

"Play Ball!" Let wars and politics and stocks And other themes give way, For there's a greater subject now-The baseball opening day. Across the land is heard a cry That thrills us one and all, For on the diamond, where's he's king, The umpire shouts, "Play ball!"

'Tis now the happy day for which The cranks so long have yearned, Event to which through wintry months Their thoughts so often turned. Along the bleachers as of yore The faithful rooters roost, And to each player in the team They give emphatic boost.

The poles on which are strung the wires Of telegraph or phone Are nimbly mounted and with weight Of human burdens groan. To every knothole in the fence An eye is tightly glued, And oft the owner of that eye By pals is interviewed.

And now the batter takes his place, While deafening plaudits ring, And now he draws the willow back, And now he lets 'er swing. A smash-a ball in rapid flight-A wild, approving shout, And then a painful silence reigns, Because the batter's out.

And now a slashing hit is made, And rooters jubilate, Then groan because the runner's nipped By catcher at the plate. Another smash, a rush round bags, A run the hero scores Then proudly doffs his cap amid A storm of cheers and roars.

Thrice happy day that thus brings back The joys of summers gone! Let all the populace rejoice, For now the season's on. Upon each other's necks the cranks And faithful rooters fall And now agree that life is worth The living, after all. -Pittsburg Chronicle Telegraph.

He is especially interested in educational matters. It appears, among other things, that steps have been taken to prepare a statute covering the principal points of American common school legislation, the first draft of which has been finished. Fifteen young Americans have been employed and sent out nominally to teach English, but really to perform at the same time the duties of county superintendents of schools. Their jurisdiction and duties will cover the schools of the entire island and supply a want that has never before been met. A revised course of study has been prescribed for the common schools, and a new series of textbooks for use therein has been prepared, the use of which has been officially authorized. The books are to be published by a Boston firm. Plans for public school buildings have also been worked out. Only four such buildings now exist in Porto Rico. The letter continues:

"The new secretary of the interior, De Valle, is a fine business man, with the practical instincts of a Yankee, and business moves along with remarkable smoothness and celerity since he assumed office. I mailed you the other day a newspaper containing the platform of the new political party organized here. The men are the American Porto Ricans. Some time must elapse before the rope can safely be taken off Porto Rico's collar. She can't run alone until enough of the natives have been educated in American ideas to make the American Porto Rico element the majority. At present the Rivera faction, Spanish in all its methods and principles in spite of all its professions to the contrary, would soon gain control.

"This is a fine country, and with good roads and schools will be a prosperous one. The reports about disturbances are all bosh, but there are much financial depression and actual suffering. It seems to me that the currency ought to be changed at once. You cannot get the idea out of the heads of these people-and you couldn't if present conditions were to continue for years-that the United States is to redeem at par the Porto Rican currency, whose official ratio is 60. The result is money hoarded, no investments, no purchasers for crops, no business. Of course the tariff uncertainty aggravates this state of affairs."-New York Trib-

### SIGNING OF THE PROTOCOL. Chartran Is Painting This Historical

Event In the Late War.

The signing of the peace protocol between the United States and Spain on Ang. 12, 1898, is being painted in oil by Theobald Chartran, the famous artist of Paris, now in Washington as the guest c\* Embassador Cambon.

President McKinley has given the artist several sittings, posing in the position he occupied by the table in the cabinet room when the signatures were affixed. Embassador Cambon and others who composed the party have also posed. Judge Day will give such sittings as

may be required. Others who were present at the signing and who will appear in the picture are Assistant Secretaries Moore, Adee and Cridler, of the state department: Assistant Secretary Cortelyou, Executive Clerk Pruden, Chief Telegrapher Montgomery of the executive mansion and Secretary Thibaut of the French embassy.-New York World.

### Vaccination Teas.

Mrs. Bray, the wife of Mr. R. M Bray, Q. C., of Manor House, Shere, England, in order to encourage young persons and children to be vaccinated, proposes to give a tea and entertainment in her grounds in August to all girls above 12 years and to all boys between the ages of 12 and 14 who are vaccinated for the second time this year and to young children above the age of 5 who are vaccinated for the first time this year. - London City Press.

### Lightning Rod Slide to Matrimony.

Miss Delia H. Johnson and Charles A. Boyd were married at Chattanooga the other afternoon, after the bride's daylight escape down a lightning rod from a female seminary at Sewanee, Tenn., and a sensational pursuit of the couple through the country by the bride's father and a big brother armed with shotguns and vowing vengeance on Boyd. - Baltimore Sun.

Prome

"Miss Mary, are you sorry that your sister Evelyn is married?" "No, it advances me one number."

### CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 30-Comment by Rev. S. H. Doyle. Topic.-How shall we divide our time?-

The proper use of cur time is one of the most important duties of life. It is a gift of God which once gone never returns. Our success in life depends upon our ability to properly divide and properly use the time which God allots to us. In these days, when the demands upon the time of those who are active and industrious are so multitudinous, the question of the proper dividing of time becomes all the more important. Alfred the Great of England divided his day into three periods of eight hours each—one period for work, a second for recreation and the third for sleep. Thus he accomplished much in life.

The wise man in the topical refer ve teaches us that God has set a time for all things. The changes that are going on in life are constant, and yet nothing is done haphazardly or without system. There is a time for every work of God. and each comes in its season. If God finds it necessary in order to carry out His purposes in life to have a time and a season for everything, how much more certain it is that if we are to accomplish the purpose for which God made us we must have a time for the duties of life and perform them at their

Just how each one is to divide his time is a question that he only can decide. But there are certain principles which should have due influence upon all in the use of time. 1. We should use our time in conformity to the will of God. Time is a precious gift of God that should be consecrated to Him. just as we consecrate our money or our talents to Him. 2. In the division and use of our time ample provision should be made for all religious duties and devotions. The spiritual is often neglected for the material and sacrificed for that which is of less importance. Many who allot sufficient time each day for the feeding of the body make no provision for the soul, yet it is just as necessary that the soul should be fed as the body. 8. We should divide and use our time in the light of eternity in view of the fact that time will some time end and we shall be called upon to render an account for the use we have made of it. We should strive to use each moment, hour and day of our lives as we shall wish we had used them when the end of our time here comes. No better motto or rule for the proper division and use of time could be suggested than that.

Bible Readings.—Ps. xxxix, 1-5; xc. 10-12; Eccl. xii, 1; Isa. lv, 1-6; Math.

For on the diamond, where's he's king, The umpire shouts, "Play ball!"

'Tis now the happy day for which The cranks so long have yearned, Event to which through wintry months Their thoughts so often turned. Along the bleachers as of yore The faithful rooters roost, And to each player in the team They give emphatic boost.

The poles on which are strung the wires Of telegraph or phone Are nimbly mounted and with weight Of human burdens groan. To every knothole in the fence An eye is tightly glued, And oft the owner of that eye By pals is interviewed.

And now the batter takes his place, While deafening plaudits ring, And now he draws the willow back, And now he lets 'er swing. A smash-a ball in rapid flight-A wild, approving shout, And then a painful silence reigns, Because the batter's out.

And now a slashing hit is made, And rooters jubilate, Then groan because the runner's nipped By catcher at the plate. Another smash, a rush round bags, A run the hero scores, Then proudly doffs his cap amid A storm of cheers and roars

Thrice happy day that thus brings back The joys of summers gone! Let all the populace rejoice, For now the season's on. Upon each other's necks the cranks And faithful rooters fall And now agree that life is worth The living, after all.

—Pittsburg Chronicle-Telegraph.

# SEVEN SISTERS

# **Hair Grower and Scalp Cleaner**

For Over 14 Years these highly meritorious preparations have stood at the head of all hair restoratives. More than 3,000,000 bottles have been used by the American people, and thousands of testimonials bear witness to their excellence, while there were never any complaints when

directions were followed. Ask your drugglet about It.

### SHERIFF'S SALE.

D. 1898, and to me directed, I will offer for sale at public auction at the door of the Court House, in Lisbon, on

### Monday, May 29, 1899,

at 1 o'clock p. m. of said day, the following described Real Estate, to-wit:

described Real Estate, to-wit:

Situated in the township of St. Clair, Columbiana County, State of Ohio, known as that part of sections two (2) and eleven (11), township six (6) and range one (1) bounded as follows: Commencing at a corner in the Little Beaver Creek in the section line to the northeast corner of said section eleven (11); thence south nine (9) chains and eighty-four (84) links to an old corner in the section line; thence north eighty-nine and one-half (89½) degrees west four and twenty-five hundredths (4.25) chains; thence south sixty-nine and one-half (69½) degrees west seven (7) chains; thence south forty-three and one-half (43½) degrees west seven and twenty-five hundredths (7.25) chains; thence south seventy-five (75) degrees west twenty-five and forty-four hundredths (25.44) chains; thence south sixty-five and one-half (65½) degrees, vi, 24-34; Luke xix, 41-44; John ix, 4:
xii, 35; Rom. xiii, 11-14; II Cor. vi, 1.
2; Gal. vi, 9; Eph. v. 15-21; Col. iv.
5, 6; Rev. x, 5, 6.

2; Gal. vi. 9; Eph. v. 15-21; Col. iv.
5, 6; Rev. x, 5, 6.

Epigram by a German Admiral.
In the house of commons at London the other day Lord Charles Beresford said:

"The German admiral at Wei-Hai-Wei made a remarakble statement to me. He said, "The Russians are busy building docks at Port Arthur, the Germans are laying out parade grounds at Kiao-Chou, and the English are laying out cricket grounds at Wei-Hai-Wei."
—Special Cable to New York Sun.

Cyclone Blew Steeple Through Roof.
The wind went off on a cyclone spreedown in Selma, Ala., the other day, and after culling off the steeple of the Methodist church with one twist it turned the tower upside down and drove it through the church roof as a cross child might stick a pin through a card. There were three persons standing in the church as the steeple crashed through the roof to the floor, but fortunately no one was hurt.

"Play Ball!"

Let wars and politics and stocks And other themes give way, For there's a greater subject now—The baseball opening day.

Across the land is heard a cry
That thrills us one and all, For on the dismond, where's he's king, The umpire shouts, "Play ball!"

Let wars and politics and stocks And other themes give way, For there's a greater subject now—The baseball opening day.

Across the land is heard a cry
That thrills us one and all, For on the dismond, where's he's king, The umpire shouts, "Play ball!" 1878. and recorded in book one hundred and eighteen [118] page three hundred and ninety-one [391] of the Deed of Records of Columbiana county, and to which reference is here made; also two and twenty-seven hundredths (2.27) acres, sold and conveyed by Anthony Barrett et ux to Labella Green by deed dated April 2nd, 1880 and recorded in book one hundred and sixty (160) page one hundred and fifty-five (155) of the Deed Records of Columbiana County and to which reference is here made; also one and ninety-one hundredths (1.91) acres, sold and conveyed by Anthony Barrett et ux, to John W. Crawford by deed dated Aug. 19, 1885, and recorded in book one hundred and sixty (160), page two hundred and twelve (212), of the Deed Records of Columbiana county, and to which reference is here made; also twenty (20) reference is here made; also twenty (20) acres sold by said Anthony Barrett et ux to reference is here made; also twenty (20) acres sold by said Anthony Barrett et ux to Reed Barrett on the 2nd day of March, 1885, and conveyed by said Anthony Barrett et ux to said Reed Barrett by deed dated Feb. 1, 1898, and recorded in book —, page --, of the Deed Records of Columbiana county, and to which reference is here made for a more full and complete description, leaving the tract as herein described as belonging to the defendant, Anthony Barrett, to contain ninety-four and eighty-two hundredths (94.82) acres, and for a more perfect description said ninety-four and eighty-two hundredths (94.82) acres are bounded and described as follows: Bounded on the north by lands now owned by Hugh McCoy; bounded on the east by lands now owned by Reed Barrett; bounded on the south by lands now owned by Frank Knowles; and bounded on the west by lands of Mrs. Rutan, and being the same tract of land on which the said Anthony Barrett now resides

Baid premises have been appraised at two thousand four hundred and sixty-five and thirty-two hundredths (82,465.32) dollars, and cannot sell for less than two-thirds of said appraisement.

Terms of sale: Cash.

# COVERED WITH BLOOD

Was a Prisoner When Taken to City Hall.

LANGUAGE NOT OF THE BEST

Was Used When They Placed Him In Jail--A Walker Woman Complained of Trouble In Her Family, While a Third Street Man Paid For Being Disorderly.

Joseph Snape, of Walnut street, was arrested last evening at his home by Officers Bryan and McCullough and taken to jail in the patrol, where a charge of disorderly conduct was placed against him. This morning Mayor Bough fined him \$9 60 which he paid and was released. When Snape was brought to city hall his face was covered with blood, and he addressed the officers in language that might have been more choice as he was being put in cell. In the patrol wagon he acted very ugly, but to no avail.

William Brindley was another unfortunate who fell into the hands of the law last evening. He lives in Third street and was acting very disorderly at his home. Officer McMillan gathered him in at the instance of Chief Johnson, and this morning he pleaded guilty to a charge of disorderly conduct and paid a fine of \$9.60.

The case of Jack Allison that has been in court for several days will be disposed of this evening.

This morning Mrs. Martha Gould, living near the school house at Walker. called at city hall and stated she would like something done with her son who she claims has assaulted her on numerous occasions. The son and his wife have have been living in the same house and trouble has occurred frequently. As the the woman lives outside the city limits she was referred to Township Trustee Lloyd who will investigate the matter.

The case filed against the Reymann Brewing company last September remains unsettled. When the mayor was asked about the case this morning he refused to talk.

The Bagley and Moon cases are still pigeon holed and nothing can be learned as to when they will be disposed of.

### COUNCILMAN CAIN.

He Is the Warm Friend (?) of the Newspapers.

At council chamber last night, after adjournment, Councilman Cain said: "To — with the newspapers."

By his ballot or vote in council, not long since, he virtually said:

"To - with the people of East Liverpool, the working men and working-

women." Councilman Cain is a bright and shining light. In case we deem it public respecting certain bills which

worth while, we shall enlighten the have been presented to council and which Councilman Cain, in connection with other councilmen, should have been careful about sanctioning.

### PAINT THE STATION.

The City Should Be an Example For Its Citizens.

A prominent business man of the city is of the opinion that the fire station the matter said:

"The station has not been painted almost six years ago, and I think the awarded. city authorities should see that the work is done at once. It is their duty to keep the city property in first class condition and furnish an example of neatness to all citizens. In every city you will find that the board of education keeps the school houses in splendid condition, and I think council should follow their example."

### NEEDED IT.

Farmers Are Hoping There Will Be More Rain.

The rain of last night was appreciated and received with thankfulness by farmers of this section. Said one this morning:

"It has been a long time since crops in this county and vicinity have been so in need of rain, and much more would do a great deal of good and add thousands of dollars to the income of farmers this year."

April water assessments now due. Save the 10 per cent by prompt payment. Office down stairs, 144 Fourth street.

Men's suit sale at \$10, are a special leader at

### Joint Session.

An important meeting of the ministers of this place and Liverpool has been called for Monday morning at 9:30 o'clock. It will be held in the Methodist Episcopal church, and it is earnestly desired that all ministers be present. The nature of the business is not given

### The News of Wellsville.

Miss Mary Smith and Mrs. D. Noble returned from Pittsburg last evening where they attended a missionary convention.

J. R. Stoakes, who has been off duty as baggagemaster for six weeks, will be able to resume his work Monday.

Wilbur A. Snediker is in Pittsburg on legal business today.

Reverend Halligan returns this evening from a visit with friends in Cleveland.

Will McGuren is confined to his home in West End with grip.

Miss Ida McNealy left today for a visit with friends in Pittsburg.

### FOUND WANDERING.

Beaver County Man Walked Lisbon's Streets.

LISBON, April 29.—[Special]—James Dorn, formerly of Palestine, but now of Beaver county, was found wandering about the streets here last night. He had no coat or hat. Sheriff Gill took him to the county jail. A message from Palestine says Dorn has been an inmate of the Dixmont asylum, but was released on furlough. Soon afterward his reason failed him again, and he disappeared. The authorities have been after him. He will be returned.

### POTTERY PLANS

Were Secured Here Today by a Steubenville Man.

C. C. Long, a druggist of Steubenville, was in the city yesterday for the purpose of securing plans for the erection learn of her illness. of a pottery in that place.

Mr. Long is now forming a company for that purpose, and the two sets of plans he secured were for the stockholders to consider. Mr. Long is the maker of a new glaze which has recently been patented.

Hats, new style, received today, in soft and stiff hats. See Joseph Bros.' show window.

### Ends Next Week.

Weighing the mails on the Cleveland and Pittsburg road will end next week. This has been done for a month under the supervision of a government official, and is done for the purpose of arranging various roads.

### Reported Progress.

The library directors met last evening and the various committees reported progress. A committee was appointed to visit the local unions and secure their co-operation in the entertainment. It is probable a special meeting will be held next week.

Don't forget Nowling's farewell dance, Brunt's hall, Tuesday, May 2.

### OFFICERS THERE

To View the Performance at the Opera House Last Night.

Last evening at 7 o'clock Mayor Bough telephoned from his residence to Chief Johnson at city hall and asked him to see that all immoral show posters were taken from the various windows in

Chief Johnson spent about an hour looking after an ordinance covering the ground, and then went to the opera house, where he held a lengthy conversation with the manager of the company. He was assured there was nothing wrong in the show and suggested that an officer be stationed in the house during the performance. Officer Whan was detailed to do the work, but Officers McMillan and White were there also.

The performance was by no means of a high order.

Straw hats, new styles, received today at

JOSEPH BROS.'

Thompson Hill Lots. A syndicate is being formed to buy Thompson Hill property. Mr. J. T. Smith, the head of the enterprise, says

the shares are being taken rapidly, and he expects the list to be completed by Monday evening or Tuesday morning. It is proposed to make a public sale of lots at prices that will insure quick

sale. This will be a popular addition to the city, as the lots are so close to the business part of the city. They are considered very desirable.

### Daniel R. Ryan.

Daniel R. Ryan and his company will be at the Grand Opera House all next week in a repertoire of New York successes. Monday night "The Lost Paradise" will be presented with special scenery and effects. A coupon is published in today's issue of the Review which, if cut out and presented at Reed's drug store with 15 cents before 6 p. m., Monday, will entitle any lady to the best seat in the opera house for Monday evening's performance.

### Has Been Quite Ill.

Hear Mrs. Lake Monday night, May 1st, in First M. E. church. Most eloquent lady orator in the United States. Admission free.

Farewell dance, Tuesday, May 2, Brunt's hall.

### PERSONAL MENTION.

-Misses Anna and Edith Evans, of Columbus, are spending several days in the city visiting friends.

-J. H. Dawson left at noon for Pittsburg. He has taken a position in a machine shop in that place.

Maine's Remarkable School Law.

The law in regard to the conveyance of school children enacted by the last legislature went into effect April 11. The gist of the new law is that the superintending school committee is the body that decides who shall be carried to and from school and who shall not at the expense of the town. It also gives the body the right to board a child near the schoolhouse in case the expense would be the same or less than the conveyance each day would amount to .-Lewiston Journal.

### Condensed Oysters.

Mr. R. W. Ballinger of Chicago is in Brunswick. Ga., looking for a site on which to establish an oyster and shrimp condensing plant. The oyster and shrimp will go through a condensing process which absorbs all water in them. By this method a gallon of oysters can be condensed to 14 ounces in weight. While in this state water is poured on them when ready for use. and they again assume their normal proportions. - Atlanta Journal.

### Condemns the Sparrow.

Mr. William B. Tegetmeier of London, the naturalist and journalist, has published a book on the sparrow, declaring that the bird is a pest which inflicts in England alone millions of pounds of damage annually. - Special Cable to New York Sun.

CUT THIS OUT.

### Mrs. Lake.

This eloquent platform orator, vice president of the Catholic Total Abstinance society of the United States, will deliver an address on MON-DAY EVENING, May 1, in the First M. E. church, East Liverpool. Admission free. Lecture will begin promptly at 8 o'clock. Attend early if you desire a good seat. Mrs. Lake has a national reputation as a speaker.

### LOCAL BREVITIES.

Lieutenant Robert T. Hall was in Pittsburg today on business.

S. B. Felt left this morning for Chicago where he will remain 10 days on

A car containing about 2000 fruit trees was received in the lower freight yards yesterday afternoon.

Fred Laufenberger has purchased the northeastern corner of Fourth and Jackson streets and will erect a handsome residence.

A large skiff loaded with nitro glycerine and floating the red flag passed this city yesterday afternoon going to the oilfields.

The Sunday school of the First U. P. church will picnic at Cascade park June 16. The First M. E. church has closed a date with the same park for June 27.

Mr. Baker, superintendent of the mail clerks of the Cleveland and Pittsburg division, spent last evening in East End the guest of his father. He left this morning for Pittsburg.

The township trustees have filed their report for last month, and it shows that they expended \$80.25 of the county funds and \$131.88 of the township money. Of the last amount about \$40 was spent on the roads.

A force of workmen today cleaned the yards about the outbound freight depot. Much rubbish had been allowed to collect during the month, and the yards were very unclean. The cleaning has added much to the appearance of the yards.

The train due in this city at 8 o'clock last evening did not arrive until 10:05 o'clock. The delay was caused by a wreck at Yellow Creek on the river division, caused by the breaking of an axle of a freight car. Traffic on both divisions was delayed as a result.

Architect Fritz left this morning for Beloit where he spent the day taking data for the purpose of drawing plans for the pottery to be erected by Sebring Bros. Engineer Kelly and Gardner Minehart, who have been there during the week, will arrive home this evening.

Constable Miller yesterday afternoon swore out a warrant for the arrest of H. S. Rinehart for resisting an officer in the pursuit of his duty. Rinehart plead not guilty in the court of Squire Rose and the case will be heard Wednesday. A like charge will be entered against Roy Rinehart.

The Messrs. Tyndall, of Pittsburg, with Engineer Bradford arrived in the city this morning, and went direct to to the Virginia side where they looked over the ground on which the new mill will be erected. The gentlemen stated matters were progressing very favorably, and work on the mill would be rushed with all haste possible.

Monday evening the warehouse at Hanoverton. women will hold a union meeting in Ferguson & Hill hall, and all the dressers and brushers are invited to attend. The meeting will convene at 7:30 o'clock. The warehouse women state that they have struck for \$1 a day and will not compromise upon being paid by the kiln.

Deputy Sheriff W. C. Supplee was in the city yesterday serving subpoenaes for the grand jury, but he only had a few. While here he served papers on Solicitor McGarry in the cases of Charles E. Swan versus the city for \$500, and William Ivers, administrator, versus the city for \$5,500 damages. The cases will be heard May 20 and May 27.

The summer schedule of the Cleveland Pittsburg road will probably be received in this city not later than May 15. There will be very few changes in the running time of passenger trains but the freight schedule may be altered considerably. The train due at this place at 12:15 will no doubt be put back on its old time 12:08.

## MRS. GEORGE FREED.

Many Congratulations to Her on Her Acquittal.

RECEIVED A THEATRICAL OFFER.

Five Hundred Dollars For a Week's Engagement-Also an Offer to Lecture, but She Declined-Crowd Cheered the Verdict-Going to Her Mother's.

CANTON, O., April 29 .- A verdict of 'not guilty" delivered to the court acquitted Mrs. Anna E. George of the murder of George D. Saxton and ended her seven months' confinement in jail. The verdict was reached after a trial of 22 days of actual sessions of court and after 2234 hours of deliberation in the jury room. In less than an hour after the verdict had been announced congratulatory telegrams were received by Mrs. George from sympathizers in many quarters of the country. More of them were addressed to her attorneys and were congratulations on a professional

During the afternoon and last evening Mrs. George was kept busy receiving her friends.

A mighty cheer went up from the crowd in the courtroom when the verdict was announced.

The cheer was almost instantly taken up by the people who packed the streets.

Mrs. George's face lit up with a smile as the words were spoken that made her a free woman. She was immediately surrounded by a great throng, who desired to congratulate her.

Mrs. George remained in the court for some time after the verdict was announced and acknowledging the congratulations of her friends. She then went to the Hotel Conrad in company with Mr. and Mrs. McElheny, her cousins, who has been with her during the trial, and lunched with them at the hotel. The jury was out about 23 hours and 45 minutes and during that time 22 ballots were cast. The interval between these ballots was spent in discussing the case's various phases

After the jury reported it was said that the preliminary ballot was taken about a half an hour after they had her gloseted in the jury room. The been closeted in the jury room. ballot showed four favoring a verdict of guilty of murder in the first degree and eight jurymen for a verdict of not guilty, or acquittal. The second ballot resulted the same. This was also the result of the third ballot taken. The fourth ballot was said to have been two for guilty in the first degree and seven not guilty, one for second degree and two for manslaughter. The fifth ballot was taken with eight for not guilty aud four for manslaughter. This was the result of all the succeeding ballots up to

the fourteenth. The fifteenth ballot resulted in nine for not guilty and three for manslaughter. The sixteenth ballot stood eight for not guilty, three for manslaughter and one for assault and battery. The twentieth ballot was taken showing 11 for not guilty and one for

first degree murder. The same result was obtained in the twenty-first ballot. The twenty-second and last ballot was a unanimous vote for

not guilty. A number of women friends and acquaintances called on Mrs. George in the parlor of the Conrad hotel. Juryman Miller was one of the callers and to him Mrs. George expressed her warmest thanks, saying she had known him as her staunch friend from the first.

Mrs. George in the course of an interview said in part:

"The verdict was what I had expected from the start. I am very grateful to the court and to the officials for the consideration they have shown me. I am also very thankful to the gentlemen who represented the press. I cannot find words to express my feelings towards my attorneys. Their work was beyond all praise. They left nothing undone in my behalf and I shall remember them and appreciate them as long as I live."

Dinner merely interrupted the impromptu receptions at the Hotel Conrad parlors. This seemed a very pleasant diversion for Mrs. George, for she was

a willing hostess. Several of her relatives and a number f Canton women friends were with Mrs. George. The party kept close to the hotel most of the time.

Mrs. George said she would remain in Canton until Monday morning, when she would start for her mother's home

All of the telegrams received by Mrs. George were not mere congratulations. One, it was announced, was from a theatrical company in Columbus, offering her \$500 for a week's engagement with the company. Another offer was for the same sum for a lecture in Pittsburg, on "Woman's Rights." One of her relatives, speaking for her, said both offers had been edeclined as would be all such propositions.

PROJECTED SEWER PIPE COMBINE.

Great \$25,000,000 Trust Again Reported Nearing Completion.

AKRON, April 29.—The big sewer pipe combination, which has been on the verge of consummation for the past three months, was announced as a certainity. Frank M. Atterholt, Esq., of this city, who has been the chief engineer of the deal, returned to Akron from New York and stated that on next Thursday it would be entirely closed up. The options on all the plants were ac-

The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000, 20,000,000 of which will be issued half in preferred and half in common stock. The offices of the trust will be located

### TRADE NOT SET BACK.

Trouble In Philippines and Samoa Apparently Did Not Hurt Business. Iron and Wool Situations.

NEW YORK, April 29.-R. G. Dun & Co.'s weekly review of trade issued today said in part:

All elements considered it is rather surpris ing that business has not been set back a lit-The uncertainty about Samoa and the prolonging of difficulty in the Philippines might have counted for something, the rising imports and falling exports for some thing the rise of foreign exchange by some at tributed to foreign sales of copper stocks, and the hindrance of manufacturing orders owing to the recent advance in prices

But there has been great faith that foreign difficulties would soon be cleared away, and the movement in exchange is generally connected with speculative rather than legiti mate operations since accounts of trade still indicate a large increase of exports. After every rise in prices manufacturers have to consider whether hindered consumption with increased production will make them difficult but confidence with which combinations are formed and extended still shows prevailing belief that no danger point is near.

The state of foreign trade justified confi dence rather than apprehension. It is the season for the lowest exports of staples, and their prices this year are extremely low, but the unprecedented foreign demand for manufactured products so far compensates that the excess of exports in March was heavy and apparently has been in April.

The presence of English merchants in Bos ton trying to sell English medium wool which could be delivered there at about 32 cents, a the same time that English buyers were tak ing a little fine territory for export and German buyers 300.000 pounds more Australian from bond shows the opposite trend of popular taste in different countries.

Clay worsteds here have advanced 71% cents and serges 5 cents, which has given a stronger tone to whole market. Fine wool is relatively cheap here and dear abroad, but concessions make the lowest prices of the year in all kinds as heavy stocks carried for years come into presence of new wool, said to be 300,000,000 pounds. Manufacturers are not now buying largely, though in four weeks 30,918,785 pounds were sold, of which 23,315.085 were domestic. against 41,712,850 in the same week two years ago when wool was rising.

Without business Bessemer pig is unchanged at Pittsburg and Grey forge strong at \$14.50, though 16,000 tons southern have been sold here at \$14.20. There are some large struc tural orders, a Philadelphia building for 17,000 tons, a western bridge for 5,000, a Duluth elvator and St. Lawrence bridge at Quebec though the general run of orders in this line is light and in rails no large sales are re ported, though inquiries for 50,000 tons are said to be in this market.

Advanced prices are noted in pipe and increase in merchants' orders with similar business in sheets, and at the west in bars, pend ing the completion of the combination. But the general decrease in new demand raise the question whether prices will be main tained after current orders are run out.

Failures for the week have been 184 in the United States, against 262; last year, and 23 in Canada, against 16 last year.

### For Chaplain Hunter's Parsonage.

PITTSBURG, April 29.—The movement to build a parsonage at Jamestown, Pa. for Rev. Joseph L. Hunter, pastor of the lecal Presbyterian church, and at present serving in the Philippides as chaplain of the Tenth Pennsylvania regi ment, is being pushed vigorously by the young ladies of the congregation who have taken charge of the matter. More than 1,000 coupon letters have been sent out and all friends of the chaplain and of the regiment are asked to make an offering for the purpose indicated.

Extremely Extraordinary are the Cures Daily Being Performed by the Boy Phenomenon.

Whose Marvelous Powers in Healing the Sick Has Been a Source of Wonder and Astonishment to All-His Parlors at the Thompson Hotel Daily Thronged With Patrons From All Parts of the State.

The remarkable advancement by the Boy Phenomenon in the science of magnetic healing continues to attract crowds of anxious and afflicted people. His wonderful success has spread like wildfire among those who had given up all hope of ever being well again, and they are, by hundreds, availing themselves of this miraculous power and gift of healing, which has proven to be the surest, quickest and most reliable means of cure ever offered a long suffering public.

There is no kind or variety of diseases which is not cured by this gifted magnetic healer. Every name, nature and condition of disease, that all other physicians have given up as incurable, seem but as play to him, for he is so strongly endowed by nature with such a great magnetic power that he is able to break up congestion and cure most obstinate chronic diseases sometimes with only a single treatment.

His patients are numbered among all classes of people, the rich and the poor, the educated and the ignorant, the intelligent and refined. People with the most profound reason have given up their prejudices, been convinced and are now profiting by what they have seen and know to be facts. Having thoroughly realized the folly of waiting and suffering weeks, months and even years with disease which could as well be cured in a day, reason and judgment, in place of experiment and theory, have taken the helm and guided them to the invincible power of magnetic healing, which is the active principle of all life, action and health giving

The most astonishing and truly remarkable cures which he absolutely performs in public, and the great number he is treating daily at his private parlors, speak louder and more convincing than words of the mysterious skill he possesses. His cures are certainly as lasting as they are miraculous, and were they performed at any previous period of the world's history, they would surely be considered miracles indeed.

To see and know positively that this boy is of a verity, curing all manner of ailments simply by laying on of hands, and that in the most incredible short space of time, is creating an exciting episode in the city. Almost every train coming to East Liverpool brings some poor suffering, afflicted man or woman some poor suffering, afflicted man or woman to him, and to witness the delight of these people as they return to their homes, renewed beings in the possession of new life, health and energy, is certainly the opportunity of a lifetime, and is profoundly appreciated and widely commended by an intelligent public. While he will remain in East Liverpool at the Thompson Hotel two weeks longer, no new cases will be taken for treatment after next week, therefore those who wish treat.

next week, therefore those who wish treat-ment must apply before the end of next

### LOCAL BREVITIES.

Lieutenant Robert T. Hall was in Pittsburg today on business.

S. B. Felt left this morning for Chicago where he will remain 10 days on business.

A car containing about 2000 fruit trees was received in the lower freight yards yesterday afternoon.

Fred Laufenberger has purchased the northeastern corner of Fourth and Jackson streets and will erect a handsome residence.

A large skiff loaded with nitro glycerine and floating the red flag passed this city yesterday afternoon going to the oilfields.

The Sunday school of the First U. P. church will picnic at Cascade park June 16. The First M. E. church has closed a date with the same park for June 27.

Mr. Baker, superintendent of the mail clerks of the Cleveland and Pittsburg division, spent last evening in East End the guest of his father. He left this morning for Pittsburg.

The township trustees have filed their report for last month, and it shows that they expended \$80.25 of the county funds and \$131.88 of the township money. Of the last amount about \$40 was spent on the roads.

A force of workmen today cleaned the yards about the outbound freight depot. Much rubbish had been allowed to collect during the month, and the yards were very unclean. The cleaning has added much to the appearance of the

The train due in this city at 8 o'clock last evening did not arrive until 10:05 o'clock. The delay was caused by a wreck at Yellow Creek on the river division, caused by the breaking of an axle of a freight car. Traffic on both divisions was delayed as a result.

Architect Fritz left this morning for Beloit where he spent the day taking data for the purpose of drawing plans for the pottery to be erected by Sebring Bros. Engineer Kelly and Gardner Minehart, who have been there during the week, will arrive home this evening.

Constable Miller yesterday afternoon swore out a warrant for the arrest of H. S. Rinehart for resisting an officer in the pursuit of his duty. Rinehart plead not guilty in the court of Squire Rose and the case will be heard Wednesday. A like charge will be entered against Roy Rinehart.

The Messrs. Tyndall, of Pittsburg, with Engineer Bradford arrived in the city this morning, and went direct to to the Virginia side where they looked over the ground on which the new mill will be erected. The gentlemen stated matters were progressing very favorably. and work on the mill would be rushed with all haste possible.

Monday evening the warehouse women will hold a union meeting in Ferguson & Hill hall, and all the dressers and brushers are invited to attend. The meeting will convene at 7:30 o'clock. The warehouse women state that they have struck for \$1 a day and will not compromise upon being paid by

Deputy Sheriff W. C. Supplee was in the city yesterday serving subpoenaes for the grand jury, but he only had a few. While here he served papers on Solicitor McGarry in the cases of Charles E. Swan versus the city for \$500, and William Ivers, administrator, versus the city for \$5,500 damages. The cases will be heard May 20 and May 27.

The summer schedule of the Cleveland Pittsburg road will probably be received in this city not later than May 15. There will be very few changes in the running time of passenger trains but the freight schedule may be altered considerably. The train due at this place at 12:15 will no doubt be put back on its old time 12:08.

## MRS. GEORGE FREED.

Many Congratulations to Her on Her Acquittal.

RECEIVED A THEATRICAL OFFER.

Five Hundred Dollars For a Week's En gagement-Also an Offer to Lecture but She Declined-Crowd Cheered th Verdict-Going to Her Mother's.

CANTON, O., April 29.—A verdict of "not guilty" delivered to the court ac quitted Mrs. Anna E. George of th murder of George D. Saxton and ende her seven months' confinement in jail The verdict was reached after a trial o 22 days of actual sessions of court an after 2234 hours of deliberation in th jury room. In less than an hour after the verdict had been announced congra ulatory telegrams were received by Mrs George from sympathizers in man quarters of the country. More of ther were addressed to her attorneys an were congratulations on a profession

During the afternoon and last even ing Mrs. George was kept busy ociving her friends.

A mighty cheer went up from the crowd in the courtroom when the ve dict was announced.

The cheer was almost instantly take up by the people who packed the street Mrs. George's face lit up with a smi as the words were spoken that made h a free woman. She was immediate surrounded by a great throng, who sired to congratulate her.

Mrs. George remained in the court some time after the verdict was nounced and acknowledging the co gratulations of her friends. She th went to the Hotel Conrad in compa with Mr. and Mrs. McElheny, her co sins, who has been with her during trial, and lunched with them at the hotel. The jury was out about 23 hours and 45 minutes and during that time 22 ballots were cast. The interval between these ballots was spent in discussing the case's various phases.

After the jury reported it was said that the preliminary ballot was taken about a half an hour after they had been closeted in the jury room. The been closeted in the jury room. The ballot showed four favoring a verdict of guilty of murder in the first degree and eight jurymen for a verdict of not guilty, or acquittal. The second ballot resulted the same. This was also the result of the third ballot taken. The fourth ballot was said to have been two for guilty in the first degree and seven not guilty, one for second degree and two for manslaughter. The fifth ballot was taken with eight for not guilty and four for manslaughter. This was the result of all the succeeding ballots up to

The fifteenth ballot resulted in nine for not guilty and three for manslaughter. The sixteenth ballot stood eight for not guilty, three for manslaughter and one for assault and battery. The twentieth ballot was taken showing 11 for not guilty and one for first degree murder.

The same result was obtained in the twenty-first ballot. The twenty-second and last ballot was a unanimous vote for

A number of women friends and acquaintances called on Mrs. George in the parlor of the Conrad hotel. Juryman Miller was one of the callers and to him Mrs. George expressed her warmest thanks, saying she had known him as her staunch friend from the first.

Mrs. George in the course of an interview said in part:

"The verdict was what I had expected from the start. I am very grateful to the court and to the officials for the consideration they have shown me. I am also very thankful to the gentlemen who represented the press. I cannot find words to express my feelings towards my attorneys. Their work was beyond all praise. They left nothing undone in my behalf and I shall remember them and appreciate them as long as I live."

Dinner merely interrupted the impromptu receptions at the Hotel Conrad parlors. This seemed a very pleasant diversion for Mrs. George, for she was a willing hostess.

Several of her relatives and a number of Canton women friends were with Mrs. George. The party kept close to the hotel most of the time.

Mrs. George said she would remain in Canton until Monday morning, when she would start for her mother's home at Hanoverton.

All of the telegrams received by Mrs. George were not mere congratulations. One, it was announced, was from a theatrical company in Columbus, offering her \$500 for a week's engagement with the company. Another offer was for the same sum for a lecture in Pittsburg, on "Woman's Rights." One of her relatives, speaking for her, said both offers had been edeclined as would be all such propositions.

PROJECTED SEWER PIPE COMBINE.

Great \$25,000,000 Trust Again Reported Nearing Completion.

AKRON, April 29 .- The big sewer pipe combination, which has been on the verge of consummation for the past three months, was announced as a certainity. Frank M. Atterholt, Esq., of this city, who has been the chief engineer of the deal, returned to Akron from New York and stated that on next Thursday it would be entirely closed up. The options on all the plants were ac-

cepted.

The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000, 20,000,000 of which will be issued half in preferred and half in common stock. The offices of the trust will be located

### TRADE NOT SET BACK.

Trouble In Philippines and Samoa Apparently Did Not Hurt Business. Iron and Wool Situations.

New York, April 29.-R. G. Dun & Co.'s weekly review of trade issued to day said in part:

All elements considered it is rather surprising that business has not been set back a little. The uncertainty about Samoa and the prolonging of difficulty in the Philippines might have counted for something, the rising imports and falling exports for some thing. the rise of foreign exchange by some at tributed to foreign sales of copper stocks, and the hindrance of manufacturing orders owing to the recent advance in prices

But there has been great faith that foreign difficulties would soon be cleared away, and the movement in exchange is generally connected with speculative rather than legiti mate operations since accounts of trade still indicate a large increase of exports. After every rise in prices manufacturers have to consider whether hindered consumption with increased production will make them difficult but confidence with which combinations are formed and extended still shows prevailing

belief that no danger point is near. The state of foreign trade justified confidence rather than apprehension. It is the season for the lowest exports of staples, and their prices this year are extremely low, but the unprecedented foreign demand for manufactured products so far compensates that the excess of exports in March was heavy and apparently has been in April.

The presence of English merchants in Bos ton trying to sell English medium wool which could be delivered there at about 32 cents, a the same time that English buyers were tak ing a little fine territory for export and Ger man buyers 300.000 pounds more Australian from bond shows the opposite trend of popular taste in different countries.

Clay worsteds here have advanced 71/2 cents and serges 5 cents, which has given a stronger tone to whole market. Fine wool is relatively cheap here and dear abroad, but concessions make the lowest prices of the year in all kinds as heavy stocks carried for years come into presence of new wool, said to be 300,000,000 pounds. Manufacturers are not now buying largely, though in four weeks 30,918,785 pounds were sold, of which 23,315.085 were domestic. against 41,712,850 in the same week two years ago when wool was rising.

Without business Bessemer pig is unchanged at Pittsburg and Grey forge strong at \$14.50. though 16,000 tons southern have been sold here at \$14.20. There are some large structural orders, a Philadelphia building for 17,00 tons, a western bridge for 5,000, a Duluth elvator and St. Lawrence bridge at Quebec though the general run of orders in this line is light and in rails no large sales are re ported, though inquiries for 50,000 tons are said to be in this market.

Advanced prices are noted in pipe and in crease in merchants' orders with similar busi ness in sheets, and at the west in bars, pend ing the completion of the combination. But the general decrease in new demand raise the question whether prices will be main tained after current orders are run out. Failures for the week have been 184 in the United States, against 262; last year, and 23 in

Canada, against 16 last year.

### For Chaplain Hunter's Parsonage.

PITTSBURG, April 29.—The movement to build a parsonage at Jamestown, Pa. for Rev. Joseph L. Hunter, pastor of the lecal Presbyterian church, and at present serving in the Philippides as chaplain of the Tenth Pennsylvania regi ment, is being pushed vigorously by the young ladies of the congregation who have taken charge of the matter. More than 1,000 coupon letters have been sent out and all friends of the chaplain and of the regiment are asked to make an offering for the purpose indicated.

Extremely Extraordinary are the Cures Daily Being Performed by the Boy Phenomenon.

Whose Marvelous Powers in Healing the Sick Has Been a Source of Wonder and Astonishment to All-His Parlors at the Thompson Hotel Daily Thronged With Patrons From All Parts of the State.

The remarkable advancement by the Boy Phenomenon in the science of magnetic healing continues to attract crowds of anxious and afflicted people. His wonderful success has spread like wildfire among those who had given up all hope of ever being well again, and they are, by hundreds, availing themselves of this miraculous power and gift of healing, which has proven to be the surest, quickest and most reliable means of cure ever offered a long suffering public.

There is no kind or variety of diseases which is not cured by this gifted magnetic healer. Every name, nature and condition of disease, that all other physicians have given up as incurable, seem but as play to him, for he is so strongly endowed by nature with such a great magnetic power that he is able to break up congestion and cure most obstinate chronic diseases sometimes with only a single treatment.

His patients are numbered among all classes of people, the rich and the poor, the educated and the ignorant, the intelligent and refined. People with the most profound reason have given up their prejudices, been convinced and are now profiting by what they have seen and know to be facts. Having thoroughly realized the folly of waiting and suffering weeks, months and even years with disease which could as well be cured in a day, reason and judgment, in place of experiment and theory, have taken the helm and guided them to the invincible power of magnetic healing, which is the active principle of all life, action and health giving

The most astonishing and truly remarkable cures which he absolutely performs in public, and the great number he is treating daily at his private parlors, speak louder and more convincing than words of the mysterious skill he possesses. His cures are certainly as lasting as they are miraculous, and were they performed at any previous period of the world's history, they would surely be considered miracles indeed.

To see and know positively that this boy is of a verity, curing all manner of ailments simply by laying on of hands, and that in the most incredible short space of time, is creating an exciting episode in the city. Almost every train coming to East Liverpool brings some poor suffering, afflicted man or woman some poor suffering, afflicted man or woman to him, and to witness the delight of these people as they return to their homes, renewed beings in the possession of new life, health and energy, is certainly the opportunity of a lifetime, and is profoundly appreciated and widely commended by an intelligent public. While he will remain in East Liverpool at the Thompson Hotel two weeks longer, no new cases will be taken for treatment after next week, therefore those who wish treatment must apply before the end of next week.

Office hours, daily except Sunday, from 10

## TO STUDY THE OCCULT

New Psychic Study Society Organized In New York.

AIMS OF THE ORGANIZATION.

Its Members Offer to Explain Phenomena of Dancing Furniture and Ghostlike Apparitions-Dr. Gibier's Defense of Psychism-The Society Starts With One Hundred Members.

The first meeting of the Psychic Study society, organized by the Rev. Henry Frank, was held the other evening in St. Stephen's hall, in New York. It was a public meeting, and the hall was crowded to the doors. In the audience were clergymen, physicians and other professional men. The speakers were the Rev. Henry Frank, who presided. and Dr. Paul Gibier, head of the Pasteur institute in New York. Among the stated objects of the society are "the study of hypnotism and mesmerism and an inquiry into the alleged phenomena of clairvoyance, somnambulism, thought transference and all matters of kindred nature and the careful investigation of any reports resting on strong testimony of alleged apparitions occurring at the moment of death or otherwise and of alleged disturbances in places reputed to be haunt-

The proceedings began with the ejection of an aged scoffer. He arose, and, addressing the Rev. Mr. Frank in a loud voice, wanted to be informed whether the meeting was a bona fide public one or whether it was packed "like a mere Saratoga convention."

"It is absolutely public, and all are entitled to give their views and join the society or refrain from doing so," replied the Rev. Mr. Frank.

"I guess nit, and I've had enough of

"Put him out!" commanded the president, and this was promptly done. "Now," said the Rev. Mr. Frank, "gentlemen will pass down the aisles with slips of paper, and those who wish to join the society will please write down their names and addresses.

"I think," ventured a man in the audience diffidently, "that it would perhaps be as well if the objects and aims and plans of the society are explained to us before we are asked to join it." This Dodging is useless, because when one suggestion was applauded by some persons in the rear of the hall, and the Rev. Mr. Frank explained these at

He told how a man had come to him and told him that his furniture had taken to dancing and reeling about the rooms of his house in a most inexplicable and terrifying manner, so that his family were "scared half to death." He lso spoke of another case to which his attention had been drawn. It was that of a man who was on a visit to some friends. The visitor, while in bed, there being a light in his bedroom, saw a person enter the room, go to a bureau, take therefrom a razor, stand in front of a mirror, cut his throat and vanish. At the breakfast table the next morning he recounted what he had seen and identified the apparition's portrait from among 100 photographs. He then learned for the first time that the original of the portrait had years before committed suicide in the manner described and in that very bedroom.

"The society," said the Rev. Mr. Frank, "will investigate any reports made to them of dancing furniture and manifestation of any nature whatsoever. If it be found that there are no Keely wires, that pranks are not played upon the persons who report the alleged phenomena, the cause thereof will be sought for in a cautious, strictly scan tific and thorough manner by members qualified by their scientific attainments, study or intelligence to pursue such investigation.'

Dr. Paul Gibier was then introduced The doctor is the author of a work entitled, "Phychism - An Analysis of Things Existing." It was explained that he was under the impression that he was to address a body of scientists and not a public meeting. Instead, therefore, of entering upon a scientific discourse, as he had intended, he delivered an address in defense of psychism.

"The time is fast approaching," said he, "when a lack of knowledge of this subject will be considered as gross ignorance. It has been said that in psychic phenomena a possible explanation of the universe might be found. Is this not too rash an assertion, and is not the expression of this expectation by far too unscientific? I think not, for the aim of science, as pointed out by Huxley and other savants of his school, is nothing short of a complete explanation of the universe.

"In reality neither Huxley nor Tyndall was consistent in his teachings in denying the existence of and scorning psychic phenomena, a subject which they had not investigated. They failed to steer their bark according to their beacon. They did not hold to what Huxley termed 'that scientific ars artium,' the art of saying 'I don't know,' and the facts are the reefs on which the consistency of their attitude was wrecked, for facts exist."

### SOLDIERING ABOUT MANILA.

### A Nebraskan Describes the Sensations of a Man In the Ranks.

L. C. Peters, a soldier of the First Nebraska in the Philippines, writes to a Chicago paper:

"What do we think of? How do we feel? What do we do? are the questions, no doubt, of the residents of the central western states who have friends and relatives in the army. Well, we think of when we are going home, think of what we used to eat and when we'll eat again, and a few other things. What do we do? Well, we fight, sleep and do guard duty; that is about all. We feel tired.

"The country over which most of the conflict in Luzon is being waged is very rough, and is cut up into ridges by the numerous ricefields. To give one an idea of the topography it will suffice to say that the ricefields are all terraces running around the many small hills. These terraces are each about 100 feet wide, and rise one above another, each being about a foot or 18 inches higher than the one right below it. Climbing and running up and down terraces with a haversack containing 250 rounds of Springfield ammunition slung across the shoulder and a belt of 50 rounds around the waist is not very enjoyable work. and soon tires the strongest men.

"The manner of fighting the insurgents differs a great deal from the ordinary methods of warfare. No pitched battles are fought, no firing from behind breastworks of stone or earth. To fight the Filipinos one must ambush or be ambushed and after the enemy is once in sight must run him down. The Filipinos worry more than really fight. and this constant worrying of troops by small bodies of insurgents makes the work very fatiguing to the soldier. The Filipino carries no heavy pack or acconterments and goes barefoot most of the time. He can run like a deer, and does so rather than meet a foe face to face. Being light of foot and knowing every foot of the country he traverses. he has a big advantage. Then, again. he doesn't have to worry about holding the ground he takes, for he isn't on the taking side of the game.

"It is interesting to know how many of the boys believe in fatality, and one often hears one say to another, 'Well. when your time comes to die you'll die, no matter whether you are in the front or rear, and there isn't any use dodging. Dodging bullets is a harmless but useless pastime indulged in by many. hears the ball it is already past and too late to dodge. One soldier when 'loshed' for ducking his head remarked, 'Well, I'll tell you fellows there's consolation in knowing you tried to get out of the way anyhow.'

Surgeon From Manila Tells of Penn avlvania Soldiers' Bravery.

Dr. W. C. Hamilton, who went to regiment, returned to his home at Beaver, Pa., recently. He was transferred to the hospital corps at Malate on Sept.

Tenth are ready to stay in the Philip- birthday, when, by order of General pines as long as the government may need their services, and that will be for some time. The Filipinos are likely to conduct a long bushwhacking fight. When I left Manila, the men of the native bands of San Juan marched Tenth were in good condition."

Dr. Hamilton tells a story of heroism on the part of George Gibbons and Frank Barbee, who enlisted from San Francisco. During the battle of Caloocan news was brought that a Montana captain had been fatally wounded. Gibbons and Barbee went after him with the ambulance. Dr. Hamilton continues the story as follows:

the two were about to pick the captain from the ground, both horses were shot. Gibbons, who was a strapping fellow, put the wounded captain on his shoulders and started back, when a bullet pierced his heart, and he dropped dead.

"Barbee picked up the captain and carried him back to our temporary quar- Strange Conditions Required of Candi ters, a distance of one-half mile. Barbee then returned to where his comrade lay dead and succeeded in carrying his body back in safety. After the battle was over this Montana captain sent for Barbee and handed him his belt and re-

O Death, Where Is Thy Sting?

The boycotting of the luckless Mexican embassador by representatives of the other powers at Washington recalls an anecdote of a recently deceased clubman. He was present one evening at a little musical gathering when an aspirant for honors as a pianist seated himself at the piano and began playing one of the national airs of Mexico, "La Paloma." His execution was deadly. and he banged and thumped the instrument until it was a fit object for the interference of the humane society. Finally he whirled around on the stool and said: "Did you notice the air I was playing? Well, when they led Maximilian out to be shot they asked him what tune he would like to be shot by and he selected 'La Paloma.' Do you know why?'

"Yes," replied the clubman as he glared at the executioner of the tune. ly do "our girls" accommodate themence joined the society, which starts off "I suppose it robbed death of half its selves to any new conditions. -- Boston with upward of 100 members. - New | terrors. "-Louisville Times.

### EPWORTH LEAGUE.

Topic For the Week Beginning April 30. "How Shall We Divide Our Time?"-Text, Eccl. iii, 15.

"That which hath been is now, and that which is to be hath already been, and God requireth that which is past.

No one truth is more pressed home upon me by the Bible than that of personal accountability for the use of personal power and opportunity. The world of things moves in regular lines of law, and a man can know assuredly what is to be in the future from what has been in the past. Circumstances may change, but the great fundamental principles of human nature and the rules which apply to conduct never shift ground. We are what we make ourselves. God has given the raw material of our lives, and we manufacture character. For this He holds us responsible, and offers rewards for right results and pronounces penalties for wrongdoing and evil. The only sober thing for every man is clearly to recognize his duty to God and then to set himself to work to use his time and talents and opportunities so as to bring the largest and best results to God and

It is folly to devote one's time and energy so fully to securing business advancement that the other needs of life are neglected. Soul needs should be recognized and fully provided for. Social duties and wants are real issues of moment in every life. One must cultivate neighborliness for his own sake and the good of others. He must learn to give and take or be less the man than he should be. Knowledge of men and things at large, the world and its great movements and interests, also have a claim on our attention and time.

Above all, a man should take time to be alone with himself and his God. The "quiet hour" is needed daily in every life. It is needed to sober one from the intoxication and excitement of the world's mad rush around us. It is needed to cast the anchor of faith and hope deeper and more securely in the unseen but real things of existence. Time must be given to think of God, of heaven, of holiness and the real hap-

Stint your sleep if necessary, cut short your pleasures, economize time in your business, be frugal in social exertions, but give yourself ample time to get acquainted with God. If you can't bear to talk a few minutes a day with Him now, how can you ever expect to enjoy an eternity with Him hereafter?

### WASHINGTON'S BIRTHDAY.

Celebration of Our National Holiday In Porto Rico.

In an interview the other day Mr. Williams, secretary of the Porto Rican commission, emphasized the fact that Manila with the Tenth Pennsylvania the people throughout the island are pleased to realize that they are American citizens and proud to stand under Washington's flag and share the freedom he gave his people. This was par-Dr. Hamilton said: "The men of the ticularly evident on Washington's Henry, the 22d of February was made a public holiday and was generally observed as such throughout the entire province. Early in the morning two through the city and serenaded a number of prominent citizens.

In the afternoon the school children assembled on the plaza there, each child carrying an American flag, and paraded through the principal streets to the theater, where appropriate exercises were held. On the stage was a large lithograph of George Washington, draped with the stars and stripes. "When the ambulance stopped and Thrilling tableaus were presented by the American sailors and soldiers. A beautiful feature of the entertainment was the singing of "America" by 15 Porto Rican girls. - Washington Star.

### UNIQUE SCHOLARSHIPS.

dates Competing For Them.

A unique set of scholarships has been founded at the University of Paris by an unknown donor. They are five in number and are worth 15,000 francs each. The conditions are strange involver and told him to take them as a deed. The chosen candidates, it is reremembrance."-Special Philadelphia quired, must know English. They must go on a long journey lasting 15 months, during which time they are to visit all peoples and climes. It will be their J. M. KELLY. duty thoroughly to inform themselves as to the characteristics of the various people they visit, investigate the methods of government and determine what factor gives prosperity to the peoplewhether it is due to the government or the people, and if to the latter what characteristic is responsible for it. The conditions further require that they must obtain this knowledge and information themselves and not accept it from official sources. - Paris Cable New York Journal.

### Expensive Correspondence.

If this expansion of the messenger boy service continues, there won't be an American girl that will open a letter from anywhere that doesn't come by the writer's "own" messenger, so quick-

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of

pea green, bordered by gold
The Label will
be placed on the upper front side of the tube
that receives the seat post. BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a similar color. TOBACCO LABEL.

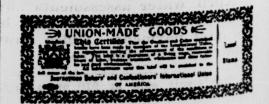

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full sise fac This is a full size fac-simile of the Label of the Bakers' and Con-fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

# PROBABLY 50 KILLED.

Others May Have Perished In Missouri Cyclone.

SOME INJURED LIKELY TO DIE.

It Was Believed That at Kirksville Some Unfortunates Perished In Flames That Broke Out In the Ruins-Dead and Injured at Newtown.

KIRKSVILLE, Mo., April 29.-As a result of the tornado, which demolished shout half of the residences and other buildings, 200 families were homeless and nearly 50 dead bodies and 70 injured persons were recovered from the ruins. More than a dozen of the injured will probably die. Although rescuers had been searching the ruins many were missing and it was thought that a considerable number of the unfortunates were consumed in the flames that broke out soon after the storm had ceased. The work of rescue continued, but it was thought that it might be days before the total number of victims was known.

### INGHAM AND NEWITT HELD.

Bail Increased on the Proposal of District Attorney Beck, Who Scored Them.

PHILADELPHIA, April 29.—The hearing of former United States District Attorney Ellery P. Ingham and ex-Assistant District Attorney Harvey K. Newitt, who are charged with attempting to bribe Secret Service Agent William J. McManus, in connection with the great counterfeiting conspiracy which was unearthed in this city last week, was concluded and United States Commissioner Edmunds increased the bail of each defendant from \$10,000 to \$20,000, which they furnished.

Eight witnesses were called by District Attorney Beck and most of their testimony corroborated that of William T. Kendig, one of the men charged with counterfeiting the internal revenue tobacco stamps, who made a clean breast of the whole conspiracy at Thurs-

day's hearing.
Attorney Shields for the defendants asked that their bail be reduced, but this was opposed by District Attorney Beck, who asked the commissioner not to lower but to increase it. In further

WILLIAM L. KENDIG.

addressing the commissioner, Mr. Beck said in part:

"Both of these gentlemen have been honored by the government and one of them is still honored in that he holds a special commission as the government's attorney in city suits in which it is interested and I will say this that if Messrs. Ingham and Newitt are guilty they are as guilty as any who are implicated in this matter. Morally they are more so, for they have relied upon their high positions to say to these men, for the sum of \$3,000 a month you can go ahead with your infamous work and

we will see that you are not molested." Bail I was furnished.

### FOR SUNDAY SCHOOLS.

Twenty-Four Thousand Dollars Raised at the International Convention-Toronto May Be Next Meeting Place.

ATLANTA, April 29.—At the session of the international Sunday School convention the executive committee, to which was referred the matter of giving the negroes representation on committees where white men were chosen, reported against the negroes. Reports were heard from the committees on lessons and finance from the treasurer, W. K. Crosby of Delaware.

Twenty-four thousand dollars was raised for the furtherance of Sunday school work, Cuba and Japan sending \$25 each.

The time and place of holding the next convention likely will be decided today. Sentiment favored Toronto and it was believed the convention will go

## Mills to Be Closed.

Youngstown, April 29.—Complying with instructions from the promoters of the Republic Iron and Steel company of New York the Brown-Bonnell and the Mahoning valley plants announced that beginning with Monday morning they would be shut down, probably for a week. The management of the Andrews Bros.' mill declined to disclose their intention, but it is assumed that they will do as the others do.

## AGUINALDO'S SCHEME.

Tried to Trick Otis Into Recognizing Government.

AMERICAN GENERAL TOO SHARP.

Manila, April 29.-Aguinaldo was evidently selecting the army as a cloak for his congress, hoping by subterfuge to overcome General Otis' consistent policy of ignoring the Filipino government. The Filipinos' argument is that it is impossible to arrange an armistice without the sanction of the congress. General Otis punctured this assumption by remarking that if Aguinaldo could make war without the congress he could stop it without reference to that body. One of the conferrees afterward remarked that they are shrewder than white men in diplomacy as the Malays are credited with being.

While the insurgents are undoubtedly tired of war the leaders are torn with

There is a suspicion that it was hoped by means of a conference to ascertain what terms they could expect. If they saw that anything is to be gained by continuing the war an armistice would afford them an interesting commentary on Aguinaldo's scheme that only 60 of the 300 members of the Filipino congress have taken the oath of allegiance which their constitution requires.

Colonel Manuel Argueleses and Lieutenant Jose Bernal, chief of General Luna's staff, entered General MacAr-

ent the Rebel Officers Back With the News That He Would Ignore the Filipino Congress-Troops Had a Fight Near Taguig.

dissensions.

thur's line Friday bearing a flag of truce. They went to Manila by train to confer with General Otis regarding terms of surrender.

Colonel Manuel Argueleses and Lieutenant Jose Bernal told General Otis that they were representatives of General Luna, who had been requested by Aguinaldo to ask General Otis for a cessation of hostilities in order to allow time for summoning of the Filipino congress, which body would decide whether the people wanted peace. General Otis replied that he did not recognize the existence of a Filipino government.

There will be probably another con-

ference today.

The Filipino officers walked down the railroad track to the Kansas regiment's outpost about 9 o'clock Friday morning. The Kansas captain in command there escorted them to General Wheaton's headquarters, where they were provided with horses and sent to the headquarters of General MacArthur. The latter invited the Filipinos to sit down at lunch with him, and conversed with them for some time. He refused, however, to speak authoritatively on the subject of their errand, referring all inquiries to General Otis.

The Filipinos were then escorted by Major Maloney of General MacArthur's staff, to Manila, reaching here at about 3 o'clock p. m. General Otis' aide, Lieutenant Sladen, was awaiting their arrival at the depot with a carriage, in which they were driven to the palace entrance.

The Filipino officers attracted much attention. They were dressed in uniforms of checkered blue and white cloth and wore straw hats. They carried no side arms. They were escorted directly to the office of General Otis. Jacob G. Schurman, president of the Philippine commission, and Hon. Charles Denby, a member of the commission, soon joined the party there.

The news of the arrival of the Filipino officers under a flag of truce spread through the city rapidly, and many offi-cers gravitated to the corridors of the palace, while a crowd of natives gath-JEANNETTE, PA. April 29.—Andrew Cers gravitated to the corridors of the palace, while a crowd of natives gathered mew Methodist Episcopal church here.

About 5 o'clock two Filipino officers escorted by Lieutenant Sladen and Major Maloney left the place. They did not look at all elated as a result of their talk with General Otis and the mem-

bers of the Philippine commission.

Thursday the Washington regiment, which was holding Taguig with three companies of the Twelfth regulars, engaged a large force of insurgents in a fight in the jungle. The Americans lost two killed and ten wounded.

The Filipinos had been massing at the mouth of Pasig river and it was estimated that there were 2,000 of them now there. They have mounted two guns-one a 3-inch Krupp-and have thrown a number of shells into the American lines. The gunboat Napidan, which is guarding the entrance to the river, shelled a launch which was carrying supplies.

Thursday a large force of rebels approached the town, seemingly bent upon during the Americans from Calumpit. Three companies of the Washington troops sallied from the town and at-tacked the natives and found that they had their hands full. Two other companies of the Washingtons and three of the Twelfth regulars reinforced them and drove back the enemy, who removed their dead and wounded as they retired

### VOLUNTEERS PRAISED,

### ESPECIALLY FUNSTON.

thange In Sentiment In Washington, Good News From Otis Pleasing to Alger-Troops to Go.

Washington, April 29.—A telegram eceived from General Otis announced that Aguinaldo had taken what was regarded as the first step toward surrender, namely, requesting a cessation of hostilities. Secretary Alger said that while it could not be said that peace was assured, he regarded the prospects as of the brightest and felt confident that the end of the insurrection was

There was much praise for the volunteers, a marked change in the sentiment expressed a few days ago when it was understood that the same men were pleading to be brought home. Colonel Funston came in for the most commendation, even the regular officers taking note with admiration of the fact that his achievements were all strictly within the lines of the plans laid down for him by his superior officer, General Whea-

General Corbin said that every vol-unteer who participated in the fighting in the Philippines since peace was declared should have a medal of honor. By the terms of their enlistments they were entitled to withdraw from the service, but they had remained voluntarily, performing more than was required of them, which was more than the ordinary duty of a soldier.

It was expected that today there would be further negotiations with the insurgent representatives. While the hope was expressed that our commission would not hold out terms so severe as to lead to a renewal of the fighting, or the withdrawal of the insurgents to another stronghold further north, it was realized that Otis must exercise care to make sure that they did not in bad faith take advantage of the opportunity afforded by a suspension of hostilities to secure whatever of benefit to themselves may come from the rapidly approaching rainy season. Campaigning on the part of the Americans would be almost impossible at that time. However, it was believed that Aguinaldo was really in earnest, and that his sole effort was to shift responsibility for

the surrender to the Filipino corgress. Adjutant General Corbin said the Filipino peace overtures would not bring about any change of plan in this country as to forwarding ships, supplies and troops to the Philippines. Transports were about to sail from San Francisco, and a considerable number of troops were under orders to proceed to Manila.

It was said at the navy department that the developments of the day made it improbable that the Iowa would be sent to Manila according to the original program. In view of the state of affairs in China, however, the American fleet on the Asiatic station will be kept at a high standard.

The text of General Otis' dispatch

"MANILA, April 28. Adjutant General, Washington:

"After taking Calumpit MacArthur's division crossed the Rio Grande river in the face of great obstacles, driving the concentrated forces of the enemy back on the railroad two miles. Mac-Arthur reports that the passage of the river was a remarkable military achievement, the success of which was due to the daring, skill and determination of Colonel Funston, under the discriminating control of General Wheaton. Casualties slight; number not yet ascer-

"This morning the chief of staff from the commanding general of the insurgent forces entered our lines to express admiration of the wonderful feat of the American army in forcing the passage of the river, which was thought impos-sible. The staff officer reports that the insurgent commanding general has received from the insurgent government directions to suspend hostilities pending negotiations for the termination of the war. The staff officer with a party is

one vicinity of Angat, east of Calumpit, where he is awaiting supplies to be sent tomorrow

"Yesterday morning a force of 1,500 insurgents attacked the troops at Taguig. They were driven back by the Washington regiment. Our loss, two killed 12 wounded. OTIS."

The dispatch from General Otis was

telegraphed to President McKinley at Philadelphia. The officials of the war department all believe that the hostilities are about concluded.

### PERRY BELMONT MARRIED.

United to Mrs. Sloane After Her Husband Had Been Awarded a Divorce.

NEW YORK, April 29.—Perry Belmont and Mrs. Jessie A. Sloane, the divorced wife of Henry T. Sloane, were married about 8:30 o'clock last night at Greenwich, Conn., by the Rev. Walter M: Barrows, pastor of the Second Congregational church of this city.

Mr. and Mrs. Belmont will go to Washington where they will be the guests of Mrs. S. G. Howland, Mr. Belmont's sister, for several days. Mr. Belmont expected then to take his bride to Kentucky to visit his stock farm.

Before leaving this city last night and at Mr. Belmont's request the new Mrs. Belmont conveyed her home at 9 East Seventy-second street, the house that had been recently given to her by Mr. Sloane, and all its contents, to the State Trust company with instructions to convey it back again to Mr. Sloane. The property was valued at \$550,000.

If he should refuse to accept it the trust company was instructed to invest the proceeds of the sale of the house for the benefit of the two Sloane children.

It was learned that the referee in the divorce case was William L. Turner, and that he had been appointed by Justice Francis M. Scott on March 25 last.

MRS. PERRY BELMONT.

The referee held two hearings. Sloane did not attend either.

Henry T. Sloane, the well-known and wealthy society man, was yesterday granted an absolute divorce from his wife, Jessie A. Sloane. The decree was handed down by Justice Stover in the supreme court. The name of the corespondent was kept secret. The custody of the Sloane children, Jessie, Emily and Eleanor, was given to Mr. He was also accorded the right to marry, and the defendant in the suit, it was stated, should not lawfully marry again until after the death of Mr. Sloane.

### Von Diederich's Alleged Reply.

BERLIN, April 29.—A dispatch from Kiel to The Vossiche Zeitung says that naval officers there claim that Admiral von Diederich's answer to Admiral Dewey's threat was simply: Clear for action, and quietly steamed through the American lines into the harbor."

## **NEW HOMEMAKING MOVE**

How a Kansas City Boomer Is Building His House.

WILL USE DOMESTIC MATERIALS.

Foundation Is of Native Stone, and Nails Only Are Foreign - Lumber Was Dressed In Kansas City-Would [se Homemade Dishes, but the Good Wife Objects.

There is a man in Kansas City who decided to build a home this spring. and, being a boomer, he conceived the idea of constructing and furnishing his house as nearly as possible from Kansas City materials. The only foreign material in the structure is nails. Of course the lumber was shipped here from a distance, but since it came on in the rough and was dressed and made ready for use by Kansas City planing mills he feels the right to stretch a point in this respect. And what makes the boomer particularly happy is that his house will cost less than the \$3,000 he expected to put into it, and he considers the homemade materials are superior to any that could be imported This is his own story:

"I am a constant 'rooter' for Kansas City, and when I started out to build a house I made up my mind to make a sure enough Kansas City house. If I could use glue instead of nails and screws for putting it together, I'd defy any man to lay his hand on a part of it that wasn't manufactured here. To begin at the beginning, the foundation of my house is Kansas City limestone. quarried by Kansas City laborers, using Kansas City made tools. The stone was hauled from the quarry to my house in wagons made in Kansas City, drawn by Kansas City horses, wearing Kansas City harness. You see, I went in for the whole thing while I was at it. The cellar and excavations for the foundation were dug partly with Kansas City picks. I think they worked in a shovel or so that wasn't made here, but I couldn't prove it. The foundation stones were cemented together with sand from the river and lime made right here.

"I wouldn't have any lumber that had been dressed away from Kansas City, as I consider it manufactured at home if it comes here in the rough and is prepared for use later. All of the main body will be made of lumber that I know has been through Kansas City planing mills. There will be tar paper under the weatherboarding, and that is made here, as will be all of the doors. sashes, sashweights, locks, doorknobs, cornices and the art glass in the front door. I had to put up with imported glass for the windows, but it was because there wasn't any way to get around it, and the lights will be put in with Kansas City putty. The laths and chingles, too, are worked up somewhere else, but I had the satisfaction of knowing that we have the machinery in Kansas City planing mills to do the work if we wanted to.

"If any corrugated ironwork goes into my house, it will be homemade. So will be all freizes and centerpieces. newel posts, stairs, chandeliers, mantels, all cornices and moldings. I suppose the guttering and rain pipes will have to be made from imported tin, but Kansas City manufacturers will shape it and solder it together with Kansas City made solder. All of the drain pipes that are made of clay will be manufactured here. So will be the furnace in the cellar, the granitoid walks outside and the

iron fence in front. "When the finishing time comes, the house will be painted with homemade paint inside and out. The rooms will be frescoed with the same product, and when the floors are stained and varnished or waxed, all these will be made here. In the kitchen will be a range made, you bet, in Kansas City, United States of America. So will be the pans and the kettles, water pails, tinware, and all kitchen utensils except cutlery and iron pots. The kitchen table and cabinets, chairs and brackets and shelves will all be made here. The coal we burn in the range will be mined in Jackson county with Kansas City made tools, and those same Kansas City made wagons will haul it to my house.

"In the dining room will be rugs made in Kansas City; likewise a table and chairs and a sideboard. There will Kansas City artists and inclosed in Kansas City made frames. The window shades and shade fixtures will be made here, though the raw material for the shades will have to be imported. Unfortunately I will have to leave town when I buy tableware—china, glass and cutlery, tablecloths and napkins. If I had my way, we'd eat out of Kansas City pottery with Kansas City made spoons, but my wife won't stand for Tenn., and a sensational pursuit of the that. The parlor floor will be covered couple through the country by the with a Kansas City made art square. There will be plenty of homemade pictures, a couch, stand table, chairs, ornaments-everything, in fact, made here, except the piano.

"The bedroom sets will be manufactured by local firms. So will be the mattresses, the new springs and the prilows. All cloth, of course, must be imported, but everything will be worked up here. The feather bed will be stuffed with Kansas City feathers from Kansas City geese, and the mattress will be one of the patent kind that no one but the manufacturer knows how to make, but he makes it here. The lights in my house will be partly gasoline lamps, made in Kansas City, of course, and partly incandescent gas lights, the mantles for which are also made here. When we get the house finished, I expect all my of my friends out to see it."-Kansas City Times.

### EDUCATION IN PORTO RICO.

Introducing the American Common School System.

From a private letter received at Washington from an American in Porto Rico some interesting information not contained in the press dispatches is derived. He is especially interested in educational matters. It appears, among other things, that steps have been taken to prepare a statute covering the principal points of American common school legislation, the first draft of which has been finished. Fifteen young Americans have been employed and sent out nominally to teach English, but really to more certain it is that if we are to acperform at the same time the duties of county superintendents of schools. Their jurisdiction and duties will cover the schools of the entire island and supply a want that has never before been met. A revised course of study has been prescribed for the common schools, and a new series of textbooks for use therein has been prepared, the use of which has been officially authorized. The books are to be published by a Boston firm. Plans for public school buildings have also been worked out. Only four such buildings now exist in Porto Rico. The letter continues:

"The new secretary of the interior, De Valle, is a fine business man, with the practical instincts of a Yankee, and business moves along with remarkable smoothness and celerity since he assumed office. I mailed you the other day a newspaper containing the platform of the new political party organized here. The men are the American Porto Ricans. Some time must elapse before the rope can safely be taken off Porto Rico's collar. She can't run alone until enough of the natives have been educated in American ideas to make the American Porto Rico element the majority. At present the Rivera faction, Spanish in all its methods and principles in spite of all its professions to the contrary, would soon gain control.

"This is a fine country, and with good roads and schools will be a prosperous one. The reports about disturbances are all bosh, but there are much financial depression and actual suffering. It seems to me that the currency 2; Gal. vi, 9; Eph. v. 15-21; Col. iv. ought to be changed at once. You can- 5, 6; Rev. x, 5, 6. not get the idea out of the heads of these people-and you couldn't if present conditions were to continue for years-that the United States is to redeem at par the Porto Rican currency, whose official ratio is 60. The result is money hoarded, no investments, no purchasers for crops, no business. Of course the tariff uncertainty aggravates this state of affairs."-New York Trib-

### SIGNING OF THE PROTOCOL.

Chartran Is Painting This Historical Event In the Late War.

The signing of the peace protocol between the United States and Spain on Ang. 12, 1898, is being painted in oil by Theobald Chartran, the famous artist of Paris, now in Washington as the guest e Embassador Cambon.

President McKinley has given the artist several sittings, posing in the position he occupied by the table in the cabinet room when the signatures were affixed. Embassador Cambon and others who composed the party have also posed. Judge Day will give such sittings as

may be required. Others who were present at the signing and who will appear in the picture are Assistant Secretaries Moore, Adee and Cridler, of the state department: Assistant Secretary Cortelyou, Executive Clerk Pruden, Chief Telegrapher Montgomery of the executive mansion and Secretary Thibaut of the French embassy. - New York World.

### Vaccination Teas.

Mrs. Bray, the wife of Mr. R. M Bray, Q. C., of Manor House, Shere England, in order to encourage young persons and children to be vaccinated, proposes to give a tea and entertainment in her grounds in August to all girls above 12 years and to all boys between probably be a couple of pictures on the the ages of 12 and 14 who are vacciwalls, and these will be painted by nated for the second time this year and to young children above the age of 5 who are vaccinated for the first time this year. - London City Press.

### Lightning Rod Slide to Matrimony.

Miss Delia H. Johnson and Charles A. Boyd were married at Chattanooga the other afternoon, after the bride's daylight escape down a lightning rod from a female seminary at Sewanee, bride's father and a big brother armed with shotguns and vowing vengeance on Boyd. - Baltimore Sun.

Promette "Miss Mary, are you sorry that your

sister Evelyn is married?" "No, it advances me one number." CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 30-Comment by Rev. S. H. Doyle. TOPIC.-How shall we divide our time?-Eccl. iii, 1-15.

The proper use of cur time is one of the most important duties of life. It is a gift of God which once gone never returns. Our success in life depends upon our ability to properly divide and properly use the time which God allots to us. In these days, when the demands upon the time of those who are active and industrious are so multitudinous, the question of the proper dividing of time becomes all the more important. Alfred the Great of England divided his day into three periods of eight hours each—one period for work, a second for recreation and the third for sleep. Thus he accomplished much in life.

The wise man in the topical refer > teaches us that God has set a time for all things. The changes that are going on in life are constant, and yet nothing is done haphazardly or without system. There is a time for every work of God. and each comes in its season. If God finds it necessary in order to carry out His purposes in life to have a time and a season for everything, how much complish the purpose for which God made us we must have a time for the duties of life and perform them at their Just how each one is to divide his

time is a question that he only can decide. But there are certain principles which should have due influence upon all in the use of time. 1. We should use our time in conformity to the will of God. Time is a precious gift of God that should be consecrated to Him, just as we consecrate our money or our talents to Him. 2. In the division and use of our time ample provision should be made for all religious duties and devotions. The spiritual is often neglected for the material and sacrificed for that which is of less importance. Many who allot sufficient time each day for the feeding of the body make no provision for the soul, yet it is just as necessary that the soul should be fed as the body. 8. We should divide and use our time in the light of eternity in view of the fact that time will some time end and we shall be called upon to render an account for the use we have made of it. We should strive to use each moment, hour and day of our lives as we shall wish we had used them when the end of our time here comes. No better motto or rule for the proper division and use of time could be suggested than

In the house of commons at London

the other day Lord Charles Beresford

"The German admiral at Wei-Hai-Wei made a remarakble statement to me. He said, 'The Russians are busy building docks at Port Arthur, the Germans are laying out parade grounds at Kiao-Chou, and the English are laying out cricket grounds at Wei-Hai-Wei.' -Special Cable to New York Sun.

Cyclone Blew Steeple Through Roof.

The wind went off on a cyclone spree down in Selma, Ala., the other day, and after culling off the steeple of the Methodist church with one twist it turned the tower upside down and drove it through the church roof as a cross child might stick a pin through a card. There were three persons standing in the church as the steeple crashed through the roof to the floor, but fortunately no one was hurt.

"Play Ball!" Let wars and politics and stocks And other themes give way For there's a greater subject now-The baseball opening day. Across the land is heard a cry That thrills us one and all, For on the diamond, where's he's king, The umpire shouts, "Play ball!"

'Tis now the happy day for which The cranks so long have yearned, Event to which through wintry months Their thoughts so often turned. Along the bleachers as of yore The faithful rooters roost, And to each player in the team They give emphatic boost.

The poles on which are strung the wires Of telegraph or phone Are nimbly mounted and with weight Of human burdens groan. To every knothole in the fence An eye is tightly glued, And oft the owner of that eye By pals is interviewed.

And now the batter takes his place, While deafening plaudits ring, And now he draws the willow back, And now he lets 'er swing. A smash-a ball in rapid flight-A wild, approving shout, And then a painful silence reigns, Because the batter's out.

And now a slashing hit is made, And rooters jubilate, Then groan because the runner's nipped By catcher at the plate. Another smash, a rush round bags, A run the hero scores, Then proudly doffs his cap amid A storm of cheers and roars.

Thrice happy day that thus brings back The joys of summers gone! Let all the populace rejoice, For now the season's on. Upon each other's necks the cranks And faithful rooters fall And now agree that life is worth The living, after all. -Pittsburg Chronicle-Telegraph.

## THE EAST END.

## HE ONCE TAUGHT MUSIC

Martin Elliott Has Not For- splendid Achievement at the United gotten the Art.

ALLEN FORGOT TO PURCHASE

The Machinery He Told His Associates of the Brick Company He Had Bought For the East End Plant-Congregation Will Not Move-That Main Lowered.

It is not generally known that Martin Elliott was at one time a music teacher of no small repute.

During 1863 and 1864 he taught classes in music in East End, Calcutta and Ohio township in Beaver county. For his services he received about \$18 per week, and the violin he used in doing this work is still in his possession. When the Second U. P. church was built in St. George street in 1885, the trustees asked him to form a class in music which he did and many persons who are noted for their singing received instruction from Mr. Elliott. He quit teaching in 1886, but since that time has entertained friends at his home by playing selections on what he terms "my old fiddle."

### Don't Like East End.

Very few peddlers are now seen about the East End. Last Wednesday one of these merchants came to the city and went from house to house showing his wares. Yesterday he told a reporter that in all his experience he never struck a place where the people were so loath to buy from a peddler as they were in the East End. It is not often one of these chaps come along, but when they do they generally do a poor busi-

### Allen Failed to Order.

When Alex Johnson succeeds in organizing a company to run the brick works he will install a small amount of not have food in the house and the famnew machinery. Mr. Allen, it is now ily were in destitute circumstances. learned, never ordered any machinery from any of the concerns with whom as to where she lived, but she said she he claimed he dealt, but the people connected with the plant never knew this referred her to the township trustees fact.

### Roadway Almost Done.

The roadway now being constructed over the culvert in Pennsylvania avenue | been near the trustees. will be completed within a few days. The iron griders have been placed in position by Street Commissioner Finley, and when the last board is fastened the culvert will have been completed. The culvert has been over six months in construction.

### New Storerooms.

will be completed within a few days. as an ice cream parlor, which will probably be the only one in that section. The furnishings for this place, it is said, will be unusually neat.

### Interesting Services.

The services at the mission at Neville institute tomorrow afternoon under the auspices of the Second M. E. church give promise of being very interesting. Some special features have been arranged during the week by the officers of the school. The music will be made a leading feature.

### Will Vacate the Church.

At a meeting of the board of trustees of the Second M. E. church held last evening, it was decided to generally improve the church in every particular. The contract for the painting was let. During the work of the improvement services will be held in the church as usual.

### Completed In May.

new pottery being erected by the Laughlin China company until the contractors complete their present contract at the completed rapidly and by the middle of May it will probably be completed.

### Improving Chamber's Building.

Many improvements are now being made on the Chamber building in not to rip, at First avenue. The work will be completed within a few weeks.

### Sold a Farm.

Frank L. Riley has sold his farm near No. 9 school house to William H. Smith, the transfer being made yesterday. Consideration \$1,500.

Main Is Down.

in Pennsylvania avenue thereby placing it under the bed of the culvert was completed this afternoon. When the street is paved it will present as good an appearance as any in the city.

OHIO ELECTRIC COMPANY.

States Pottery.

The new plant of the United States Pottery company, of Wellsville, will soon be a working factor in this section, as they are about to begin operations in full. They are firing their saggar kiln, and by next week perhaps the entire plant will be on. While the plant is complete in every detail, we cannot pass without speaking further on their electrical department. The plant was placed by the Ohio Electric company, of this city. It consists of one high grade multipolar generator made by the Akron Electrical Manufacturing company, with a finely polished marble switch board, with all the modern improvements necessary for a complete plant. J. A. Swaney, the genial manager and superintendent of the Ohio Electric company, is thoroughly qualified to fill the duties of his important position. He holds certificates from the Middle division and the West Virginia inspectors; has operated in Denver, Colorado Springs, Georgetown and Gunnison, Col.; Pittsburg, Bryettston, Beaver and Beaver Falls, Pa. In his seven years' experience he has placed over 8,000 lights, and being thoroughly alive to the needs of installation management, he has met with unvaried success. In consequence the Ohio Electric company has a reputation second to none for turning out high grade work, and where nothing but the very best of material is used, thus insuring first-class work in all branches of electrical science.

### WANTED A DOLLAR,

But the Young Man Had Heard of the Game.

A poorly dressed but prepossessing woman stopped a well known young man at the corner of Kossuth street and Broadway last night, and asked him for a dollar. She said that her mother did

The young man questioned her closely did not know the number. He then and went on his way. She thanked him and said she had not thought of them. A few minutes later he saw her going down Broadway. She had not

### NEXT WEEK

Will the Sewer Pipe Trust Be Completed.

A dispatch from Akron has this of the sewer pipe trust:

"The big sewer pipe combination is a certainty. Frank M. Atterholt of this oity, who has been the chief engineer The new buildings being erected in of the deal, returned to Akron from Mulberry street by Frank Alabaugh New York today and states that on next Thursday it will be entirely closed. The One of the storerooms will be occupied combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000. The officers of the trust will be located eitner in Pittsburg or Cleveland."

### RUSHED WITH ORDERS.

Potteries Need All the Ware They Can Make.

The potteries are rushed with orders, and can take care of the ware they can turn out. Buyers are anxious for immediate shipment, and a large num-

ber of cars have been sent out this week. Trade in the west and south is reported as being particularly good this season, and much of the city's product has gone in that direction. Some decorating shops are working at night to meet the demand.

### COMING HOME.

Professor Cooper Will Arrive Here Next Wednesday

A letter from Prof. J. F. Cooper says that he will leave Denver for East Liv-No brick work will be done on the erpool this week, and arrive here next Wednesday.

He has been wonderfully improved by his stay in the west, and believes he Salem pottery. The stone work is being is now stronger than ever. Mr. Cooper was very ill when he left the city a few months ago.

### TONS OF COUNTERFEITS

Plans of the Gang Recently Arrested In Philadelphia.

BOLDEST EVER KNOWN TO BE TRIED

They Included Running of a Paper Mill to Supply the Gang-Nine Tons of Internal Revenue Stamp Paper Found-Bogus Money and Stamps Were to Be Made.

Government officials in Philadelphia all say that the conspiracy of the two alleged counterfeiters, Arthur Taylor and Baldwin S. Bredell of Philadelphia, who are charged with having made the plates from which were printed the spurious \$100 silver certificate, is the most dangerous to the monetary system of this country that has ever been attempted and that had the discovery not been made when it was the counterfeiters in a short time would have had in operation a paper making plant, by which they would have been enabled to make the paper for notes so nearly like that made by the government that the notes could not have been distinguished. They already had enough paper to make notes to the value of \$9,000,000.

The story of this most remarkable attempt to defraud the government by counterfeiting includes the arrest of a partnership of five criminals, the seizure of the face and back plates of the \$100 silver certificate, which has so long worried and troubled the treasury, the face and back plates of an Everett head \$50 silver certificate the partly finished face and back plates of a \$100 Lincoln head treasury note, the unfinished face and back plates of a \$20 silver certificate and three 10 cent 50 cigar internal revenue stamp plates. It also shows how the conspirators were about to get into the manufacture of paper like that used by the government in printing treasury

CHIEF JOHN E. WILKIR.

and bank notes. It shows that the criminals had on hand nine tons of water marked internal revenue paper, all counterfeited, and more, in bulk and vol ume, than the stock of similar paper kept on hand by the bureau of printing and engraving at Washington and sufficient to have printed 25,000,000 stamps. Remarkable to say, all the conspirators are young men, the cldest be ing not over 38. Had the plan to mann facture paper for the notes succeeded. the excellence of the engraving was such that it would have been almost incapa ble of detection.

Speaking of the case the other day, Chief Wilkie said that more than a year ago, when the counterfelt was first discovered, treasury experts differed as to the way it was made. He finally determined that it was a combination of photo etching and hand engraving, and he set to work to watch men who did that sort of work. In Philadelphia, New York and Chicago capable men were put to work, the man in this city being William J. Burns, one of the most astute men in the secret service. About April 1 it was learned that Taylor & Bredell were at work on something that they were endeavoring to conceal, and they were watched closely. The force here was largely increased, and men were set to follow them all the time. The arrest was made at the firm's office on Tuesday, April 18.

"We took them into the private office. 888 Filbert street," he said, "and found in their desks the material described. We held them there, preferring to keep the arrests secret as long as we could. The other day was the first they had been out. The evening they were caught Burns, Griffin and Murphy went to Lancaster and direct to the factory, 212 Queen street, where they spent the night waiting. Burns, the watcher for the conspirators, was the first to arrive and was arrested.

"Kendig, one of the gang there, came later and was handcuffed to one of the officers. From him we got the keys to the only locked place in the building. It was simply a fine partition inclosing a space about 15 feet square, with a Yale lock. In there we found a D plate press. Lying on the bed of the press was a fine stamp plate of full size, with 10 cent 50 cigar stamps on it. We expected this, because Mr. Jacobs, another of the men in Lancaster, had not been buying enough stamps. In fact, he had only bought 2,500 stamps in two years

the face of the press being the size or a printed seal, there were under pressure about 3,000 sheets of stamps. On a box in another corner were a number of wetting cloths and about 1,000 sheets of counterfeit revenue paper.

"On the same floor in 37 tobacco cases we found about one-third of a ton of the paper bearing the distinctive mark of the revenue service. This paper, we learned, had been made over five years ago, and we learned that the man who made it is dead, fortunately for him. This left us to reckon with Jacobs. Officers Burns and S. A. Donella of Omaha district went to his office, but he was very busy, and they could not see him. Finally they forced their way to him, arrested him and seized the factory. We found a large supply of stamps in drawers accessible to clerks who stamped the boxes. These were placed in the drawer each morning by Jacobs. He brought them over in packages once a week from Kendig's office. There are 48 of the counterfeit silver certificates in my office in Washington, and I am confident that less than \$10.-000 of these were printed.

"Now as to the arrest of Mr. Newitt. He is a man who knew and realized the peril of the enterprise in which he was engaged. He is, moreover, a man who believes that every man has his price. In February last he conceived the idea of protecting himself by arranging to secure inside information through Secret Service Agent McManus. I witnessed two interviews and a number of meetings between Mr. Newitt and Mc-Manus, and subsequent to each of these two interviews I was handed \$500 by McManus. I now have that money in my possession. We turned both factories in Lancaster over to Collector Hershey of the Ninth Pennsylvania district. They are forfeited to the government. Jacobs asserts that the value of his property and contents is \$40,000.

"At Kendig's factory we found two additional stamp plates, which had been worn out, and the front and back plates of the celebrated \$100 silver certificate, seal and numbering machine."-Philadelphia Dispatch.

### OLD TELEGRAPH TO GO.

Marconi System May Soon Be In General Use.

Experiments made during the past few days at Notre Dame university, South Bend, Ind., have convinced Professor Jerome J. Green that the Marconi system of telegraphy will be in general use at no distant date. Professor Green is in charge of the department of physics and electrical engineering at Notre Dame, and has devoted much time to experiments with wireless telegraphy Tests from one building to another on the campus were tried with remarkable success. They were obtained by the use of apparatus constructed in the labora tory of the college.

The equipment, as arranged by Pro fessor Green, consists of an induction coil, to which is affixed a vertical charged wire and a similar one is con nected with the earth at the point of sending. At the receiving station is the coherer, which consists of a small glass tube with insertions of brass metal at each end. The space between the metals contains filings of silver and nickel. A high resistance relay and a sounder are also at the receiving station.

These two instruments are exactly the same as are used in the ordinary telegraph office, thus making it possi ble for the operator who is capable of receiving messages over the wires to perform the same work with the new discovery. At the sending station there is, instead of the ordinary keyboard, a simple lever, which works like a pump handle. As dots and dashes are measured by the manner of pressing the key un der the present system, they are indicated by the new in the distance this lever is pushed down or raised. At the tip of the vertical wire is a brass sphere, and from this the sound waves go out in every direction, unless reflectors are used to compel the message to go out like rays from a searchlight. The receiver intended to take a message is tuned to the same point of synchronism as the machine which sends the message.

"There may be dozens of instruments," explained Professor Green, "from which messages are being transmitted at the same time, and unless the receivers are tuned to the exact synchronism of the instrument at the point of sending one will not interfere with the other, and each instrument wil take only the message intended for it. Special Philadelphia Press.

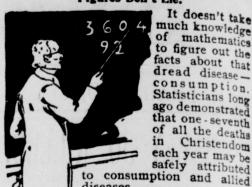

Cage Gibbet Find In Virginia.

Three colored laborers in the employ of Henry Warden at the Bernard farm near Fredericksburg, Va., the other morning unearthed an uncanny relic in the shape of an iron cage constructed as nearly like the human body as possi ble. It had a headpiece, on the top of which was a ring, a body piece and arm and leg pieces. With it were found most of a skull, well preserved, the jawbones, with several teeth, and the bones of the legs, arms and hips. This is the second "cage gibbet" find that has been made in that section of the state. - Atlanta Constitution.

### Delicate and Deferential.

Our government has been informed that Spain intends to make her repre sentative to the United States an em bassador. This is another pleasing indi cation that the war is over.—Boston THE NEWS REVIEW

much knowledge of mathematics to figure out the facts about that dread disease consumption. Statisticians long ago demonstrated that one - seventh of all the deaths in Christendom each year may be

It doesn't take

There is an almost certain cure and a positive prevent. ive for this fatal disease if taken in time. The story of what it will do is told in the following letter:

"About two and a half years ago, when I was at Flat Lick, Ky.," writes J. W. Jordan, Esq., of Corbin, Whitley Co., Ky., "I was taken with severe pains in the chest, after which I began to spit up blood and was also troubled with nightspit up blood and was also troubled with nightsweats. I was so short winded that I could
hardly walk half a mile at once, and if I got the
least bit wearied, I would have an attack of
phthisic (asthma) and almost die for about two
or three days. I concluded to try Dr. R. V.
Pierce, and I related my case to him. He wrote
me that I should take his 'Golden Medical Discovery.' I began using it and used about six
bottles. I began to see that it was helping me,
so concluded to continue its use. I did so and
have improved both in strength and in weight,
I have not had the phthisic, nor spit up any
blood since last spring.''

This great remedy—Dr. Pierce's Colden

This great remedy-Dr. Pierce's Golden Medical Discovery-cures 98 per cent. of all laryngial, bronchial, throat and kindred affections which, if neglected lead up to consumption. It strengthens the stomach and makes the appetite keen and hearty. It invigorates the liver and aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect, It is the great blood - maker and flesh.

## CONVINCING PROOF

The Average East Liverpool Citi-

zen Must Accept the Fol-

ing Proof.

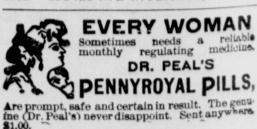

The great Sir Isaac Newton, one of the most profound reasoners the world ever produced, once cut a large hole in a board fence to allow a favorite cat access to two gardens, and cut a smaller hole to allow her kitten to follow her. The weakness manifested in Sir Isaac's action was due to want of thought. Any East Liverpool citizen who mentally debates the proof offered here about Doan's K dnev Pills and arrives at any other conclusion than that stated in this citizen's statement is as short of reasoning powers as the philosopher when he turned carpenter.

Mr Geo. Mount, of 165 Fourth street, teamster and dealer in coal, says: "For three years I had attacks of kidney complaint, some of them laying me up for two or three weeks at a time. The symptoms were pain in the back, particularly severe when stooping or moving around. Physicians called it lumbago, and advised by friends to use Doan's Kidney Pills, I procured two boxes at the W. & W. Pharmacy. They cured me."

Doan's Kidney Pills for sale by all dealers, Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y. Sole agents for the U.S. Remember the name Doan's and take no substitute.

### Mrs. Lake.

This eloquent platform orator, vice president of the Catholic Total Abstinance society of the United States, will deliver an address on MON-DAY EVENING, May 1, in the First M. E. church, East Liverpool. Admission free. Lecture will begin promptly at 8 o'clock. Attend early if you desire a good seat. Mrs. Lake has a national reputation as a speaker.

### LOCAL BREVITIES.

Lieutenant Robert T. Hall was in Pittsburg today on business.

S. B. Felt left this morning for Chicago where he will remain 10 days on business.

A car containing about 2000 fruit trees was received in the lower freight yards yesterday afternoon.

Fred Laufenberger has purchased the northeastern corner of Fourth and Jackson streets and will erect a handsome residence.

A large skiff loaded with nitro glycerine and floating the red flag passed this city yesterday afternoon going to the oilfields.

The Sunday school of the First U. P. church will pionic at Cascade park June 16. The First M. E. church has closed a date with the same park for June 27.

Mr. Baker, superintendent of the mail clerks of the Cleveland and Pittsburg division, spent last evening in East End the guest of his father. He left this morning for Pittsburg.

The township trustees have filed their report for last month, and it shows that they expended \$80.25 of the county funds and \$131.88 of the township money. Of the last amount about \$40 was spent on the roads.

A force of workmen today cleaned the yards about the outbound freight depot. Much rubbish had been allowed to collect during the month, and the yards were very unclean. The cleaning has added much to the appearance of the yards.

The train due in this city at 8 o'clock last evening did not arrive until 10:05 o'clock. The delay was caused by a wreck at Yellow Creek on the river division, caused by the breaking of an axle of a freight car. Traffic on both divisions was delayed as a result.

Architect Fritz left this morning for Beloit where he spent the day taking data for the purpose of drawing plans for the pottery to be erected by Sebring Bros. Engineer Kelly and Gardner Minehart, who have been there during the week, will arrive home this evening.

Constable Miller yesterday afternoon swore out a warrant for the arrest of H. S. Rinehart for resisting an officer in the pursuit of his duty. Rinehart plead not guilty in the court of Squire Rose and the case will be heard Wednesday. A like charge will be entered against Roy Rinehart.

The Messrs. Tyndall, of Pittsburg, with Engineer Bradford arrived in the city this morning, and went direct to to the Virginia side where they looked over the ground on which the new mill will be erected. The gentlemen stated matters were progressing very favorably, and work on the mill would be rushed with all haste possible.

Monday evening the warehouse women will hold a union meeting in Ferguson & Hill hall, and all the dressers and brushers are invited to attend. The meeting will convene at 7:30 o'clock. The warehouse women state that they have struck for \$1 a day and will not compromise upon being paid by the kiln.

Deputy Sheriff W. C. Supplee was in the city yesterday serving subpoenaes for the grand jury, but he only had a few. While here he served papers on Solicitor McGarry in the cases of Charles E. Swan versus the city for \$500, and William Ivers, administrator, versus the city for \$5,500 damages. The cases will be heard May 20 and May 27.

The summer schedule of the Cleveland Pittsburg road will probably be received in this city not later than May 15. There will be very few changes in the running time of passenger trains but the freight schedule may be altered considerably. The train due at this place at 12:15 will no doubt be put back on its old time 12:08.

## GEORGE FREED.

Many Congratulations to Her on Her Acquittal.

RECEIVED A THEATRICAL OFFER.

Five Hundred Dollars For a Week's Engagement-Also an Offer to Lecture, but She Declined-Crowd Cheered the Verdict-Going to Her Mother's.

CANTON, O., April 29 .- A verdict of 'not guilty" delivered to the court acquitted Mrs. Anna E. George of the murder of George D. Saxton and ended her seven months' confinement in jail. The verdict was reached after a trial of 22 days of actual sessions of court and after 223/4 hours of deliberation in the jury room. In less than an hour after the verdict had been announced congratulatory telegrams were received by Mrs. George from sympathizers in many quarters of the country. More of them were addressed to her attorneys and were congratulations on a professional

During the afternoon and last evening Mrs. George was kept busy receiving her friends.

A mighty cheer went up from the crowd in the courtroom when the ver-

dict was announced. The cheer was almost instantly taken up by the people who packed the streets. Mrs. George's face lit up with a smile as the words were spoken that made her a free woman. She was immediately surrounded by a great throng, who desired to congratulate her.

Mrs. George remained in the court for some time after the verdict was announced and acknowledging the congratulations of her friends. She then went to the Hotel Conrad in company with Mr. and Mrs. McElheny, her cousins, who has been with her during the trial, and lunched with them at the hotel. The jury was out about 23 hours and 45 minutes and during that time 22 ballots were cast. The interval between these ballots was spent in discussing the case's various phases.

After the jury reported it was said that the preliminary ballot was taken about a half an hour after they had been closeted in the jury room. ballot showed four favoring a verdict of guilty of murder in the first degree and eight jurymen for a verdict of not guilty, or acquittal. The second ballot resulted the same. This was also the result of the third ballot taken. The fourth ballot was said to have been two for guilty in the first degree and seven not guilty, one for second degree and two for manslaughter. The fifth ballot was taken with eight for not guilty aud four for manslaughter. This was the result of all the succeeding ballots up to the fourteenth.

The fifteenth ballot resulted in nine for not guilty and three for man-slaughter. The sixteenth ballot stood eight for not guilty, three for manslaughter and one for assault and battery. The twentieth ballot was taken showing 11 for not guilty and one for first degree murder.

The same result was obtained in the twenty-first ballot. The twenty-second and last ballot was a unanimous vote for not guilty.

A number of women friends and acquaintances called on Mrs. George in the parlor of the Conrad hotel. Juryman Miller was one of the callers and to him Mrs. George expressed her warmest thanks, saying she had known him as her staunch friend from the first.

Mrs. George in the course of an interview said in part:

"The verdict was what I had expected from the start. I am very grateful to the court and to the officials for the consideration they have shown me. I am also very thankful to the gentlemen who represented the press. I cannot find words to express my feelings towards my attorneys. Their work was beyond all praise. They left nothing undone in my behalf and I shall remember them and appreciate them as long as I live.'

Dinner merely interrupted the impromptu receptions at the Hotel Conrad parlors. This seemed a very pleasant diversion for Mrs. George, for she was a willing hostess.

Several of her relatives and a number of Canton women friends were with

Mrs. George. The party kept close to the hotel most of the time. Mrs. George said she would remain in Canton until Monday morning, when

she would start for her mother's home

at Hanoverton. All of the telegrams received by Mrs. George were not mere congratulations. One, it was announced, was from a theatrical company in Columbus, offering her \$500 for a week's engagement with the company. Another offer was for the same sum for a lecture in Pittsburg, on "Woman's Rights." One of her relatives, speaking for her, said both offers had been declined as would be all

PROJECTED SEWER PIPE COMBINE.

Great \$25,000,000 Trust Again Reported Nearing Completion.

such propositions.

AKRON, April 29 .- The big sewer pipe combination, which has been on the verge of consummation for the past three months, was announced as a certainity. Frank M. Atterholt, Esq., of this city, who has been the chief engineer of the deal, returned to Akron from New York and stated that on next Thursday it would be entirely closed up. The options on all the plants were ac-

The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000. \$20,000,000 of which will be issued half in preferred and half in common stock. The offices of the trust will be located

TRADE NOT SET BACK.

Trouble In Philippines and Samoa Ap parently Did Not Hurt Business. Iron and Wool Situations.

New York, April 29.-R. G. Dun & Co.'s weekly review of trade issued today said in part:

All elements consid ing that business has not been set back a little. The uncertainty about Samoa and the prolonging of difficulty in the Philippines might have counted for something, the rising imports and falling exports for some thing. the rise of foreign exchange by some at tributed to foreign sales of copper stocks and the hindrance of manufacturing orders owing to the recent advance in prices

But there has been great faith that foreign difficulties would soon be cleared away, and the movement in exchange is generally connected with speculative rather than legiti mate operations since accounts of trade still indicate a large increase of exports. After every rise in prices manufacturers have to consider whether hindered consumption wit increased production will make them difficult but confidence with which combinations are formed and extended still shows prevailing belief that no danger point is near.

The state of foreign trade justified confidence rather than apprehension. It is the season for the lowest exports of staples, and their prices this year are extremely low, but the unprecedented foreign demand for manu factured products so far compensates that the excess of exports in March was heavy

and apparently has been in April.

The presence of English merchants in Bos ton trying to sell English medium wool which could be delivered there at about 32 cents, a the same time that English buyers were tak ing a little fine territory for export and Ger man buyers 300.000 pounds more Australian from bond shows the opposite trend of popular taste in different countries.

Clay worsteds here have advanced 71/2 cents and serges 5 cents, which has given a stronger tone to whole market. Fine wool is relatively cheap here and dear abroad, but concession make the lowest prices of the year in all kinds as heavy stocks carried for years come into presence of new wool, said to be 300,000,000 pounds. Manufacturers are not now buying largely, though in four weeks 30,918,785 pounds were sold, of which 23,315.085 were domestic against 41,712,850 in the same week two years ago when wool was rising.

Without business Bessemer pig is unchanged at Pittsburg and Grey forge strong at \$14.50 though 16,000 tons southern have been sold here at \$14.20. There are some large struc tural orders, a Philadelphia building for 17,000 tons, a western bridge for 5,000, a Duluth elvator and St. Lawrence bridge at Quebec though the general run of orders in this line is light and in rails no large sales are re ported, though inquiries for 50,000 tons are said to be in this market.

Advanced prices are noted in pipe and in crease in merchants' orders with similar busi ness in sheets, and at the west in bars, pend ing the completion of the combination. But the general decrease in new demand raise the question whether prices will be main tained after current orders are run out.

Failures for the week have been 184 in the United States, against 262; last year, and 23 in Canada, against 16 last year.

### For Chaplain Hunter's Parsonage.

PITTSBURG, April 29.—The movement to build a parsonage at Jamestown, Pa. for Rev. Joseph L. Hunter, pastor of the lecal Presbyterian church, and at pres ent serving in the Philippides as chaplain of the Tenth Pennsylvania regiment, is being pushed vigorously by the young ladies of the congregation who have taken charge of the matter. More than 1,000 coupon letters have been sent out and all friends of the chaplain and of the regiment are asked to make an offering for the purpose indicated.

Extremely Extraordinary are the Cures Daily Being Performed by the Boy Phenomenon.

Whose Marvelous Powers In Healing the Sick Has Been a Source of Wonder and Astonishment to All-His Parlors at the Thompson Hotel Daily Thronged With Patrons From All Parts of the State.

The remarkable advancement by the Boy Phenomenon in the science of magnetic healing continues to attract crowds of anxious and afflicted people. His wonderful success has spread like wildfire among those who had given up all hope of ever being well again, and they are, by hundreds, availing themselves of this miraculous power and gift of healing, which has proven to be the surest, quickest and most reliable means of cure ever offered a long suffering public. There is no kind or variety of diseases

There is no kind or variety of diseases which is not cured by this gifted magnetic healer. Every name, nature and condition of disease, that all other physicians have given up as incurable, seem but as play to him, for he is so strongly endowed by nature with such a great magnetic power that he is able to break up congestion and cure most obstinate chronic diseases sometimes with only a single treatment.

His patients are numbered among all classes of people, the rich and the poor, the educated and the ignorant, the intelligent and refined. People with the most profound reason have given up their prejudices, been convinced and are now profiting by what they have seen and know to be facts. Having thoroughly realized the folly of waiting and suffering weeks, months and even years with disease which could as well be cured in a day, reason and judgment, in place of experiment and theory, have taken the helm and guided them to the invincible power of magnetic healing, which is the active principle of all life, action and health giving

The most astonishing and truly remarkable cures which he absolutely performs in public, and the great number he is treating daily at his private parlors, speak louder and more convincing than words of the mysterious skill he possesses. His cures are certainly as lasting as they are miraculous, and were they performed at any previous period of the world's history, they would surely be considered miracles indeed.

To see and know positively that this boy is of a verity, curing all manner of ailments simply by laying on of hands, and that in the most incredible short space of time, is creating an exciting episode in the city. Almost every train coming to East Liverpool brings some poor suffering, afflicted man or woman to him, and to witness the delight of these to him, and to witness the delight of these people as they return to their homes, renewed beings in the possession of new life, health and energy, is certainly the opportunity of a lifetime, and is profoundly appreciated and widely commended by an intelligent public. While he will remain in East Liverpool at the Thompson Hotel two weeks longer, no new cases will be taken for treatment after next week, therefore those who wish treatment must apply before the end of next week.

Greeted With Cheers on Reaching the Hotel-Speech to Raleigh's Men.

NEW YORK, April 29.—Cheers and the waving of hats greeted President McKinley, Mrs. McKinley and their party when they reached the Manhattan hotel about 5:30 last night.

The party consisted of President and Mrs. McKinley, Mr. and Mrs. Abner McKinley, Secretary of the Navy and Mrs. Long, Secretary of the Treasury Gage, Brigadier General Fred D. Grant and Mrs. Grant, George B. Cortelyou, acting private secretary to the president; Captain S. S. Saxton, Dr. P. M. Rihey, surgeon U. S. N. A number of policemen guarded the entrance to the hotel and kept back the crowd.

PHILADELPHIA, April 29.—When the president ank party reached the cruiser Raleigh, Friday, a national salute was

Accompanied by Captain Coghlan, the president proceeded to the cabin of the cruiser, where he held an informal reception. He was then escorted to the lower deck, on which the sailors were

lined up for inspection.
Captain Coghlan introduced the men of the ship.

After passing before them with bared head, Mr. McKinley addressed the men

'Captain Coghlan and the men of the Raleigh—It gives me very great pleasure to bid you welcome here to congratulate you and each one of you on the heroic part you played in the great battle on the first of May at Manila, which was a most glorious triumph of the American arms, and made a new and glorious page in American history.

"I assure you that when I give you welcome I am only speaking the heart's welcome of 75,000,000 American citizens who honor you all for your splendid services to our country.

"This feeling not only extends to your great admiral, whom we all love and honor, but to the humblest member of the crew who who was in that great fleet at Manila bay.

"1 give you all a warm and generous welcome and my thanks."
Secretary of the Navy Long then ad-

dressed the sailors.

The sailors then gave three cheers for the president of the United States and three for the secretary of the navy. This was followed by the ship's yell:

Who are we? Can't you see?

We are members of the new navee.

Rah! Rah! Rah! Raleigh! The president then shook hands with the various officers of the cruiser and spoke a pleasant word for each. Then, with the ladies of the party, the president made a tour of inspection of the warship. He examined the big gun on the starboard side which spoke first in the battle at Manila.

A general handshaking concluded the visit and the presidential party returned to the tug. A flying visit was made to Cramps' shipyard, where the battleship Alabama, in course of construction, was inspected. Later the party returned.

PHILADELPHIA, April 29.—Upon receiving from Washington the dispatches of General Otis. President McKinley lations and thanks to the soldiers in the Philippines:

"PHILADELPHIA, April 28 To Otis, Manila:

"Your message announcing the achievements of MacArthur's division and the proposal by the insurgents of suspension of hostilities most gratifying. Convey to officers and men heartfelt congratulations and gratitude for their signal gallantry and triumph. "WILLIAM MCKINLEY."

Fishes Frozen In the Ice.

It was discovered at Cheyenne, Wy .. that the waters of Lake Minnehaha, which forms part of one of the Cheyenne city parks, froze solid in many sum of one hundred dollars for each and parts of the lake during the past winter. The lake was stocked two years ago with bass and pike, and thousands of these fish, many of them from 12 to 18 inches long, have been frozen solid in the ice. On account of the great quantity of dead fish the lake will have to be cleaned out.—Denver Republican.

Beef Report Today.

WASHINGTON, April 29.—Colonel Davis announced that the beef court report would be delivered today.

## PRESIDENT IN NEW YORK. ANECDOTES ABOUT QUAY

Interesting Incidents In the Noted Statesman's Career.

AN INSTANCE OF HIS SHREWDNESS.

How He Engineered a Knife Deal When a Boy With a Future Pennsylvania Judge-Story of How an Awkward Guest's Allegiance Was Cemented to Quay Forever.

Matthew S. Quay, who has just been appointed United States senator from Pennsylvania by Governor Stone, at an early age gave signs of the keen judgment of situations and willingness to take desperate risks which have characterized his politics since.

When he was 6 years old, as he tells the story, his father one day brought home to Dillsburg a little pocket Bible and a tin sword with a brilliant red hilt. In order to test the bent of the child's mind he gave him his choice. He wanted the sword, and he wanted the book. He had a little sister who would probably get the Bible if he chose the sword; but, as he figured out the situation, a girl could have no use for a martial weapon, and if he chose the Bible there was more than a fighting chance that his father, well pleased, would throw in the sword. So the young politician reached out his hand piously for the book, while his heart went out toward the sword. He got both, just as he had foreseen.

Students of Quay's character say his career has been due, first, to the fact that he always sticks to his friends, and, second, that he knows the power of money. He early showed the shrewdness which has marked his political life, as the following story proves:

"Judge Harry White of Indiana county, Pa., is conspicuous among the workers for the re-election of United States Senator Quay," said an ex-member of the Pennsylvania legislature to a New York Sun reporter, "and this in spite of the way Quay traded knives with him when they were boys together, going to school in western Pennsylvania. Judge White is about the last of the old school of politicians in that state who is still prominent and influential among the Republican leaders. He was a smart boy, but not quite so smart as Matt Quay. There never was a sharper, more mischievous, successful, schemer as a boy than Matt was. He was continually cutting up pranks that no other boy would ever think of. He was always looking for a dicker of some kind, and he never traded a knife or a one of the mountain districts. The tahandful of marbles or anything else ble was set with beautiful and costly that he didn't get the better of the boy | china-Senator Quay is a great collecthe traded with, no matter how much the advantage seemed to lie with the and broke a dainty cup. To cover his latter in the preliminary negotiations. But the transaction in the matter of a similar cup in her hand. the knife trade with Harry White was a little ahead of any deal he ever made she said. "I can crush it in my fingers." in those halcyon days.

"Matt had a jackknife that was the envy of all the boys. It had a buckhorn handle, and I don't know how many blades and files and other implements dear to the boy heart. This knife was particularly coveted by Harry White, and he made all sorts of offers to Matt for a trade, one of which included a knife he owned, a dozen marbles, a ball of twine and a tin squirt gun, but Matt persistently declined to make a dicker. One day, though, much to the surprise and joy of Harry, Matt brought up the matter of a deal for his knife and suggested that he might be induced to swap for something.

"'I haven't got my knife with me, though,' said the future statesman, 'and if we strike up a bargain you will have to go after it.

" 'All right,' said Harry, too much pleased to ask any questions. 'How will

" 'Well,' replied Matt, 'if you will give me your knife, the marbles, the twine and the squirt gun and throw in that horsehair fishline of yours, I'll call

" 'I'll do it!' exclaimed Harry, and he produced the articles Matt had mentioned and handed them over. 'I'll go up to your house and get the knife.'

"Mat stowed Harry's knife and the other things in his pockets and said: "'You needn't go up to our house after the knife. It ain't there.'

"'Where'll I go after it, then?" ask-

"''Up to the tannery,' replied Matt. 'I was fooling around there this morning and dropped my knife in the old vat. Me and some o' the boys fished two hours for it and couldn't find it. But it's there. Go up to the tannery and maybe you can get it.'

"Harry kicked like a steer, but there wasn't any use. He never found Matt Quay's knife, and it's in that vat yet for all anybody knows. But Quay has stuck by Harry White during all his political career, and Harry White is sticking to Quay in spite of that disastrous deal.

In after years Mrs. Quay often showed herself as adroit a politician as her husband. He had a wide acquaintance among the politicians of Pennsylvania and often entertained them at his house. One day he brought home to dinner an

Ohio divides the honors with Kansas Colonel Funston was born in this state.

IF Grover Cleveland is made professor of politics at Princeton and he understands his duties to be the teaching of ring politics, its ins, outs and profits, the arrangement will probably be a success.

THERE will be about one dozen disappointed gentlemen in Ohio the minute after the convention selects a candidate for governor. It is probable some of them are anticipating that disappointment.

WHEN thinking of candidates for gov ernor. Jones, of Youngstown, should not be confounded with Jones of Toledo. The first was a good soldier and has always been a strong Republican, while the recommendation of the other is a banch of vagaries such as few men are charged with possessing.

### THE CADETSHIP.

Congressman Tayler has prepared to send some good boy, sound in limb and brain, to West Point, as a representative of the Eighteenth district. It is not a matter of politics or favoritism, and the best one must win. Why should not East Liverpool have that representative? There are certainly a sufficient number of intelligent boys in the city from which one can be selected who will stand above all competitors. East Liverpool should have a representative in the army, and the News Review be lieves the right stuff is here. Will the young man appear for examination?

### "COLLUSION."

Yes, it is a mighty word. One of the mightiest ever heard: Chilling the blood of doughty men, Handling quill, or pencil, or pen;

Rendering hot a temper cold, Rousing a councilman, brave and bold,

Causing his wrath to ebb and flow. Setting his pulse aglow you know, Until it mounted unto his brain,

And even reached slow-moving Cain : And then-the council adjourned in

And swept the papers from its path, Then Marshalled their forces-ont for

And nipped the bidders in the bud. PEGEE COOLEY.

Exchange Block, Fifth Street.

We desire it to be distinctly understood that ladies will not be expected to purchase a Corset after a fitting is made, unless they so desire.

Her Majesty's Corset is not the Cheapest, but the Best.

Her Majesty's Corset in fit, wear and comfort is unsurpassed.

Mr. Marshall Seems to Have Found an Idea

REGARDING THE CITY'S PAPERS

Council at Its Meeting Last Night Did Not Give Out the Printing For the Year Because It Claimed There Were no Bids. Some Talk of the Sewer.

The special meeting of council held last evening was not a success, as the members failed to transact the business for which it was called.

It was 8:20 o'clock when President Peach called the meeting to order, and Mr. Ashbaugh was the only member absent. Mr. Peach stated that the meeting had been called for the purpose of considering the public printing and the mayor's appointments, but that the mayor had seen fit to not submit his appointments. They had been with Clerk Hanley, but the mayor had taken them away for some reason.

The printing question came first and Captain Palmer, with permission, withdrew a bid he had given to the clerk, and in behalf of the local papers stated that they were willing to print the city's matter in all papers at one-third the legal price for each, believing that it was the fairest proposition that could be

President Peach asked Clerk Hanley if he had any bids, and the clerk replied that he had not.

Mr. Smith said that a motion to award the contract to the lowest bidder had been carried, and as council had received no bids there was no further action to be taken on the question.

Mr. Peach asked if there was any person present to tender a bid for the city printing, and as no one made reply he said it would be a hard matter to decide. Mr. McHenry said he thought the matter bad been left in the hands of the finance committee and the body of council had nothing to do with it. He said it didn't know whether it was customary to advertise for bids. Mr. Peach said the object was to try and settle the matter, and it was thought best to let council act.

Mr. Smith moved that council ad-

journ and the motion was seconded by Mr. Seckerson. Mr. Cain wanted to the saloon. We stood two or three feet alk about Tanyard run sewer, and from the window when we looked in. thought council should build a portion don't believe I ever heard a disturbance of the storm water sewer. Mr. Marshall in the saloon of Joseph W. Geon, and thought it was a poor idea, as it would his reputation as a law abiding citizen is seriously hamper the building of the good.' sanitary sewer in district No. 2. Mr. McHenry said the sanitary sewer should be built, but didn't know anything about the storm water sewer. Engineer to confer with the sewer commissioners, but the matter was finally disposed of without action being taken.

The proprietors of the newspapers retired, and in a few minutes returned with a bid offering to do the printing for one-third the legal rate. Mr. Cain said it looked to him like a joint affair, and the papers must have misunderstood | me and we couldn't see in at all." council, who wanted the lowest bidder to get the printing.

over the printing bids. Suddenly Mr. Marshall, who has become a legal (?) advisor of no small ability, began to talk about a collusion of bidders, and in accordance with his usual advice to council, thought the solicitor should commence an action against the newspapers. He was the only member who could see the "collusion," but the matter will be further investigated in an endeavor to discover what point the talkative mem- have lived here 22 years and have known ber from the First ward was endeavoring to reach. Mr. Cain was in favor of am bartender for Geon. I remember printing handbills, but nobody else had thought of the plan, and after talking some time the members went home.

### PROSPECTS IN TRENTON.

Trade Is Better and a Few Potteries Are Busy

In reviewing conditions at Trenton the Crockery Journal says:

"Business has improved to an appreciable extent since our last report. There has been a better inquiry by mail, and the men on the road are doing more. One or two potteries are quite busy, and there is a feeling that trade will pick up and keep on improving. A big fall business is anticipated."

Our men's suit sale at \$10 is what interests many buyers. At Joseph Bros. these suits are exceptional values. You see other stores ask from \$12 to \$15 for the same suit.

# GEON DECLARED GUILTY

For Breaking the Recently Enacted Screen Law.

CLARK FILED A MOTION

Wanting the Decision Thrown Out For Several Reasons-Officers Testified That a Blind Hung Over the Glass In the Door and That Shutters Were Closed.

The case of the city against Joseph W. Geon for violating the screen ordinance was called yesterday afternoon at

2:30 o'clock in police court. The first witness was Officer McMillan, but before he had offered his testimony Attorney Cook objected to any evidence being submitted under the affidavit for the reason that it was insufflcient, and the ordinance under which it was drawn was null and void. The objection was overruled and an excep-

Officer McMillan was permitted to testify and said: "I am an officer in East Liverpool. On the afternoon of April 9 I was in different parts of the city and was in the neighborhood of the Diamond and Summit lane. I went in the alley from Market street, and as I was going by Mr. Geon's place of business I noticed the shutters were closed and there was a blind on the glass door. There were no means by which the interior of the saloon could be seen, and I made an effort to look in. I thought I might be mistaken, and I went back the second time, but couldn't see in as the shutters and a blind over the door prevented it. I examined all three windows, but could not see in the saloon. There was no person with me when I made the first examination. Officer Whan was with me when I made the second. There was no change in the windows between my first and second examination."

The witness was subjected to a rigid cross-examination and said: "The shutters were all closed. They have slats in them and open on either side. If the slats open they were closed at this time, as you couldn't see any light hats at Joseph Bros.' More styles to in the saloon. I don't know whether any person was in the saloon. The bined. windows are not more than two or three feet from the ground, and the in the door would be a little higher than that. would be no trouble to see a man inside

Officer Whan was called and said: "I was at various places between 3 and 4 o'clock Sunday afternoon, April 9. I went through Summit lane, and found George wanted a committee appointed the shutters closed at Joseph W. Geon's saloon. I think there are two windows and one door into the barroom and a hall door. I don't know where the hall door The shutters were closed both above and below, shutting off all view of the interior. I made no attempt to look in the saloon, but looked at the windows. Officer McMillan was with

On cross-examination the witness said he did not go in the alley for the special Council then adjourned, but several purpose of looking at the windows, but of the members remained and looked that his attention was called to it by Officer McMillan, who said he didn't think the saloons were observing the screen ordinance very well. He said he stood within five or six feet of the windows, and they were four feet or more from the ground. He also testified that Mr. Geon was a law-abiding citizen.

This closed the case of the city, and the only witness called for the defense was S. C. Whittenberger who said: "I Joseph W. Geon almost all that time. I when the screen ordinance was passed he told Robert Spencer and myself to be careful and keep the screens open. We are the only ones about the bar. I left the place Saturday night and to my knowledge the screens were never closed. Mr. Geon's business is conducted in a law abiding way."

Solicitor McGarry subjected the witness to a very rigid cross examination and he said: "I have lived here 22 years and have been in the whisky business during that time. The shutters had not been closed Saturday evening, and I didn't touch them when I left. I was there on Sunday as I always have a lot of perishable goods to look after. I was there in the morning between 9 and 10 o'clock, and left about 11. I entered the saloon from the front door which leads into a hallway and on into the saloon. I came out the same way. I don't carry a key to the other door. I was attending some perishable cleaning and

are always burning the saloon. The upper shutters have never been closed since I have been there. My business is to tend to the windows. The shutters were on the windows before any screen ordinance came into effect. The lower shutters are always closed to prevent passersby from seeing in. The lower shutters were closed April 9, but the upper shut. ters were open. No other person has a key to the door I went in. Robert Spencer was in the saloon that Sunday, but I don't know where he was when I left. There was no blind on the door and never has been."

The attorneys each made short arguments in the case, and after delivering a short address Mayor Bough decided that J. W. Geon was guilty as charged, and he was sentenced to pay a fine of \$50 and costs and stand committed until the fine and costs were paid.

Attorney Clark at once made a motion to rest the judgment on the ground that the court had no legal right to try the case, as it was not in his jurisdiction. the affidavit being defective and the ordinance under which the defendant was arrested being null and void; that the finding of the court was against the evidence and law, and the court erred as the defendant did not waive the right to a jury trial.

The motion was taken under advise. ment by the mayor, and the case closed at 5:45 o'clock.

# COVERED WITH BLOOD

Was a Prisoner When Taken to City Hall.

LANGUAGE NOT OF THE BEST

Was Used When They Placed Him In Jail--A Walker Woman Complained of Trouble In Her Family, While a Third Street Man Paid For Being Disorderly.

Joseph Snape, of Walnut street, was arrested last evening at his home by Officers Bryan and McCullough and taken to jail in the patrol, where a charge of disorderly conduct was placed against him. This morning Mayor Bough fined him \$9 60 which he paid and was released. When Snape was brought to city hall his face was covered with blood, and he addressed the officers in language that might have been more choice as he was being put in cell. In the patrol wagon he acted very ngly, but to no avail.

William Brindley was another unfortunate who fell into the hands of the law last evening. He lives in Third street and was acting very disorderly at his home. Officer McMillan gathered him in at the instance of Chief Johnson, and this morning he pleaded guilty to a charge of disorderly conduct and paid a fine of \$9.60.

The case of Jack Allison that has been in court for several days will be disposed of this evening.

This morning Mrs. Martha Gould, living near the school house at Walker, called at city hall and stated she would like something done with her son who she claims has assaulted her on numerons occasions. The son and his wife have have been living in the same house and trouble has occurred frequently. As the the woman lives outside the city limits she was referred to Township Trustee Lloyd who will investigate the matter.

The case filed against the Reymann Brewing company last September remains unsettled. When the mayor was asked about the case this morning he refused to talk.

The Bagley and Moon cases are still pigeon holed and nothing can be learned as to when they will be disposed of.

### COUNCILMAN CAIN.

He Is the Warm Friend (?) of the Newspapers.

At council chamber last night, after adjournment, Councilman Cain said:

"To — with the newspapers."

By his ballot or vote in council, not long since, he virtually said:

"To - with the people of East Liverpool, the working men and working-

Councilman Cain is a bright and shining light. In case we deem it worth while, we shall enlighten the public respecting certain bills which have been presented to council and which Councilman Cain, in connection with other councilmen, should have been careful about sanctioning.

### PAINT THE STATION.

The City Should Be an Example For Its Citizens.

A prominent business man of the city the matter said :

almost six years ago, and I think the awarded. city authorities should see that the work the city property in first class condition and furnish an example of neatness to all citizens. In every city you will find that the board of education keeps the school houses in splendid condition, and I think council should follow their example."

### NEEDED IT.

Farmers Are Hoping There Will Be More

The rain of last night was appreciated and received with thankfulness by farmers of this section. Said one this

morning: "It has been a long time since crops in this county and vicinity have been so in need of rain, and much more would do a great deal of good and add thousands of dollars to the income of farmers this year."

### OFFICERS THERE

To View the Performance at the Opera House Last Night.

Last evening at 7 o'clock Mayor Bough telephoned from his residence to Chief Johnson at city hall and asked him to see that all immoral show posters were taken from the various windows in the city.

Chief Johnson spent about an hour looking after an ordinance covering the ground, and then went to the opera house, where he held a lengthy conversation with the manager of the company. He was assured there was nothing wrong in the show and suggested that an officer be stationed in the house during the performance. Officer Whan was detailed to do the work, but Officers McMillan and White were there also.

The performance was by no means of a high order.

Straw hats, new styles, received today at

JOSEPH BROS.'

Thompson Hill Lots.

A syndicate is being formed to buy Thompson Hill property. Mr. J. T. Smith, the head of the enterprise, says the shares are being taken rapidly, and he expects the list to be completed by Monday evening or Tuesday morning.

It is proposed to make a public sale of Will McGuren is confined to his home lots at prices that will insure quick sale. This will be a popular addition to the city, as the lots are so close to the business part of the city. They are considered very desirable.

### Daniel R. Ryan.

Daniel R. Ryan and his company will be at the Grand Opera House all next week in a repertoire of New York successes. Monday night "The Lost Paradise" will be presented with special scenery and effects. ## TO STUDY THE OCCULT

New Psychic Study Society Organized In New York.

AIMS OF THE ORGANIZATION.

Its Members Offer to Explain Phenomena of Dancing Furniture and Ghostlike Apparitions-Dr. Gibier's Defense of Psychism-The Society Starts With One Hundred Members.

The first meeting of the Psychic Study society, organized by the Rev. Henry Frank, was held the other evening in St. Stephen's hall, in New York. It was a public meeting, and the hall was crowded to the doors. In the audience were clergymen, physicians and other professional men. The speakers were the Rev. Henry Frank, who presided. and Dr. Paul Gibier, head of the Pasteur institute in New York. Among the stated objects of the society are "the study of hypnotism and mesmerism and an inquiry into the alleged phenomena of clairvoyance, somnambulism, thought transference and all matters of kindred nature and the careful investigation of any reports resting on strong testimony of alleged apparitions occurring at the moment of death or otherwise and of alleged disturbances in places reputed to be haunt-

The proceedings began with the ejection of an aged scoffer. He arose, and, addressing the Rev. Mr. Frank in a loud voice, wanted to be informed whether the meeting was a bona fide public one or whether it was packed 'like a mere Saratoga convention.''

"It is absolutely public, and all are entitled to give their views and join the society or refrain from doing so," replied the Rev. Mr. Frank. "I guess nit, and I've had enough of

"Put him out!" commanded the

president, and this was promptly done. "Now," said the Rev. Mr. Frank, "gentlemen will pass down the aisles with slips of paper, and those who wish to join the society will please write down their names and addresses."

"I think," ventured a man in the audience diffidently, "that it would perhaps be as well if the objects and aims and plans of the society are explained to us before we are asked to join it." This suggestion was applauded by some persons in the rear of the hall, and the Rev. Mr. Frank explained these at

He told how a man had come to him and told him that his furniture had taken to dancing and reeling about the rooms of his house in a most inexplicable and terrifying manner, so that his family were "scared half to death." He also spoke of another case to which his attention had been drawn. It was that of a man who was on a visit to some friends. The visitor, while in bed, there being a light in his bedroom, saw a person enter the room, go to a bureau, take therefrom a razor, stand in front of a mirror, cut his throat and vanish. At the breakfast table the next morning he recounted what he had seen and identified the apparition's portrait from among 100 photographs. He then learned for the first time that the original of the portrait had years before committed suicide in the manner described and in that very bedroom.

"The society," said the Rev. Mr. Frank, "will investigate any reports made to them of dancing furniture and manifestation of any nature whatsoever. If it be found that there are no Keely wires, that pranks are not played upon the persons who report the alleged phenomena, the cause thereof will be sought for in a cautious, strictly so pritific and thorough manner by members qualified by their scientific attainments, study or intelligence to pursue such investigation.'

Dr. Paul Gibier was then introduced The doctor is the author of a work en titled, "Phychism - An Analysis of Things Existing." It was explained that he was under the impression that he was to address a body of scientists and not a public meeting. Instead, therefore, of entering upon a scientific discourse, as he had intended, he delivered an address in defense of psychism.

"The time is fast approaching," said he, "when a lack of knowledge of this subject will be considered as gross ignorance. It has been said that in psychic phenomena a possible explanation of the universe might be found. Is this not too rash an assertion, and is not the expression of this expectation by far too unscientifie? I think not, for the aim of science, as pointed out by Huxley and other savants of his school, is nothing short of a complete explanation of the universe.

"In reality neither Huxley nor Tyndall was consistent in his teachings in denying the existence of and scorning psychic phenomena, a subject which they had not investigated. They failed to steer their bark according to their beacon. They did not hold to what Huxley termed 'that scientific ars artium,' the art of saying 'I don't know,' and the facts are the reefs on which the consistency of their attitude was wrecked, for facts exist."

ence joined the society, which starts off with upward of 100 members.—New terrors."—Louisville Times.

### SOLDIERING ABOUT MANILA.

A Nebraskan Describes the Sensations of a Man In the Ranks.

L. C. Peters, a soldier of the First Nebraska in the Philippines, writes to a Chicago paper:

"What do we think of? How do we feel? What do we do? are the questions, no doubt, of the residents of the central western states who have friends and relatives in the army. Well, we think of when we are going home, think of what we used to eat and when we'll eat again, and a few other things. What do we do? Well, we fight, sleep and do guard duty; that is about all. We feel tired.

"The country over which most of the conflict in Luzon is being waged is very rough, and is cut up into ridges by the numerous ricefields. To give one an idea of the topography it will suffice to say that the ricefields are all terraces running around the many small hills. These terraces are each about 100 feet wide, and rise one above another, each being about a foot or 18 inches higher than the one right below it. Climbing and running up and down terraces with a haversack containing 250 rounds of Springfield ammunition slung across the shoulder and a belt of 50 rounds around the waist is not very enjoyable work. and soon tires the strongest men.

"The manner of fighting the insurgents differs a great deal from the ordinary methods of warfare. No pitched battles are fought, no firing from behind breastworks of stone or earth. To fight the Filipinos one must ambush or be ambushed and after the enemy is once in sight must run him down. The Filipinos worry more than really fight. and this constant worrying of troops by small bodies of insurgents makes the work very fatiguing to the soldier. The Filipino carries no heavy pack or acconterments and goes barefoot most of the time. He can run like a deer, and does so rather than meet a foe face to face. Being light of foot and knowing every foot of the country he traverses. he has a big advantage. Then, again, he doesn't have to worry about holding the ground he takes, for he isn't on the taking side of the game.

"It is interesting to know how many of the boys believe in fatality, and one often hears one say to another, 'Well. when your time comes to die you'll die, no matter whether you are in the front or rear, and there isn't any use dodging. Dodging bullets is a harmless but useless pastime indulged in by many. Dodging is useless, because when one hears the ball it is already past and too late to dodge. One soldier when 'loshed' for ducking his head remarked, 'Well, I'll tell you fellows there's consolation in knowing you tried to get out of the way anyhow.''

### HEROISM OF TENTH'S MEN. Surgeon From Manila Tells of Penn

Dr. W. C. Hamilton, who went to Manila with the Tenth Pennsylvania regiment, returned to his home at Beaver, Pa., recently. He was transferred to the hospital corps at Malate on Sept.

Dr. Hamilton said: "The men of the Tenth are ready to stay in the Philippines as long as the government may need their services, and that will be for some time. The Filipinos are likely to conduct a long bushwhacking fight. When I left Manila, the men of the Tenth were in good condition."

Dr. Hamilton tells a story of heroism on the part of George Gibbons and Frank Barbee, who enlisted from San Francisco. During the battle of Caloocan news was brought that a Montana captain had been fatally wounded. Gibbons and Barbee went after him with the ambulance. Dr. Hamilton continues the story as follows:

"When the ambulance stopped and the two were about to pick the captain from the ground, both horses were shot. Gibbons, who was a strapping fellow, put the wounded captain on his shoulders and started back, when a bullet

pierced his heart, and he dropped dead. "Barbee picked up the captain and carried him back to our temporary quarters, a distance of one-half mile. Barbee then returned to where his comrade lay dead and succeeded in carrying his body back in safety. After the battle was over this Montana captain sent for Barbee and handed him his belt and revolver and told him to take them as a remembrance."-Special Philadelphia

O Death, Where Is Thy Sting? The boycotting of the luckless Mexican embassador by representatives of the other powers at Washington recalls an anecdote of a recently deceased clubman. He was present one evening at a little musical gathering when an aspirant for honors as a pianist seated himself at the piano and began playing one of the national airs of Mexico, "La Paloma." His execution was deadly, and he banged and thumped the instrument until it was a fit object for the interference of the humane society. Finally he whirled around on the stool and said: "Did you notice the air I was playing? Well, when they led Maximilian out to be shot they asked him what tune he would like to be shot by and he selected 'La Paloma.' Do you know why?"

"Yes," replied the clubman as he glared at the executioner of the tune.

### EPWORTH LEAGUE.

Topic For the Week Beginning April 30. "How Shall We Divide Our Time?"-Text, Eccl. iii, 15.

"That which hath been is now, and that which is to be hath already been, and God requireth that which is past.'

No one truth is more pressed home upon me by the Bible than that of personal accountability for the use of personal power and opportunity. The world of things moves in regular lines of law, and a man can know assuredly what is to be in the future from what has been in the past. Circumstances may change, but the great fundamental principles of human nature and the rules which apply to conduct never shift ground. We are what we make ourselves. God has given the raw material of our lives, and we manufacture character. For this He holds us responsible, and offers rewards for right results and pronounces penalties for wrongdoing and evil. The only sober thing for every man is clearly to recognize his duty to God and then to set himself to work to use his time and talents and opportunities so as to bring the largest and best results to God and himself.

It is folly to devote one's time and energy so fully to securing business advancement that the other needs of life are neglected. Soul needs should be recognized and fully provided for. Social duties and wants are real issues of moment in every life. One must cultivate neighborliness for his own sake and the good of others. He must learn to give and take or be less the man than he should be. Knowledge of men and things at large, the world and its great movements and interests, also have a claim on our attention and time.

Above all, a man should take time to be alone with himself and his God. The "quiet hour" is needed daily in every life. It is needed to sober one from the intoxication and excitement of the world's mad rush around us. It is needed to cast the anchor of faith and hope deeper and more securely in the unseen but real things of existence. Time must be given to think of God, of heaven, of holiness and the real hap-

Stint your sleep if necessary, cut short your pleasures, economize time in your business, be frugal in social exertions, but give yourself ample time to get acquainted with God. If you can't bear to talk a few minutes a day with Him now, how can you ever expect to enjoy an eternity with Him hereafter?

## WASHINGTON'S BIRTHDAY.

Celebration of Our National Holiday In Porto Rico.

In an interview the other day Mr. Williams, secretary of the Porto Rican commission, emphasized the fact that the people throughout the island are pleased to realize that they are American citizens and proud to stand under Washington's flag and share the freedom he gave his people. This was particularly evident on Washington's birthday, when, by order of General Henry, the 22d of February was made a public holiday and was generally observed as such throughout the entire province. Early in the morning two native bands of San Juan marched through the city and serenaded a number of prominent citizens.

In the afternoon the school children assembled on the plaza there, each child carrying an American flag, and paraded through the principal streets to the theater, where appropriate exercises were held. On the stage was a large lithograph of George Washington, draped with the stars and stripes. Thrilling tableaus were presented by the American sailors and soldiers. A beautiful feature of the entertainment was the singing of "America" by 15 Porto Rican girls. - Washington Star.

### UNIQUE SCHOLARSHIPS.

Strange Conditions Required of Candidates Competing For Them.

A unique set of scholarships has been founded at the University of Paris by an unknown donor. They are five in number and are worth 15,000 francs each. The conditions are strange indeed. The chosen candidates, it is required, must know English. They must go on a long journey lasting 15 months. during which time they are to visit all peoples and climes. It will be their duty thoroughly to inform themselves as to the characteristics of the various people they visit, investigate the methods of government and determine what factor gives prosperity to the peoplewhether it is due to the government or the people, and if to the latter what characteristic is responsible for it. The conditions further require that they must obtain this knowledge and information themselves and not accept it from official sources. - Paris Cable New York Journal.

Expensive Correspondence.

If this expansion of the messenger boy service continues, there won't be an American girl that will open a letter from anywhere that doesn't come by the writer's "own" messenger, so quickly do "our girls" accommodate them-

### UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or living of a boot or shoe, is a guarantee that the same is made

hat the same is made by union labor. Look for the above design stamped on the sole every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat, on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made has before it leaves the workman's hands. If a dealer takes label from one has and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

UNION MADE CLOTHES.

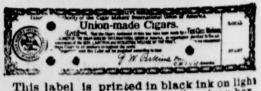

You will find the linen label attached by machine stitching to the inside breast pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband lin-ing of the pants

BICYCLE LABBL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as fol-lows: The Union shield is in red, white and blue, on a background of pea green, bordered by gold
The Label will

be placed on the upper front side of the tube that receives the seat post. BLUE LABEL CIGARS.

This label is printed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color. TOBACCO LABEL.

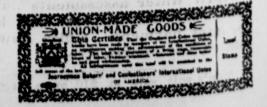

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactured in union tobacco factories.

UNION BREAD AND CRACKERS

This is a full size facsimile of the Label of
the Bakers' and Confectioners' union. It is
printed on fine white
paper and is pasted on
each loaf of unionmade bread. It is an
evidence that the bread
is made under fair and
wholesome conditions. wholesome conditions,

and in clean and healthy bakeshops. Fol-lowing is the confectioners and cracker

## **NEW HOMEMAKING MOVE**

How a Kansas City Boomer Is Building His House.

WILL USE DOMESTIO MATERIALS.

Foundation Is of Native Stone, and Nails Only Are Foreign -- Lumber Was Dressed In Kansas City-Would Use Homemade Dishes, but the Good Wife Objects.

There is a man in Kansas City who decided to build a home this spring, and, being a boomer, he conceived the idea of constructing and furnishing his house as nearly as possible from Kansas City materials. The only foreign course the lumber was shipped here from a distance, but since it came on in the rough and was dressed and made ready for use by Kansas City planing mills he feels the right to stretch a point in this respect. And what makes the boomer particularly happy is that his house will cost less than the \$3,000 he expected to put into it, and he considers the homemade materials are superior to any that could be imported This is his own story:

"I am a constant 'rooter' for Kansas City, and when I started out to build a screws for putting it together, I'd defy any man to lay his hand on a part of it that wasn't manufactured here. To begin at the beginning, the foundation of my house is Kansas City limestone. quarried by Kansas City laborers, using Kansas City made tools. The stone was hauled from the quarry to my house in wagons made in Kansas City, drawn by Kansas City horses, wearing Kansas City harness. You see, I went in for the whole thing while I was at it. The cellar and excavations for the foundation were dug partly with Kansas City picks. I think they worked in a shovel or so that wasn't made here, but I couldn't prove it. The foundation stones were cemented together with sand from the river and lime made right here.

"I wouldn't have any lumber that had been dressed away from Kansas City, as I consider it manufactured at home if it comes here in the rough and is prepared for use later. All of the main body will be made of lumber that I know has been through Kansas City planing mills. There will be tar paper under the weatherboarding, and that is made here, as will be all of the doors. sashes, sashweights, locks, doorknobs, cornices and the art glass in the front door. I had to put up with imported glass for the windows, but it was because there wasn't any way to get around it, and the lights will be put in with Kansas City putty. The laths and chingles, too, are worked up somewhere else, but I had the satisfaction of knowing that we have the machinery in Kansas City planing mills to do the work if we wanted to.

"If any corrugated ironwork goes into my house, it will be homemade. So will be all freizes and centerpieces. newel posts, stairs, chandeliers, mantels, all cornices and moldings. I suppose the guttering and rain pipes will have to be made from imported tin, but Kansas City manufacturers will shape it and solder it together with Kansas City made solder. All of the drain pipes that are made of clay will be manufactured here. So will be the furnace in the cellar, the granitoid walks outside and the iron fence in front.

"When the finishing time comes, the house will be painted with homemade paint inside and out. The rooms will be frescoed with the same product, and when the floors are stained and varnished or waxed, all these will be made here. In the kitchen will be a range made, you bet, in Kansas City, United States of America. So will be the pans and the kettles, water pails, tinware, and all kitchen utensils except cutlery and iron pots. The kitchen table and cabinets, chairs and brackets and shelves will all be made here. The coal we burn in the range will be mined in Jackson county with Kansas City made tools, and those same Kansas City made wagons will haul it to my house.

"In the dining room will be rugs made in Kansas City; likewise a table and chairs and a sideboard. There will probably be a couple of pictures on the walls, and these will be painted by Kansas City artists and inclosed in Kansas City made frames. The window shades and shade fixtures will be made here, though the raw material for the shades will have to be imported. Unfortunately I will have to leave town when I buy tableware—china, glass and cutlery, tablecloths and napkins. If I had my way, we'd eat out of Kansas City pottery with Kansas City made spoons, but my wife won't stand for that. The parlor floor will be covered with a Kansas City made art square. There will be plenty of homemade pictures, a couch, stand table, chairs, ornaments-everything, in fact, made here, except the piano.

"The bedroom sets will be manufactured by local firms. So will be the

mattresses, the occ springs and the ph lows. All cloth, of course, must be imported, but everything will be worked up here. The feather bed will be stuffed with Kansas City feathers from Kansas City geese, and the mattress will be one of the patent kind that no one but the manufacturer knows how to make, but he makes it here. The lights in my house will be partly gasoline lamps, made in Kansas City, of course, and partly incandescent gas lights, the mantles for which are also made here. When we get the house finished, I expect all my of my friends out to see it."-Kansas City Times.

### EDUCATION IN PORTO RICO.

Introducing the American Common School System.

From a private letter received at Washington from an American in Porto Rico some interesting information not contained in the press dispatches is dematerial in the structure is nails. Of rived. He is especially interested in educational matters. It appears, among other things, that steps have been taken to prepare a statute covering the principal points of American common school legislation, the first draft of which has been finished. Fifteen young Americans have been employed and sent out nominally to teach English, but really to perform at the same time the duties of county superintendents of schools. Their jurisdiction and duties will cover the schools of the entire island and supply a want that has never before been met. A revised course of study has been prescribed for the common schools, and a new series of textbooks for use therein house I made up my mind to make a has been prepared, the use of which has sure enough Kansas City house. If I | been officially authorized. The books could use glue instead of nails and are to be published by a Boston firm. Plans for public school buildings have also been worked out. Only four such buildings now exist in Porto Rico. The letter continues:

"The new secretary of the interior, De Valle, is a fine business man, with the practical instincts of a Yankee, and business moves along with remarkable smoothness and celerity since he assumed office. I mailed you the other day a newspaper containing the platform of the new political party organized here. The men are the American Porto Ricans. Some time must elapse before the rope can safely be taken off Porto Rico's collar. She can't run alone until enough of the natives have been educated in American ideas to make the American Porto Rico element the majority. At present the Rivera faction, Spanish in all its methods and principles in spite of all its professions to the contrary, would soon gain control.

"This is a fine country, and with good roads and schools will be a prosperous one. The reports about disturbances are all bosh, but there are much financial depression and actual suffering. It seems to me that the currency ought to be changed at once. You can not get the idea out of the heads of these people-and you couldn't if present conditions were to continue for years-that the United States is to redeem at par the Porto Rican currency, whose official ratio is 60. The result is money hoarded, no investments, no purchasers for crops, no business. Of course the tariff uncertainty aggravates this state of affairs. "-New York Trib-

### SIGNING OF THE PROTOCOL

Chartran Is Painting This Historical Event In the Late War.

The signing of the peace protocol between the United States and Spain on Aug. 12, 1898, is being painted in oil by Theobald Chartran, the famous artist of Paris, now in Washington as the guest c\* Embassador Cambon.

President McKinley has given the artist several sittings, posing in the position he occupied by the table in the cabinet room when the signatures were affixed. Embassador Cambon and others who composed the party have also posed. Judge Day will give such sittings as

may be required. Others who were present at the signing and who will appear in the picture are Assistant Secretaries Moore, Adee and Cridler, of the state department Assistant Secretary Cortelyou, Executive Clerk Pruden, Chief Telegrapher Montgomery of the executive mansion and Secretary Thibant of the French embassy.-New York World.

### Vaccination Teas.

Mrs. Bray, the wife of Mr. R. M Bray, Q. C., of Manor House, Shere, England, in order to encourage young persons and children to be vaccinated, proposes to give a tea and entertainment in her grounds in August to all girls above 12 years and to all boys between the ages of 12 and 14 who are vaccinated for the second time this year and to young children above the age of 5 who are vaccinated for the first time this year. -London City Press.

### Lightning Rod Slide to Matrimony.

Miss Delia H. Johnson and Charles A. Boyd were married at Chattanooga the other afternoon, after the bride's daylight escape down a lightning rod from a female seminary at Sewanee, Tenn., and a sensational pursuit of the couple through the country by the bride's father and a big brother armed with shotguns and vowing vengeance on Boyd. -Baltimore Sun.

Promette

"Miss Mary, are you sorry that your sister Evelyn is married?" "No, it advances me one number." CHRISTIAN ENDEAVOR.

Topic For the Week Beginning April 30-Comment by Rev. S. H. Doyle. Topic.-How shall we divide our time?-Eccl. iii, 1-15.

The proper use of our time is one of the most important duties of life. It is a gift of God which once gone never returns. Our success in life depends upon our ability to properly divide and properly use the time which God allots to us. In these days, when the demands upon the time of those who are active and industrious are so multitudinous, the question of the proper dividing of time becomes all the more important. Alfred the Great of England divided his day into three periods of eight hours each—one period for work, a second for recreation and the third for sleep. Thus he accomplished much in life.

The wise man in the topical refer ? teaches us that God has set a time for all things. The changes that are going on in life are constant, and yet nothing is done haphazardly or without system. There is a time for every work of God. and each comes in its season. If God finds it necessary in order to carry out His purposes in life to have a time and a season for everything, how much more certain it is that if we are to accomplish the purpose for which God made us we must have a time for the duties of life and perform them at their

Just how each one is to divide his time is a question that he only can decide. But there are certain principles which should have due influence upon all in the use of time. 1. We should use our time in conformity to the will of God. Time is a precious gift of God that should be consecrated to Him, just as we consecrate our money or our talents to Him. 2. In the division and use of our time ample provision should be made for all religious duties and devotions. The spiritual is often neglected for the material and sacrificed for that which is of less importance. Many who allot sufficient time each day for the feeding of the body make no provision for the soul, yet it is just as necessary that the soul should be fed as the body. 8. We should divide and use our time in the light of eternity in view of the fact that time will some time end and we shall be called upon to render an account for the use we have made of it. We should strive to use each moment, hour and day of our lives as we shall wish we had used them when the end of our time here comes. No better motto or rule for the proper division and use of time could be suggested than

Bible Readings.—Ps. xxxix, 1-5; xc. 10-12; Eccl. xii, 1; Isa. lv, 1-6; Math. vi. 24-34; Luke xix, 41-44; John ix, 4; xii, 35; Rom. xiii, 11-14; II Cor. vi, 1.

Epigram by a German Admiral. In the house of commons at London the other day Lord Charles Beresford

"The German admiral at Wei-Hai-Wei made a remarable statement to me. He said, 'The Russians are busy building docks at Port Arthur, the Germans are laying out parade grounds at Kiao-Chou, and the English are laying out cricket grounds at Wei-Hai-Wei. -Special Cable to New York Sun.

Cyclone Blew Steeple Through Roof. The wind went off on a cyclone spree down in Selma, Ala., the other day, and after culling off the steeple of the Methodist church with one twist it turned the tower upside down and drove it through the church roof as a cross child might stick a pin through a card. There were three persons standing in the church as the steeple crashed

through the roof to the floor, but for-

tunately no one was hurt.

"Play Ball!" Let wars and politics and stocks And other themes give way, For there's a greater subject now-The baseball opening day. Across the land is heard a cry That thrills us one and all, For on the diamond, where's he's king,

The umpire shouts, "Play ball!

'Tis now the happy day for which The cranks so long have yearned, Event to which through wintry months Their thoughts so often turned. Along the bleachers as of yore The faithful rooters roost And to each player in the team They give emphatic boost.

The poles on which are strung the wires Of telegraph or phone Are nimbly mounted and with weight Of human burdens groan. To every knothole in the fence An eye is tightly glued, And oft the owner of that eye By pals is interviewed.

And now the batter takes his place, While deafening plaudits ring, And now he draws the willow back, And now he lets 'er swing. A smash-a ball in rapid flight-A wild, approving shout, And then a painful silence reigns, Because the batter's out.

And now a slashing hit is made, And rooters jubilate, Then groan because the runner's nipped By catcher at the plate. Another smash, a rush round bags, A run the hero scores, Then proudly doffs his cap amid A storm of cheers and roars.

Thrice happy day that thus brings back The joys of summers gone! Let all the populace rejoice, For now the season's on. Upon each other's necks the cranks And faithful rooters fall And now agree that life is worth

The living, after all.

-Pittsburg Chronicle-Telegraph.

## Mrs. Lake.

This eloquent platform orator, vice president of the Catholic Total Abstinance society of the United States, will deliver an address on MON-DAY EVENING, May 1, in the First M. E. church, East Liverpool. Admission free. Lecture will begin promptly at 8 o'clock. Attend early if you desire a good seat. Mrs. Lake has a national reputation as a speaker.

### LOCAL BREVITIES.

Lieutenant Robert T. Hall was in Pittsburg today on business.

S. B. Felt left this morning for Chicago where he will remain 10 days on business

A car containing about 2000 fruit trees was received in the lower freight yards yesterday afternoon.

Fred Laufenberger has purchased the northeastern corner of Fourth and Jackson streets and will erect a handsome residence.

A large skiff loaded with nitro glycerine and floating the red flag passed this city yesterday afternoon going to the oilfields.

The Sunday school of the First U. P. church will picnic at Cascade park June 16. The First M. E. church has closed a date with the same park for June 27.

Mr. Baker, superintendent of the mail clerks of the Cleveland and Pittsburg division, spent last evening in East End the guest of his father. He left this morning for Pittsburg.

The township trustees have filed their report for last month, and it shows that they expended \$80.25 of the county funds and \$131.88 of the township money. Of the last amount about \$40 was spent on the roads.

A force of workmen today cleaned the yards about the outbound freight depot. Much rubbish had been allowed to collect during the month, and the yards were very unclean. The cleaning has added much to the appearance of the yards.

The train due in this city at 8 o'clock last evening did not arrive until 10:05 o'clock. The delay was caused by a wreck at Yellow Creek on the river division, caused by the breaking of an axle of a freight car. Traffic on both divisions was delayed as a result.

Architect Fritz left this morning for Beloit where he spent the day taking data for the purpose of drawing plans for the pottery to be erected by Sebring Bros. Engineer Kelly and Gardner Minehart, who have been there during the week, will arrive home this evening.

Constable Miller yesterday afternoon swore out a warrant for the arrest of H. S. Rinehart for resisting an officer in the pursuit of his duty. Rinehart plead not guilty in the court of Squire Rose and the case will be heard Wednesday. A like charge will be entered against Roy Rinehart.

The Messrs. Tyndall, of Pittsburg, with Engineer Bradford arrived in the city this morning, and went direct to to the Virginia side where they looked over the ground on which the new mill will be erected. The gentlemen stated matters were progressing very favorably, and work on the mill would be rushed with all haste possible.

Monday evening the warehouse women will hold a union meeting in Ferguson & Hill hall, and all the dressers and brushers are invited to attend. The meeting will convene at 7:30 o'clock. The warehouse women state that they have struck for \$1 a day and will not compromise upon being paid by

Deputy Sheriff W. C. Supplee was in the city yesterday serving subpoenaes for the grand jury, but he only had a few. While here he served papers on Solicitor McGarry in the cases of Charles E. Swan versus the city for \$500, and William Ivers, administrator, versus the verge of consummation for the past city for \$5,500 damages. The cases will three months, was announced as a cerbe heard May 20 and May 27.

The summer schedule of the Cleveland Pittsburg road will probably be received in this city not later than May 15. There will be very few changes in the running time of passenger trains but the freight schedule may be altered considerably. The train due at this place at 12:15 will no doubt be put back on its old time 12:08.

## MRS. GEORGE FREED.

Many Congratulations to Her on Her Acquittal.

### RECEIVED A THEATRICAL OFFER.

Five Hundred Dollars For a Week's Engagement-Also an Offer to Lecture, but She Declined-Crowd Cheered the Verdict-Going to Her Mother's.

CANTON, O., April 29 .- A verdict of "not guilty" delivered to the court acquitted Mrs. Anna E. George of the murder of George D. Saxton and ended her seven months' confinement in jail. The verdict was reached after a trial of 22 days of actual sessions of court and after 223/4 hours of deliberation in the jury room. In less than an hour after the verdict had been announced congratulatory telegrams were received by Mrs. George from sympathizers in many quarters of the country. More of them were addressed to her attorneys and were congratulations on a professional

During the afternoon and last evening Mrs. George was kept busy receiving her friends.

A mighty cheer went up from the crowd in the courtroom when the verdict was announced.

The cheer was almost instantly taken up by the people who packed the streets. Mrs. George's face lit up with a smile as the words were spoken that made her a free woman. She was immediately surrounded by a great throng, who desired to congratulate her.

Mrs. George remained in the court for some time after the verdict was announced and acknowledging the congratulations of her friends. She then went to the Hotel Conrad in company with Mr. and Mrs. McElheny, her cousins, who has been with her during the trial, and lunched with them at the hotel. The jury was out about 23 hours and 45 minutes and during that time 22 ballots were cast. The interval between these ballots was spent in discussing the case's various phases.

After the jury reported it was said that the preliminary ballot was taken about a half an hour after they had been closeted in the jury room. The ballot showed four favoring a verdict of guilty of murder in the first degree and eight jurymen for a verdict of not guilty, or acquittal. The second ballot resulted the same. This was also the result of the third ballot taken. The fourth ballot was said to have been two for guilty in the first degree and seven not guilty, one for second degree and two for manslaughter. The fifth ballot was taken with eight for not guilty aud four for manslaughter. This was the result of all the succeeding ballots up to the fourteenth.

The fifteenth ballot resulted in nine for not guilty and three for man-slaughter. The sixteenth ballot stood eight for not guilty, three for manslaughter and one for assault and battery. The twentieth ballot was taken showing 11 for not guilty and one for

first degree murder. The same result was obtained in the twenty-first ballot. The twenty-second and last ballot was a unanimous vote for not guilty.

A number of women friends and acquaintances called on Mrs. George in the parlor of the Conrad hotel. Juryman Miller was one of the callers and to him Mrs. George expressed her

warmest thanks, saying she had known him as her staunch friend from the first. Mrs. George in the course of an interview said in part:

"The verdict was what I had expected from the start. I am very grateful to the court and to the officials for the consideration they have shown me. I am also very thankful to the gentlemen who represented the press. I cannot find words to express my feelings towards my attorneys. Their work was beyond all praise. They left nothing undone in my behalf and I shall re-member them and appreciate them as long as I live.

Dinner merely interrupted the impromptu receptions at the Hotel Conrad parlors. This seemed a very pleasant diversion for Mrs. George, for she was a willing hostess.

Several of her relatives and a number of Canton women friends were with Mrs. George. The party kept close to the hotel most of the time.

Mrs. George said she would remain in Canton until Monday morning, when she would start for her mother's home at Hanoverton.

All of the telegrams received by Mrs. George were not mere congratulations. One, it was announced, was from a theatrical company in Columbus, offering her \$500 for a week's engagement with the company. Another offer was for the same sum for a lecture in Pittsburg, on "Woman's Rights." One of her relatives, speaking for her, said both offers had been declined as would be all such propositions.

PROJECTED SEWER PIPE COMBINE.

### Great \$25,000,000 Trust Again Reported Nearing Completion.

AKRON, April 29 .- The big sewer pipe combination, which has been on the tainity. Frank M. Atterholt, Esq., of this city, who has been the chief engineer of the deal, returned to Akron from New York and stated that on next Thursday it would be entirely closed up. The options on all the plants were ac-

The combination will include 51 plants, which means all east of Illinois. The capitalization will be \$25,000,000. \$20,000,000 of which will be issued half in preferred and half in common stock. The offices of the trust will be located

No lot can be sold for less than 3/3 of the appraised value. Terms of sale: One-half cash, and balance in one year secured by 6 per cent mortgage on premises. A warranty deed will be given for every lot so sold.

WALTER B. HILL, Att'y. GEO. H. OWEN & CO., Ag'ts,

either in Pittsburg or Cleveland and the president will probably be O. C. Barber of this city, president of the Diamond Match company.

### TRADE NOT SET BACK.

Trouble In Philippines and Samoa Apparently Did Not Hurt Business. Iron and Wool Situations.

NEW YORK, April 29.-R. G. Dun & Co.'s weekly review of trade issued today said in part:

All elements considered it is rather surprising that business has not been set back a lit tle. The uncertainty about Samoa and the prolonging of difficulty in the Philippines might have counted for something, the rising imports and falling exports for some thing. the rise of foreign exchange by some at tributed to foreign sales of copper stocks, and the hindrance of manufacturing orders owing to the recent advance in prices

But there has been great faith that foreign difficulties would soon be cleared away, and the movement in exchange is generally connected with speculative rather than legiti mate operations since accounts of trade still indicate a large increase of exports. After every rise in prices manufacturers have to consider whether hindered consumption wit increased production will make them difficult but confidence with which combinations are formed and extended still shows prevailing belief that no danger point is near.

The state of foreign trade justified confidence rather than apprehension. It is the season for the lowest exports of staples, and their prices this year are extremely low, but the unprecedented foreign demand for manufactured products so far compensates that the excess of exports in March was heavy and apparently has been in April.

The presence of English merchants in Bos ton trying to sell English medium wool which could be delivered there at about 32 cents, a: the same time that English buyers were tak ing a little fine territory for export and Ger man buyers 300.000 pounds more Australian from bond shows the opposite trend of popular taste in different countries.

Clay worsteds here have advanced 71/2 cents and serges 5 cents, which has given a stronger tone to whole market. Fine wool is relatively cheap here and dear abroad, but concessions make the lowest prices of the year in all kinds as heavy stocks carried for years come into presence of new wool, said to be 300,000,000 pounds. Manufacturers are not now buying largely, though in four weeks 30,918,785 pounds were sold, of which 23,315.085 were domestic. against 41,712,850 in the same week two years ago when wool was rising.

Without business Bessemer pig is unchanged at Pittsburg and Grey forge strong at \$14.50 though 16,000 tons southern have been sold here at \$14.20. There are some large struc tural orders, a Philadelphia building for 17,00 tons, a western bridge for 5,000, a Duluth ele vator and St. Lawrence bridge at Quebec though the general run of orders in this line is light and in rails no large sales are re ported, though inquiries for 50,000 tons are said to be in this market.

Advanced prices are noted in pipe and in crease in merchants' orders with similar busi ness in sheets, and at the west in bars, pend ing the completion of the combination. But the general decrease in new demand raise the question whether prices will be main tained after current orders are run out. Failures for the week have been 184 in the United States, against 262, last year, and 23 in

### For Chaplain Hunter's Parsonage.

Canada, against 16 last year.

PITTSBURG, April 29.—The movement to build a parsonage at Jamestown, Pa. for Rev. Joseph L. Hunter, pastor of the lecal Presbyterian church, and at pres ent serving in the Philippides as chap lain of the Tenth Pennsylvania regi ment, is being pushed vigorously by the young ladies of the congregation who have taken charge of the matter. More than 1,000 coupon letters have been sent out and all friends of the chaplain and of the regiment are asked to make an offering for the purpose indicated.

Extremely Extraordinary are the Cures Daily Being Performed by the Boy Phenomenon.

Whose Marvelous Powers In Healing the Sick Has Been a Source of Wonder and Astonishment to All-His Parlors at the Thompson Hotel Daily Thronged With Patrons From All Parts of the State.

The remarkable advancement by the Boy Phenomenon in the science of magnetic healing continues to attract crowds of anxious and afflicted people. His wonderful success has spread like wildfire among those who had given up all hope of ever being well again, and they are, by hundreds, availing themselves of this miraculous power and gift of healing, which has proven to be the surest, quickest and most reliable means of cure ever offered a long suffering public.

There is no kind or variety of diseases which is not cured by this gifted magnetic healer. Every name, nature and condition of disease, that all other physicians have given up as incurable, seem but as play to him, for he is so strongly endowed by nature with such a great magnetic power that he is able to break up congestion and cure most obstinate chronic diseases sometimes with only a single treatment.

His patients are numbered among all classes of people, the rich and the poor, the educated and the ignorant, the intelligent and refined. People with the most profound reason have given up their prejudices, been convinced and are now profiting by what they have seen and know to be facts. Having thoroughly realized the folly of waiting and suffering weeks, months and even years with disease which could as well be cured in a day, reason and judgment, in place of experiment and theory, have taken the helm and guided them to the invincible power of magnetic healing, which is the active principle of all life, action and health giving

The most astonishing and truly remarkable cures which he absolutely performs in public, and the great number he is treating daily at his private parlors, speak louder and more convincing than words of the mysterious skill he possesses. His cures are certainly as lasting as they are miraculous, and were they performed at any previous period of the world's history, they would surely be considered miracles indeed.

To see and know positively that this boy is of a verity, curing all manner of ailments simply by laying on of hands, and that in the most incredible short space of time, is creating an exciting episode in the city. Almost every train coming to East Liverpool brings some poor suffering, afflicted man or woman to him, and to witness the delight of these people as they return to their homes, renewed beings in the possession of new life, health and energy, is certainly the opportunity of a lifetime, and is profoundly appreciated and widely commended by an intelligent public. While he will remain in East Liverpool at the Thompson Hotel two weeks longer, no new cases will be taken for treatment after next week, therefore those who wish treatment must apply before the end of next week. most incredible short space of time, is creat-
